Notice.

A Sub-marine Telegraph Cable having been laid between the Ports of Akyab and Khyouk-Phyoo, the attention of Commanders of Vessels anchoring in its neighbourhood is requested to the following instructions prepared by Captain Burbank, of Her Majesty's Bengal Steamer *Fire Queen*:—

INSTRUCTIONS.

Vessels proceeding in or out of the Khyouk-Phyoo Harbour should on no account anchor to the Westward of the Reliance Buoy for the following reasons:—

1*st.* The legitimate passage is to the Eastward of the Buoy.

2*nd.* The Sub-marine Telegraph Cable is laid from Circuit House, or Flag Staff Point, along the Western side of the Channel, and when the Pagoda Rock bears N. E., Non-degree N. by E. ¾ E.; Reef Island N. ¼ W., Saddle Island S. W. ¼ S., Flag Staff Point S. E. ¾ E. there is a large bend in the Cable to the Eastward, consequently all Vessels should be prevented, for the safety of the Cable, from anchoring with the above bearings on.

Vessels anchoring with the Red Buoy on with Flag Staff Point will always clear the Cable, provided the Pagoda Rock is not brought to bear to the Eastward of N. E. by N., but they should on no account bring Flag Staff Point open to the Southward of the Red Buoy.

Vessels anchoring to the N. W. of Pagoda Rock will always clear the Cable by keeping Flag Staff Point well open to the Eastward of Red Buoy as far as it can be seen. Vessels anchoring off Pagoda Rock should endeavor to anchor as near to the Rock as possible.

Vessels running between the Island of Penny Kyong and Angrey Kyong having cause to anchor, should border a little on the latter Island, for the Cable is laid down along the Centre Channel approaching Penny Kyong gradually for about six miles from entrance when it is brought ashore.

C. Douglas, *Major,*
Offg. Director General of Tels. in India.

Alipore Jail Press.

THE under-mentioned has to bring to the notice of Public Officers indenting for Form and other Work on the Press, that very great delay in complying with their requisitions as well as additional labor to this Office arise from applications being sent direct to Alipore, and addressed in various languages in different ways as Magistrate of 24-Pergunnahs, Superintendent of the Jail, Keeper of the Jail, Superintendent of the Press, &c.

The checking and revising authority is the Superintendent of Stationery; therefore to ensure compliance with demand for printed work, all applications should be made to that Officer, in whose Office they are duly checked, registered, and forwarded. No work* can be sent from the Press without this system is complied with.

* Excepting Forms for the Income Tax.

CALCUTTA,
The 18th March 1861.

Notices issued by the Post-Master of Calcutta.

ALL communications respecting change of address should be made to the Post-Master of Calcutta and not to the Post-Master General. Letters re-directed, whether delivered in Calcutta, or forwarded to some other Station, are taxed with "Forward Postage."

No. 2061.

The 19th September 1860.—As very many Letters on ordinary Post Office matters are addressed by the Public to the Post-Master General instead of the Post-Master, Calcutta, and as inconvenience is the result, it is solicited the practice may be discontinued, and the Post-Master be addressed on all matters of his Office, except when any party may wish to prefer complaint to higher authority.

ALL complaints requiring redress, such as overcharge of Postage, mis-sending or delay in the delivery of Letters, &c., must be made to the Post-Master-General, accompanied by the Envelopes of the letters referred to; the number of the Delivery Peon should always be stated.

No. 1027.

The 9th July 1859.—Parcels or Book Packets cannot be sent by Private Ships through the Post Office.

Notice.

THE Inland Postage on letters, &c., posted for despatch by the After-Packet must be prepaid. Such letters, &c., as do not bear the Inland Postage, or are insufficiently stamped with the After-Packet Postage, will be detained and forwarded by the next Steamer.

SPECIAL Notice is directed to the subjoined Clauses of Rules, the want of attention to which has occasioned the Post Office much inconvenience.

2nd.—A separate instruction will be required for every change of address, and no instruction will be attended to for more than three months after its receipt.

3rd.—Under Section XXIII. of Act XVII. of 1854, Forward Postage will be charged in addition to all other Postage due or paid thereon upon every letter without exception, which may be re-directed in any Post Office. For example, if a letter posted in Calcutta and addressed to Hooghly is, under instructions which may have been received from the addressee, re-directed in the Calcutta Post Office and sent to Barrackpore, Forward Postage will be charged in addition to the Postage which would have been due, had the letter been despatched to Hooghly according to its original address.

4th.—The practice of giving instructions to the Officers of the Post Office to intercept and re-direct letters, not only imposes much labor upon them, but in large Offices seriously retards the delivery and despatch of the Mails. A register of instructions regarding changes of address will be kept in every Post Office, but it must be understood, that it is impossible to guarantee that they shall be attended to except in the case of letters received for delivery.

LETTERS and Newspapers despatched to and from the United Kingdom by private Vessels are liable to the following rates of Postage, which must be pre-paid by Stamps :—

	Rs.	As.	Pie.
Letters not exceeding ½ oz. in weight	0	4	0
Ditto exceeding ½ oz. but not exceeding 1 oz.	0	8	0

And so on adding 8 annas for each oz. or fraction thereof which includes Inland Postage.

Newspapers not exceeding 4 oz. in weight, 1*d.* or 8 pie must be pre-paid by Stamp, and no Inland Postage is required upon such papers.

Parcels conveyed by the above opportunity for the United Kingdom are liable to Letter rates of Postage.

Notice.

LETTERS arriving at the Presidency Towns by Mail Steamers will be immediately sorted for delivery according to the address alone, without any reference to instructions which may have been received regarding change of address; such changes will be left to be discovered by the Delivery Officers, and be corrected in the forward and unclaimed Departments of the Office.

Forward Postage will be charged in addition to all other Postage due or paid thereon upon every letter without exception, which may be re-directed in the Post Office.

Letters, &c., received by the Steamer will be delivered at the Window of the Post Office only to parties who have registered their names. Applications to the Post Office on the day of the Steamer's arrival to intercept and re-direct letters, &c., cannot be attended to, as they are found not only to impose much labour but seriously retard the delivery and despatch of the Mails.

UNDER the orders of Government, no fourth delivery of letters by the Post Office is allowed. Mails which are received by Steamers from Suez at so late an hour in the day as not to admit of the letters being taken out for delivery by 6 P. M. are detained till the following morning, but parties who have registered their names under the usual fee are entitled to receive their letters and Marseilles Newspapers so soon as the Mails are sorted, and which is generally about 2½ hours after receipt of the Mail, at the Post Office.

Forward Newspapers.—Extra or Forward Postage is chargeable on every Newspaper re-directed at the Post Office of original address and forwarded to another Post Office.

No. 9391.

BANGHY Parcels are in future not to be specially registered, as the full address and weight of all such are registered in the Post Office, and receipts are granted to Senders if required. The Post Office Officials have therefore been directed, not to accept fees for the special registration of Banghy Parcels. Articles sent on Book Post rates are not registered unless a registration fee is paid. When therefore Books or Prints or other Articles of value are sent by Book Post, the Senders can register them by payment of the usual fee of 4 annas.

FINANCIAL DEPARTMENT.

Report of the Committee appointed by Orders of the Government of India, Financial Department, No. 2080, *dated 4th March* 1861, *for the revision of the present system of closing the Public Offices in Calcutta on occasions of Hindoo Holidays.*

Your Committee have given the subject of the closing of Public Offices on Hindoo Holidays their fullest consideration, and have made every possible enquiry among all classes of the community necessary to its elucidation.

2. On looking back to the period (1790 A. D.) when Hindoo Holidays first appeared in a Government Notification, your Committee find that in the progress of time considerable changes have taken place both in the number of the Hindoo Holidays on which the Public Offices are closed, and also in the number of days for which the Offices are closed on the occasion of particular Holidays. Thus in the Government Notification published in the *Gazette* of the 5th August 1790, under the signature of the late Mr. J. H. Harington, Secretary of the Board of Revenue, the number of Hindoo Festivals and Holidays on which it is ruled that the attendance of Hindoos should be dispensed with numbers twenty two Festivals and Holidays, with a total of twenty-five days, and the number of Mahomedan Festivals on which it is ruled the attendance of Musselmen should be dispensed with is noted to be four Festival days.

3. It is to be observed that the said Notification does not authorize the closing of any Public Office on these occasions; but only the dispensing with the attendance of a certain portion of the establishments on the particular days named with reference to their religious creed and observances.

4. With the lapse of time, however, your Committee find various changes recognized both in the number of Festivals and Holidays, and also in the number of days allotted to each; for in 1860 the number of Festivals is set down as nineteen only, while the number of days observed is thirty-five. Your Committee also find that some Festivals have fallen into disuse while others have been originated.

5. Thus your Committee find the Juggodatree Poojah introduced for the first time in the year 1833 with two days' observance; and again the Luckhee Poojah introduced for the first time in the year 1843 with two days' observance, neither having had any existence in 1790, while the Doorga Poojah, which in 1790 had only four days' observance, had swelled its proportion to eight days in 1860. On the other hand your Committee find that the four Festival days allowed to Musselmen in 1790 have no place in the Advertisements of 1860.

6. Your Committee have been unable to discover any authority for *closing the Public Offices* on the occasion of these Festivals, except that indirectly contained in Section X., Regulation IX. of 1810, which has, however, no direct reference either to Hindoo or Mahomedan Festivals, and the periodical Advertisements of the various Sub-Treasurers.

7. Your Committee are led to believe that the closing of the Public Offices has gradually grown out of the diminution of business caused by the non-attendance of Hindoos, consequent on the observance of these Festivals and Holidays at a time when the trade and commerce of the Port and City of Calcutta were of a much more confined description and limited position than the important one they now occupy and command in the commerce of the World, and before Steam, Railways, Electricity, and Education began to work the changes which now render necessary and expedient a revision of the system under which class usages have been allowed to interfere with and supersede general public convenience.

8. There can be no question, as rightly urged by the Chamber of Commerce, that the frequently recurring closing of Government Public Offices on the occasion of Hindoo Holidays is productive of delays, more or less harassing, vexatious, and expensive to all classes of the community engaged in commerce, and which delays ought not to be allowed under any Government.

9. Your Committee see no difficulty, however, in providing for the public general convenience without abrogating any class privilege, or interfering with the religious opinions and observances of any section of the community. They consider that *no Executive Public Office under Government* should ordinarily be closed on any lawful day for the transaction of business on any such account; and they are satisfied that the business of the Public Offices may be conducted without difficulty on the occasion of both Hindoo and Mahomedan Festivals without infringing on the rule laid down by the Notification of 1790, that on their respective Festivals therein enumerated, the attendance of Hindoos and Mahomedans should be dispensed with.

10. Your Committee are satisfied, even without having recourse to the Rule promulgated in the Orders of Government of the 1st September 1834, "that the necessity of attendance on the (Festival) days referred to shall be made a condition with all persons who may hereafter be appointed in the Treasury or Pay Offices," and which is imperative on all such *now employed in their Offices* that the duties of each Office can be conducted without difficulty by that portion of the Establishments whose religious creed and observances do not recognize the observance of such Festivals, and they have good reason to know and believe that so great a change has time wrought upon the ideas of many of the employées of the Hindoo persuasion, that many of those *now* employed would not avail themselves of the permission to absent themselves from Office on the Festival days included in the list of 1790.

11. Nevertheless, as your Committee consider the principle laid down in the Government Notification of 1790 to be a correct one, that no one should, in consequence of his employment in a Government Office be coerced to attend on those days on which his religious creed or observances require his absence, your Committee would recommend that this principle should be recognized at the same time that the Executive Public Offices of Government (especially the Treasury and Custom House) should be always open on these days, and excepting only such other days as Government may see fit to allow their being closed on for *General Holidays and relaxation to all classes of religion and creed.*

12. This is the system observed at Bombay and appears to have been the original system also in Calcutta, and your Committee would recommend that it be adopted in all Government Offices at the Presidency. It is founded on perfect toleration of religious creeds and observances, and also on the principle that no class usages can be allowed

to interfere with general public convenience and the necessities of Government.

13. Your Committee would remark that the grant of privilege leave for one month in the year to all Government employèes, and of casual leave to the extent of fifteen days under the Orders of Government quoted in the margin, operates most usefully in enabling the different Heads of Offices to grant relaxation from official duties to their several Subordinates on all occasions of family observances and occasions, such as Shrads, Marriages, and such like, and this without any detriment to the conduct of public business. This description of leave was not allowed in 1790 or indeed until very lately.

27th June 1857.
8th January 1858.
12th June 1857.
19th March 1858.

14. Your Committee have prepared a List marked A., which omits those Holidays and Festivals included in the List of 1790, which have fallen into disuse, but which includes the two new observances of Juggodatree and Luckhee Poojahs, but which also limits the days of leave to the days of actual observances as in the List of 1790; but curtails the unnecessary additional Holidays given to the different Poojahs included in the List of 1860. This List numbers nineteen Hindoo Festivals and twenty-two closed days, and four Mahomedan Festivals and closed days.

15. Your Committee would therefore respectfully recommend that the present system of advertising and closing Government Public Executive Offices on the occasion of Hindoo Holidays be put an end to, and that on all Hindoo and Mahomedan Holidays and Festivals included in, and for the period stated in the List marked A. so prepared, the attendance of Hindoos and Mahomedan employèes be dispensed with; that the Government Offices remain open however on these days for the conduct of public business, which will be conducted by the remaining portion of the Establishments.

16. Your Committee finally beg permission to place before the favorable consideration of Government the expediency of granting to their employèes generally, without reference to religious creed or observances, some relaxation in the shape of such General Holiday as may be deemed most expedient.

17. Opinions may be divided as to the time most appropriate for such General Holiday, but your Committee believe the feeling to be general and universal; that one General Holiday for about ten days at the season of the Doorgah Poojah Festival is desirable and could be allowed with advantage by Government and without public inconvenience. It is the constant closing and opening and re-closing of the Offices under the present system which is found objectionable and is complained of. An authorized Annual General Holiday would be of advantage and be welcomed by all. They therefore recommend that immediately following the four days' observance of the Doorgah Poojah, a General Holiday for ten days longer be allowed by Government to all classes, making the whole Holiday extend over a period of fourteen days.

18. The only other existing Holidays now observed are Her Majesty's Birthday, Good Friday, Christmas, and New Year's Days, and with these your Committee see no occasion to interfere.

19. Copy of the Government Notification of 1790, a List of the Holidays observed in 1860, and also Extract of Section X., Regulation IX. of 1810, is appended to this Report.

Notice.

A Sub-marine Telegraph Cable having been laid between the Ports of Akyab and Khyouk-Phyoo, the attention of Commanders of Vessels anchoring in its neighbourhood is requested to the following instructions prepared by Captain Burbank, of Her Majesty's Bengal Steamer *Fire Queen* :—

INSTRUCTIONS.

Vessels proceeding in or out of the Khyouk-Phyoo Harbour should on no account anchor to the Westward of the Reliance Buoy for the following reasons :—

1*st.* The legitimate passage is to the Eastward of the Buoy.

2*nd.* The Sub-marine Telegraph Cable is laid from Circuit House, or Flag Staff Point, along the Western side of the Channel, and when the Pagoda Rock bears N. E., Non-degree N. by E. ¾ E.; Reef Island N. ¼ W., Saddle Island S. W. ¼ S., Flag Staff Point S. E. ¾ E. there is a large bend in the Cable to the Eastward, consequently all Vessels should be prevented, for the safety of the Cable, from anchoring with the above bearings on.

Vessels anchoring with the Red Buoy on with Flag Staff Point will always clear the Cable, provided the Pagoda Rock is not brought to bear to the Eastward of N. E. by N., but they should on no account bring Flag Staff Point open to the Southward of the Red Buoy.

Vessels anchoring to the N. W. of Pagoda Rock will always clear the Cable by keeping Flag Staff Point well open to the Eastward of Red Buoy as far as it can be seen. Vessels anchoring off Pagoda Rock should endeavor to anchor as near to the Rock as possible.

Vessels running between the Island of Penny Kyong and Angrey Kyong having cause to anchor, should border a little on the latter Island, for the Cable is laid down along the Centre Channel approaching Penny Kyong gradually for about six miles from entrance when it is brought ashore.

Notice.

A Sub-marine Telegraph Cable having been laid between the Ports of Akyab and Khyouk-Phyoo, the attention of Commanders of Vessels anchoring in its neighbourhood is requested to the following instructions prepared by Captain Burbank, of Her Majesty's Bengal Steamer *Fire Queen* :—

INSTRUCTIONS.

Vessels proceeding in or out of the Khyouk-Phyoo Harbour should on no account anchor to the Westward of the Reliance Buoy for the following reasons :—

1*st.* The legitimate passage is to the Eastward of the Buoy.

2*nd.* The Sub-marine Telegraph Cable is laid from Circuit House, or Flag Staff Point, along the Western side of the Channel, and when the Pagoda Rock bears N. E., Non-degree N. by E. ¾ E.; Reef Island N. ¼ W., Saddle Island S. W. ¼ S., Flag Staff Point S. E. ¾ E. there is a large bend in the Cable to the Eastward, consequently all Vessels should be prevented, for the safety of the Cable, from anchoring with the above bearings on.

Vessels anchoring with the Red Buoy on with Flag Staff Point will always clear the Cable, provided the Pagoda Rock is not brought to bear to the Eastward of N. E. by N., but they should on no account bring Flag Staff Point open to the Southward of the Red Buoy.

Vessels anchoring to the N. W. of Pagoda Rock will always clear the Cable by keeping Flag Staff Point well open to the Eastward of Red Buoy as far as it can be seen. Vessels anchoring off Pagoda Rock should endeavor to anchor as near to the Rock as possible.

Vessels running between the Island of Penny Kyong and Angrey Kyong having cause to anchor, should border a little on the latter Island, for the Cable is laid down along the Centre Channel approaching Penny Kyong gradually for about six miles from entrance when it is brought ashore.

Financial Department,
CALCUTTA.

Dated Lahore, 5th November 1860.

SIR,—I HAVE the honor to submit, for the consideration of Government, whether it would not promote greater efficiency in the General Department of Account, and ensure accuracy in the preparation of individual accounts, if the several Accountants or Local Auditors, according to the arrangement, sanctioned by His Excellency in Council in the Financial Department Resolution of the 18th August 1860, were empowered and enjoined to make periodical visits to the Local Treasuries in their jurisdiction.

2. The principle of Departmental inspection is recognized in all other branches of the Administration, and, unless the same principle is extended to the Department of Account, one important element of success will be wanting in it.

3. At present the Accountant has no opportunity of acquainting himself with the internal arrangements of a District Treasury. He can only judge of the efficiency or non-efficiency of its management, by the Periodical Returns submitted to his Office, ; and when these are rendered unpunctually or incorrectly, although he knows that there is some thing wrong in the working of the District Office, he has no other remedy but remonstrance, and, as a last resource, a report to the Local Government. It is most difficult to induce District Officers to take any interest in this branch of their work, nor is this to be wondered at, considering how numerous and onerous are their other duties The youngest and least experienced Assistant is frequently put in charge of large Treasuries like those of Delhi or Umballa, and has to gain his experience as he best may, to the occasional detriment of the interests of Government and the public. Now, without at all interfering with the direct responsibility of the District Officer, the Accountant might, it appears to me, exercise a more immediate control over the personnel of the District Treasuries than he now does, and this by occasional inspections and supervision of the work. Besides this, he would thus obtain for himself a much more practical knowledge of his work and be in a position to offer occasional suggestions for the more efficient transactions of Treasury business.

4. The immediate occasion of the present recommendation is the discovery in one of the Punjab Treasuries of a system under which accounts have, for a series of years, been falsified so as to mislead this Office.

5. Happily no fraud has been detected, but the following Extract from the Report of the Deputy Commissioner, addressed to the Commissioner of his Division, will show the extent to which deception had been successfully practised :—

"When the Statement above referred to had been completed, they revealed the actual state of the Deposit Accounts. Innumerable items were shown to have been overpaid, many of them having been repaid two or three items over. The account particulars of balances of Deposits hitherto annually submitted were found to be full of errors, and to have been falsified, in order to make them tally with the balances shown in the Treasury Accounts. And the items on account of Road Fund, Chowkeedaree, Tullubana, &c., had never been consolidated, in accordance with the Standing Orders."

6. This state of things, however deplorable, could never have been detected without a careful scrutiny of original Records, and this the Accountant has no opportunity of undertaking.

7. If the requirements of his Department are complied with, in respect to Forms, Vouchers, and Authorities, he is obliged to accord his audit to the Accounts which are submitted for his examination.

A copy of the letter addressed by me to the Financial Commissioner, in connection with the foregoing case, is annexed for your information.

No. 1748.

FROM C. E. CHAPMAN, ESQ.,
Offg. Accountant, Punjab,

To R. N. CUST, ESQ.,
Offg. Financial Commissioner, Lahore.

Dated Lahore, 1st November 1860.

SIR,—I HAVE the honor to state, in reply to your letter No. 4406, dated 10th instant, that two of the subordinate Clerks of this Office are constantly employed in checking the various Deposit Registers, and it is their duty to see that more is not repaid on account of any particular number than is at credit of it. When excess payments are discovered, a correspondence is immediately initiated, with the view of effecting recovery or correction. In such cases it is usually found that the payment was made on account of some other number than that originally stated. If the corrected number is at credit, the correction is admitted and the payment passed into the Accounts.

2. It is not possible for this Office to determine the validity of the claim which is made. All it can require is a voucher for the charge, and if this is forthcoming, and the account shows that a balance exists against the particular number, the charge is recognized.

2. The subject of Deposits has occupied much attention in this Office; but it is felt that control to be efficient must be local. The Accountant, as you are aware, deals only with accounts or documents which are submitted to him. These may be correctly prepared, or they may be booked so as to pass his scrutiny. He knows nothing personally of the internal arrangements of the several Treasury Offices; has no opportunity of inspecting original Records, and Treasury Officers and their Establishments are generally unknown to him. If the conditions of his Department are fulfilled, he must accord his audit to the public accounts.

4. I would submit with deference that Commissioners might with advantage be required, on each occasion of visiting a District personally, to inspect and report on the Deposit Accounts of the Treasury, and to apply such remedy for the correction of mistakes as he may consider necessary.

5. In the case of the Jhung accounts, it is satisfactory that, notwithstanding the confusion into which the Deposits had fallen, from repayments being charged against erroneous numbers, no loss has been occasioned. In the only instances in which *bonâ fide* excess payments had occurred, either the Government or the Local Ferry Fund were the recipients. The laborious investigation which has been effected by Mr Blythe originated in letters written from this Office, and paragraph 5 of his communication reveals the system of booking by which the Office had been so long misled.

6. Under the instructions of this Office, in Circular No. 103, dated 26th April 1860, the three Deposit Registers (Revenue, Civil, and Foujdary) have been consolidated into a single form, and it is hoped that this concentration will facilitate supervision on the part of the Deputy Commissioner and Divisional Superintendent.

The enclosure of your letter is herewith returned.

Accountant General's Report on Docket No. 11510, *dated 15th November* 1860, *from the Secretary to the Government of In ia, Financial Department.*

I QUITE concur in looking upon the occasional and regular inspection of Accounts and Books as a very material part of a proper system of Financial control, and the Local Auditors will be in the best position for carrying out this duty, although the Audit Board should also itself organize some general system of inspection. It is probable that this subject will be taken up by the Budget and Audit Committee.

2. The particular mode in which the accounts have been falsified in the Punjab Treasury has long been known to have been extensively resorted to in the older Provinces. The Treasury Rules provide for it by directing payments to be entered by the Treasury Office at the time of payment, against the entry in the Receipt Register where the amount is credited; but, as observed by the Punjab Accountant, if Rules for the local details of business are not attended to, the Accountant has no means of ascertaining the circumstance. It is however the recognized duty of Commissioners on their tours personally to inspect the Treasuries and Books, and to see that they are properly kept, and they should be held responsible for the consequences of any omission.

FORT WILLIAM,
Financial Department,
The 11th April 1861.

No. 3812.

EXTRACT from the Proceedings of the Government of India; in the Financial Department, dated 21st March 1861.

READ again the Financial Resolution, No. 1016, dated the 28th January last, making the Sudder Court in Bengal an exception to the order against the use of Tatties, and calling for a further Report from the Civil Finance Commission.

Read a letter from the Civil Finance Commission, No. 294, dated the 6th instant, submitting the required report on the above subject.

RESOLUTION.—On the 28th January last, this Government, in directing, on a re-consideration of the question, that the Sudder Court in Bengal should be made an exception to the order prohibiting the use of Khus Khus Tatties, desired the Civil Finance Commission to make detailed enquiries, in communication with the Heads of all other Offices in Calcutta, in order to ascertain in what particular Offices Tatties are really required, and in what Offices they can be dispensed with, and to submit a report to this Department, in which they should state their reasons for advocating the discontinuance of Tatties in any of the Presidency Offices where they have hitherto been used, together with the remarks which might be offered by the Heads of those Offices in respect to the measure.

2. In reference to this order the Civil Finance Commission forward a Statement shewing the names of 61 Officers for and those of 69 Officers against the use of Tatties, adding that in their former report they alluded in general terms to the opinions of Officers of position and experience, and it was from them, as well as from their own

judgment, that they advocated the discontinuance of what appeared to them to be an unnecessary luxury. The Commission submit, in support of this opinion, Extracts from the letters of several Officers at the Presidency writing against the use of Tatties, and they urge the fact that in the crowded Offices of the leading Merchants of Calcutta no such allowance is made. They believe also that Tatties are never used in private residences, great or small, though some of the smaller houses must be close and crowded. Thus it was that they submitted that what is not provided in private homes need not be provided in Public Offices at the public expense, and that, if Tatties are used in a Public Office, they constitute a luxury to be provided at private cost.

3. From this report it seems to the Governor General in Council that a good case has been made out against the use of Khus Khus Tatties in Government Offices in this Presidency. But he observes that there is a great difference between a quiet Office and a Court thronged with people of all classes; and he is of opinion that the absolute exclusion of Tatties from such Courts should not be enforced against the strong opinion of the Judges. He is pleased accordingly to allow the use of Tatties in the Supreme and Sudder Courts, and in any other considerable Offices where Tatties have hitherto been used, they may be continued, on special grounds being shewn.

Ordered, that a copy of the above Resolution be sent to the Departments,* Governments,† and Officers,‡ specified in the margin, for information and guidance.

* Foreign, Home, Public Works, and Military Departments.
† Governments, Bengal, North-Western Provinces, Punjab, Madras, Bombay, and Eastern Settlements.

SUMMARIES OF CONSTRUCTIONS OF INCOME TAX ACTS XXXII AND XXXIX OF 1860.

No. 70.

Salary,

When drawn at one time for several months. Assessment how to be made.

Act XXXII of 1860.
Section C.

IN cases in which the accumulated salaries of several months are drawn together by the Officers entitled to the same, the Assessment of Income Tax should be made on the total of the amount drawn, and not separately on the sums due for each month.

Refunds,

On payments on account of past years, principle which should guide the grant of.

Act XXXII of 1860.

WHERE Officers claim refunds on amounts paid by them to Funds in the present year, which they ought to have paid in past years, the refunds should be granted with reference to the principle laid down in the Financial Resolution,* No. 1058, dated the 30th January 1861.

* In the case in which the Resolution referred to was adopted, an Officer having received in the year 1859 a larger amount on account of pay and allowances than he was entitled to, was retrenched the excess after the Income Tax Act came into operation, and the question arose whether the amount retrenched should be refunded in full, or whether Income Tax should not be levied upon it. It was held that as the refund could not be regarded as a deduction from the Income of 1860, but was applicable to the Income of the previous year, Income Tax ought to be taken upon it. (*Financial Department Order No.* 3403, *dated* 22*nd March* 1861.)

No. 71.

Medical Practitioner

May deduct from fees for professional services, cost of Horses kept wholly and exclusively for professional purposes.

Act XXXII of 1860.
Section XCVIII, Rule 9.
Schedule 2.

A MEDICAL Practitioner in making a return of his profits to the Income Tax may deduct from the fees received for his professional services the cost of any Horses kept by him wholly and exclusively for the purpose of paying professional visits.

(NOTE.—It having been suggested in reference to the foregoing Construction that the word "exclusively," as used in Section XCVIII, Rule 9, Schedule 2, Part VIII, Act XXXII of 1860, was redundant, it was held that it was not redundant, but that it was a test whereby to ascertain whether the word "wholly" properly applied, and, in illustration, it was pointed out that if a Medical Practitioner kept a pair of Horses which he used by day to visit Patients and by night to go to parties he could not claim to deduct their cost, though possibly, but for his profession, he would not have kept any Horses; but that if in good faith, he kept an extra pair of Horses to visit Patients, it would not be right not to allow him to deduct their cost, because he might once or twice in the course of the year have used them for private purposes, when the horses kept for his private use fell lame.) (*Financial Department Order, No.* 3795, *dated* 1*st April* 1861.)

No. 72.

Carcoons,

pay of, when disbursed by Government, deductions for Income Tax how to be adjusted.

Act XXXII of 1860.
Section C, Rule 15.

WHEN the pay of the *Carcoons* in the Presidency of Bombay is disbursed by the Government to suit the convenience of the *Wuttundars*, the deductions on account of Income Tax must be adjusted in accordance with Rule 15, Section C, Act XXXII of 1860.—(*Financial Department Order, No.* 3628, *dated* 3*rd April* 1861.)

REVENUE DEPARTMENT.

No. 546.

The 3rd April 1861.

The special and immediate attention of all Revenue Officers is directed to paragraph 4 of the Circular of the Board of Administration, No. 41 of 1850, quoted below, regarding the repair of old wells, sinking of new ones, and the excavation of water-courses :—

"The Board authorized the Commissioners of Divisions, in all cases where works of the above nature have been executed from the private funds of individuals, or where the advances of Government have been duly repaid, to grant pottahs, securing to the owners of the land that nothing in excess of the ordinary unirrigated rates shall be chargeable for a term of years by Government.

For new wells 20 years,

For old wells out of use 10 years,

For cuts from rivers and jheels, 5 to 10 years, with reference to the sums expended on the work, seem to be reasonable periods of exception; but for any special case the Board are prepared to accede to even longer terms, due reasons being shewn for so doing."

These terms should be made generally known through the Putwarees.

By Order, &c.,

R. H. DAVIES,

Secy. to Govt., Punjab.

Suitable Khilluts were conferred on the Oudh Talookdars, after which the Talookdars presented an Address to His Excellency the Governor General, which was read in the vernacular by Maharaja Maun Sing, and of which the following translation was read by the Secretary :—

"My Lord,—We offer thanks first to the merciful and gracious God, the protector of the World "and all that dwell therein, who, after causing the evil days to pass, has bestowed on us days of peace. "This world (and all that it contains) is a garden created for the enjoyment of God himself; the "Physician. Whenever cruel rulers waste it, like the summer sun, by their fierceness, and strip it of "its flowers and leaves, then He, through some of his chosen Agents, orders the rain of mercy and "compassion, and makes it green and fresh. Afterwards he regards with fond interest the handiwork, "and makes his chosen Agents beloved and respected throughout the world. This has been exemplified "in the troublous times recently gone by, in which, after innumerable calamities had been inflicted by "violent and savage rulers, increased honor and renown came to our chosen Queen, who rides upon "the Heavens, (may her Empire and power endure!) and to your Excellency, her representative and "our Lord, dear to the hearts of all.

"In truth, your Excellency has gained elevated rank and the love of all, and we have obtained "an opportunity of showing our gratitude and offering our praises to you.

* Those marked M. are Assistant Magistrates and Collectors, and those marked C. Assistant Collectors.

"My Lord, we not only thank your Excellency for this, that for our benefit, and for the sake of "pleasing God, you extinguished your anger and displeasure with compassion and mercy, and justly "issued, in succession, advantageous orders and beneficial circulars; but we are especially grateful "for this, that you came in person to Allahabad to issue these orders and to see to their faithful "execution at all times. For the purpose of carrying out the above measures you selected Officers "whose appointment was efficacious in every respect and advantageous to the people. My Lord, "that physician alone can attain his object in whose laboratory there are men who can judge of "each disease.

"At that time, in one direction, the pile of the fire of the rebellion blazed high, and consumed "the plain of the Citizens. On the other side, the storm of the water of the swords of the troops "of the Commander-in-Chief, coming in waves to extinguish the fire, turned the whole kingdom "into chaos. In that time of struggle the poor people, struck with infatuation, could not protect "themselves, but, like animals in a forest burning all around them, and neither able to fly nor to remain, "were overwhelmed in destruction.

"Praised be the late Chief Commissioner, Mr. Montgomery, and his Assistants, Colonel Barrow "and Colonel Bruce, for their wisdom and prudence. These men, in the critical time, drew the reins "of the horse of anger, and spread the carpet of counsel and friendship. As a good physician first "expels from the body of the patient the disturbing cause which endangers his life and then applies "remedies, so the above Officer removed the evil counsellors and godless from among the people, "through whose influence they were blinded, and unable to distinguish friends from foes, and by the "help of his Assistants above-named began to give hope to us, half-dead through fear. This was the "first stage of order and peace.

"To give hope to the patients, a Proclamation, offering protection of life and property to all who "should timely surrender and yield submission to the British Government, was issued. This was a "cause of confidence; and had such effect that great and small, being saved from the disease of "infatuation, were restored to their former state.

"My Lord, in former times, on such occasions, it was considered right to subdue the people by "severe measures. But in truth God has placed a ruler over his subjects to be a father and mother to "his creatures; and, as it has been made incumbent on the ruler to protect the people, so it is lawful "for him, in return for that protection, to levy a revenue from them. But it is not proper for the "father to withdraw his affection from his infatuated children and cast them into a sea of displeasure. "It is rather incumbent on him to bear all patiently, and to try by all means to support them. It "was thus that, on the departure of Mr. R. Montgomery, your Excellency, through the excellent "appointment of Mr. Wingfield, completed all the arrangements which had been left unfinished, and "fulfilled the duties of Her Majesty the Queen, who rides on the Heavens, (may her Empire and "power endure!) and the duties of your Excellency's office, whereby you acquired a distinguished "name among the wise. We sincerely thank you for the adoption of these measures, the beneficial "effects of which were such as we had read of only in history. But although these measures gave "assurance of safety to all, yet it must be remembered that they would not have removed the "uneasiness and the ruin which the administration of 1856 had caused, had not your Excellency held "out assurance, through Mr. Wingfield, that the rights which they had enjoyed for 800 years, but "which were then in abeyance, would be confirmed to them in perpetuity on a new and secure basis.

"My Lord, as Natives of Hindostan, we do not consider our houses our own if the land on which "they stand does not belong to us in perpetual right, and we do not look upon the people of the house "as our own if we have no control over them. Nothing so much as this could give vigor to our "mind and induce us to offer up prayers to the Almighty for the prosperity of the British Govern- "ment. In following the course they did on these two points, the object of your Excellency's agents "above-named was not only to consult our happiness, but also to strengthen the ties of affection "which subsist between us and the British Government, and have given stability to our State.

"My Lord, a country may be conquered and a house may be founded by the sword, but the "history of centuries proves that the perpetual stability of that house depends on the love of the "people. The present Assembly may believe that the work of the sword is to divide, not to unite.

"Wise men consider that the basis of Empire is strengthened by the ties of affection. Actuated "by this consideration, the Emperor Jullaloodeen Mahomed Akbur, of the House of Timour, followed "that course. But it was left incomplete, in order to display the fame of Her Majesty the Queen, "who rides on the Heavens, and your Excellency, her Viceroy, who has re-established the English "power over all India, and especially in Oudh, on this foundation, and left a good example to future "Sovereigns.

"We cannot indeed complain that the former Police, Judicial, and Revenue arrangements were "not good; but we can undoubtedly say that the alterations made by your Excellency in these "arrangements have proved highly beneficial to the people, and have fulfilled the designs of the people "of former times. And you have shown that the Queen of England is not the Sovereign of the "English only, but is considered by the Natives of Hindostan as God's Vicegerent.

"We shall specify a few of these:—

"1st.—There is the Talookdaree Settlement, which has not only contributed to remove the fears "of the people, but re-established peace, which is only a drop in the ocean of its good effects. On "careful observation it will be found that the signs of the contentment of the people, such as the "establishment of bazars and gardens, the erection of houses, and the excavation of tanks and wells,

" were fewer under the former Settlement with the Zemindars, than in the thirty-three months of " the experiment of the present Settlement. The cause is, that the former petty Zemindars were not " able to spend thousands of rupees on such works, and their income was sufficient only for their " maintenance and the costs of suits which they used to bring against each other. By the present " arrangements, on the contrary, the Zemindars live in the enjoyment of their petty rights, which are " fixed by their respective Talookdars, and have no cause to incur any expense, while the Talookdars " on their part are bent on improving their estates, by the construction of works from the profits of " their property.

" *2nd.*—The new arrangements which have been made in the Police Department, through Colonel " Bruce and other Officers, have not only protected the life and property of the people from the hands of " thieves and robbers, but also put an instant stop to bribery. O just Ruler! life and property may " truly be said to be safe when a man enjoys them without any one's interference.

" *3rd.*—By the arrangements made in the Judicial Department, every poor Ryot, without incur- " ring expense, without undergoing the trouble of resorting to a Court at a distant place, and without " the intervention of the Amlah, can get his case decided by his own Talookdar, who understands " his affairs.

" My Lord, in confirming the aforesaid arrangements, your Excellency has not only established " a claim to our lasting gratitude, but has, beyond doubt, furthered the ends of justice.

" The territory of Oudh, in freshness and beauty, was beyond comparison with any garden. But " for a time, being filled with wild and ravenous beasts, it became a fearful desert. Thanks! a hundred " times thanks! to your Excellency, the kind and the generous. We are grateful also to the Officers " by whose unremitting exertions this thorny forest has become the envy of the garden. This place " your Excellency saw with astonishment on the 26th October 1859, when you held a general Durbar " at Lucknow. We shall never forget the remarkable day when your Excellency, as Viceroy, " surrounded by the Civil and Military Officers, received us, the representatives of the people of Oudh, " in Durbar.

" Your countenance then glowed with affection for the people of Oudh. Blessed! Blessed! " Blessed! be our beloved Queen, who rides on the Heavens. Blessed be the day and the moment " when our Viceroy restored to us those rights which we have enjoyed from time immemorial, but of " which we were for a while deprived, and when you thus fulfilled the will of the Almighty, who is full " of mercy and love for his creatures, and when you conferred on us Khilluts, and Jaggeers, and Titles, " which will descend as signs to our posterity. These presents not only displayed the unbounded " generosity of your heart, but made every one desirous of rendering services to the British Government.

" In concluding our Address, we fervently pray Almighty God to continue to maintain over us the " protection of Her Majesty and your Excellency, and to dispose the hearts of us and of our descen- " dants to pray, and our tongues to praise, because we can give no other return for all these favors."

His Excellency the Governor General then addressed the Talookdars in the following words, a translation of which was afterwards read aloud by the Secretary :—

" Talookdars of Oudh,—I receive your Address with much pleasure.

" I am glad to acknowledge the spirit of loyalty to the Crown and of attachment to the Govern- " ment which pervades it.

" I am glad too that you have chosen to present it to me here, in the Capital of British India, " amongst a community of your fellow-subjects, to whom you and your Province are as yet but little " known, and in the presence of the Chief Officers of the State assembled to receive you.

" You have referred to various incidents in the recent History of Oudh. That History has " indeed been an eventful one.

" Six years ago Oudh was the worst governed country in India. Nowhere were life and property " more insecure, or oppression and violence more flagrant.

" Two years elapsed, in the course of which Oudh came under British rule, but mutiny and " rebellion soon reached the new Province and raged in every corner of it.

" Two years more, and rebellion had been crushed and peace restored. Sharp punishment swept " the guiltiest from amongst you, but mercy remained for those who made submission, and favor for " those who were cordial in their allegiance.

" Again two years, and prosperity has followed so closely upon peace, that there is now no part " of Hindostan more flourishing, or more full of promise for the future. The ancient system of land " tenure has been restored, but has been placed upon a new and clear foundation. The preservation of " the great families of the soil has been encouraged and facilitated. The rights of the humbler " occupants have been protected. Garrisons have been reduced; Police diminished. The country is " so tranquil, that an English child might travel from one end of it to the other in safety; so thriving, " that its people have been the most prompt and liberal of all the Natives of India in responding to " the cry of their famishing brethren of the North-West. Whilst you, who are now the independent " Magistracy of your Province, have already become, although you are the newest of the Queen's " Indian Subjects, the foremost of them in the practice of self-government, and in enforcing, by your " example and authority, an intelligent reverence for law and order.

"Such are some of the chief changes, briefly told, which have passed over your country in the "last few years; and they present lessons which it behoves you—and not you alone, but your "fellow-countrymen of all India—to lay to heart.

"You have seen it proved before your eyes that there is no section, or race, or multitude of you, "which can hope to brave the power of the English Government with impunity.

"You have seen that those who resist or cross that Government it is sure and swift to punish, "although, justice satisfied, it is eager to forgive and to forget.

"You have seen that those who serve it earnestly it is never forgetful to reward.

"And you have seen—and you are yourselves the evidence of this—that it is its wish and "purpose to seek out amongst you the Chiefs and great Landholders of India, those in whom it may "safely repose its confidence, and, having found them, to place power and influence freely in their "hands, and to uphold them to the respect of their fellow-subjects of every class.

"Impress these lessons upon those around you. Teach them to your children. And if you "desire, as to-day you have told me that you do desire, to show your gratitude for the treatment "which you have received, let it be your care, one and all, each in his sphere, to do all that in you lies "to make certain that by no act or example of yours shall the Government which has confided "in you be exposed to the reproach of having misplaced its confidence, or the gentry of India be "taunted with having proved unworthy of their trust. To secure this you have only to continue "steadfast, as you have hitherto been, in the honest and zealous exercise of the powers which have been "given to you. If difficulties or perplexities should meet you, have recourse to the Chief Commis-"sioner of your Province for guidance. You will find him, as you have found his predecessors, "Sir Robert Montgomery and Mr. Wingfield, your best adviser and your truest friend.

"I am glad to see that you appreciate at their value the services which those distinguished "Officers, and others associated with them, have rendered to your country.

"Talookdars, it is uncertain whether I shall ever set foot in Oudh again. Perhaps not. But "though I may now be speaking to you face to face for the last time, the interest which I feel in the "prosperity of your country will never cease. It is a deep interest, and it will be a lasting one, not "only because the prosperity of Oudh involves the happiness of seven millions of people, who became, "subjects of the Queen of England by circumstances which made an anxious care for their well-being "one of the most solemn duties that ever fell upon a Governor General of India, but also because the "continued success of England's Government, as it is now administered in Oudh, will be a standing "proof that, in spite of bygone animosities, and of the broadest differences of race, religion, and social "usage, a generous and trustful rule is the surest way to make a loyal and dutiful people."

After the usual concluding ceremonies, the Viceroy and Governor General left the Durbar, and the Assembly broke up.

IN order to obviate the inconvenience which might result under the operation of the Rule contained in Section CXXXV, Act XXXII of 1860, from persons parting with the original Receipts granted by Insurance Offices for payments of premium, duly authenticated copies of such Receipts under the signature of Public Officers or other reliable parties may be accepted, provided that the Office of the Authenticating Officer is specified.—*(Financial Department Order, No. 3190, dated 16th March 1861.)*

No. 41.

TO HIS EXCELLENCY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

MY LORD,—Her Majesty's Government have received with the deepest concern the afflicting intelligence of the Famine in Upper India.

2. In your Excellency's letter No. 12, of the 22nd of January, you enclose correspondence with the Government of the Punjab and its Dependencies, on the subject of the measures which might most advantageously be adopted for the alleviation of the wide-spread distress which had arisen or might arise in that part of the country. The promptitude with which your Excellency has addressed yourself to the consideration of this important matter merits the warmest approbation of Her Majesty's Government. By the remission of revenue, by the provision of profitable employment upon public works, and by contributions of public money, you have done all that lies in your power to mitigate the sufferings attendant upon a calamity which no forethought upon your part could have prevented and no wisdon can now avert.

3. That in this crisis your public efforts have been nobly aided by the private charities of individuals affords another proof of the characteristic generosity of the wealthier classes of the British-Indian communities, which is regarded by Her Majesty's Government with the highest gratification.

TO THE GOVERNOR GENERAL OF BAGDAD, &c.

THE British Embassy, having recently made certain communications, for the purpose of obtaining a renewal of the orders which were sent concerning the British Steamers and Boats authorized by Her Majesty to ply on the Rivers Tigris and Euphrates, it has appeared from the Register that permission having on a former occasion been applied for by it to station two Steamers on the River Euphrates at Bagdad, and to run them by turns for the purpose of facilitating trade, two Firmans, dated respectively the end of Shaban 1250, and the beginning of Redgeb 1257, were addressed to the late Governor General of Bagdad, Ali Riza Pasha, authorizing the permanent station of two Steamers on that River, providing it were proved and established that the advantages resulting therefrom would be mutual, and that no sort of inconvenience would ensue. Further, that in virtue of a report received respecting the dues payable by Vessels and Boats navigating the Euphrates and Tigris, and in conformity with the request of the British Embassy for Vizierial instructions, on the ground that British Merchant Vessels might trade in those two Rivers after payment of the fixed dues according to Treaty, and considering that the transport of goods from one point on those two Rivers to another, without going out to Sea, is in fact internal trade, and that, under such circumstances, Vessels, under whatsoever Flag it may be, must pay the same dues as Ottoman Vessels or Boats, and that British Vessels, whether coming loaded from abroad and entering one of those two Rivers with their Cargoes, or issuing therefrom to the Sea laden with Ottoman produce, and bound for Foreign Countries after having paid the dues payable on their Cargo, according to the Treaty and Tariff, are only liable to the payment of Palamar Ahtchese (*i. e.* right of mooring), or Cable money, on entering or leaving the Tigris or Euphrates, like all other Foreign Ships coming to other Ports of the Ottoman Empire. For these reasons, on the 6th Rubiul Akhir 1262, instructions were sent to Bagdad, directing, as above, that the same dues

should be levied on British Merchant Vessels engaged in internal trade as on Boats belonging to Ottoman subjects, and that, after the Custom House duties payable on their Cargoes shall have been levied on Merchant Ships of the same Nation, either coming from abroad or going abroad a sum of five Piastres Cable money should be levied, and that nothing over and above that should be exacted.

You will be so good as to act according to the above rules.

OFFICE MEMORANDUM.

THE Auditor-General of India has the honor to remark that in his opinion the Orders that may appear in the Gazette of any Presidency, or that may be issued to the Local Officers in any other form, affecting local charges paid and finally adjusted at any other Presidency, may be communicated to the Deputy Auditor and Accountant-General and the Civil Pay Master respectively of the disbursing Presidency, by the corresponding Officers, to whom or for whose guidance in the first instance the orders are issued. This appears to be the preferable course, and one more likely to secure attention, as the orders in question are too few, it is believed, to render it necessary that the *Gazettes* of every Government should be supplied to every Office of Account and of Audit.

In the case of the Oude Province, however, it appears advisable that the Deputy Auditor and Accountant-General and Civil Pay Master at Allahabad should be furnished with the *Calcutta Gazette* containing the orders of the Government of India, for their information and guidance, and also the Deputy Auditors and Accountants-General and the Civil Pay Masters at Madras and Bombay, for the audit and adjustment of the Accounts of the Government of India transferred to those Officers.

Proceedings of the Board of Revenue, dated 27th November 1860.

READ the following letter from P. GRANT, Esq., Collector of Malabar, to J. D. SIM, Esq., Secretary to the Board of Revenue, Fort St. George, dated Calicut, 2nd November 1860, No 216 :—

1. Referring to Schedule B, paragraph 1 of the Stamp Act,* I find that the Bail or Security Bonds furnished and filed under the special orders of a Civil Court or of any Revenue Officer exercising Judicial powers, should be engrossed on Stamp papers. I shall feel obliged by your obtaining for me the decision of the Board, as to whether this Rule is to be held applicable to Bail or Security Bonds, for appearance or good behaviour, furnished at the requisition of a Magistrate, and also whether, under paragraphs 3, 4, and 7 of the Schedule, the documents marginally specified should likewise be on Stamp papers.

* No. 36 of 1860.

Copies of Proceedings, Decisions, Orders &c., of a Magistrate.
Muktearnamahs, Vakalutnamahs, and other powers presented before a Magistrate.
Razinamahs presented before a Magistrate.

---

1. Ordered to be submitted for the decision of Government.

2. Section XV., Schedule-A, appended to Act XXXVI. of 1860, would seem to include a Magistrate's Court, but Section I., Schedule B, has evidently reference to Civil suits only, and from the general exemption attached to Section V. of that Schedule it may be inferred that personal recognizances taken from persons in custody are certainly not required to bear a Stamp.

3. Whether Bonds for the appearance or good behaviour of a third party require a Stamp seems to be an open question.

4. Copies of Magisterial proceedings would come under Section III., and Muktearnamahs, Vakalutnamahs, &c., filed in a Magistrate's Court, under Section IV. of Schedule B, with the exemption in regard to a Prisoner's Vakeel.

5. A Razinamah in a Magistrate's Court is merely a withdrawal of the charge, or refusal to prosecute, and as such withdrawal would not be permitted in any but trifling charges, it may be doubted whether good policy would lay a charge on the proceeding; but however this may be, except in the special rule for Bengal, attached to Section V., Schedule B, which is of limited application, the case of Razinamahs before Magistrates does not seem to be provided for by the Act.

OPINION.

I THINK that no Bail or Security Bonds given by the order of a Magistrate, or of any other Criminal Courts, whether for the appearance of the party himself or of a third person, requires a Stamp.

On the other points I quite agree with the opinion expressed by the Board of Revenue, in paragraphs 4 and 5 of their letter.

No. 387 *of* 1861.—The following paragraphs of a Military letter from the Right Hon'ble the Secretary of State for India, No. 432, of the 17th November 1860, are published for general information :—

Your letter of the 12th August last, No. 202, reports that, as passage money has hitherto been calculated according to rank, it appears to your Government that the Medical Officers, whose relative rank has been raised under the provisions of the late Royal Warrants, are entitled to receive passage money according to their increased rank; and that you have issued instructions to that effect. You further state that the rates of passage allowance fixed by the late Court of Directors might now be revised, with advantage, as suggested by the Officiating Military Auditor General; and you request the instructions of Her Majesty's Government on the subject.

2. The decision at which you have arrived, with respect to the rates of passage allowance of Her Majesty's British and Indian Medical Officers, appears to be in conformity with the intention of the Royal Warrants applicable to them. Under this decision, a Staff or Regimental Assistant Surgeon, after six years' full pay service, when entitled by the Regulations to passage money, will receive the rate fixed for a Captain, and so on in the higher Grades of relative rank.

5. With respect to your observation, regarding the expediency of revising the present rates of passage money, I have to inform you that I have been for some time in correspondence with the Secretary of State for War, with the view of assimilating the rates of passage allowance applicable to India, and the rules under which they are drawn, with those authorized by the War Office Regulations. The result will be hereafter reported to you.

A question having arisen as to the interpretation to be put on that part of Her Majesty's Warrant (quoted in the margin), authorizing the distribution of the property captured at Lucknow as Prize.

"And whereas our said Commissioners have recommended unto us to grant all the said booty, for the use of the Commander-in-Chief, Officers and Men belonging to our Naval and Military Forces, and the European and Indian Troops of the East India Company, which took active part in the Operations leading to the aforesaid Capture of the said City of Lucknow and its Dependencies, including all the Troops at first entrenched in the said Residency, the said Force under the Command of the late Major-General Sir Henry Havelock, Bart., K.t., Commander of the Most Hon'ble Military Order of the Bath, the Force which held Cawnpore during the final Operations against Lucknow, and the said Force under the personal Command of the said Baron Clyde, of Lucknow, which took part in the said Capture of the said City of Lucknow and its Dependencies, or in the Operations which contributed thereto, which Operations commenced with the first affair at Chinhutt, and the investment of the Residency by the Rebels on or about the Twenty-ninth of June, One thousand eight hundred and fifty seven, and ended with the final expulsion of the Rebels, and the Capture of the said City of Lucknow on or about the Twenty-first of March, One thousand eight hundred and fifty-eight."

I have determined in pursuance of the authority vested in me by the Royal Warrant, that the Force which advanced from Allahabad under Major-General Havelock, the Forces of Lord Clyde, which, under Major General Windham, held Cawnpore, and that which brought off the beleaguered Garrison of Lucknow intermediately between Chinhutt and the recovery of Lucknow, from the Rebels, as well as the Force under Lord Clyde present at the final Operations and that which held Cawnpore during such final Operations, are entitled to share in the Prize Moneys.

CIRCULAR No. 800.

FROM E. W. PERRY, ESQ.,

Officiating Superintendent of Stationery,

TO THE SECRETARY TO GOVERNMENT, PUNJAB,

Lahore.

Fort William, the 8th March 1861.

SIR,—In December last, Mr. H. C. Hamilton, Benares Opium Agent, submitted to the Board of Revenue, Lower Provinces, a copy of a Circular issued by him to the Sub-Deputy Opium Agents of his Division, curtailing expenditure on various items which had hitherto been charged in the monthly Stationery Contingent Bills of their respective Offices, and disallowing entirely certain articles which seemed to him to be wholly unnecessary.

2*nd*. Mr. Hamilton observes, there can be no doubt that, if a general saving of the nature insisted on by him were to be enforced in every Government Office in India, many thousands of Rupees would be annually saved to the State without any positive hardship being imposed on any person.

3*rd*. The experience of this Office is entirely in favour of Mr. Hamilton's conclusions.

4*th*. There are two independent sources of loss to Government:—

I. Wasteful expenditure of Stores.

II. Fictitious charges in Contingent Bills by the Office Duftries.

As regards the former it is evident, from an examination of Indents, that a large number of Indenting Officers are either under an impression that the allowance fixed by the scale in 1851 is

an allowance to which they are entitled, without any reference to the necessities of their respective Offices; or what is more probable, sign, without an enquiry, an Indent, drawn up by a native, and framed upon the most liberal interpretation of the scale. Were every Government Office to be inspected the day before its annual Indent is prepared, it is probable that not a single article absolutely necessary for performing the work of the Office would be found wanting. Yet from many Indents it would appear that Offices periodically stand in need, not only of articles, the legitimate consumption of the former supply of which may fairly be inferred, but of Penknives, Erasers Paper-cutters, Inkstands, Rulers, Hones, and Lead Paper Weights. As private property, many of these articles last a life-time, and there can be no reasonable doubt that the constant demand for them made on the Government Store is the result of either carelessness or dishonesty.

5th. There are two modes of checking this evil. Every Officer, before signing an Indent and certifying "that the supply indented for is absolutely required, and that the balance in hand is essentially correct," should satisfy himself as to the accuracy of that Statement. Or, if such supervision is impracticable, the Head Uncovenanted Assistant should be made responsible for the reasonableness of the Indent as well as for the care of the Stores.

6th. I particularly desire to direct your attention to the following details; unimportant as they may seem to be, the aggregate annual outlay involved amounts to a very considerable sum.

No. 1.—*Reed Pens for Native Omlahs.*—This charge will not, after May ensuing, be allowed in Contingent Bills, nor will the Pens be issued from this store. Native writers always prefer their own Pens. Higher Officers never use those supplied by Government.

No. 2.—*Wax Candles.*—This item is clearly unnecessary, except in the Presidency and superior Mofussil Offices. In most Offices a common Oil Chirag is amply sufficient.

No. 3.—*Sealing Wax.*—The general disuse of this article ought to have led to a corresponding decrease in the demand for it. Such, however, has not been the case. The quantity allowed by the scale is, under present altered circumstances, quite inadmissible. One-sixth of that quantity will be the future allowance.

No. 4—*Vinegar for making Ink.*—It is customary, as a measure both of economy and security, to supply Mofussil Officers with Ink Powders instead of Fluid Ink. But the first object in view is entirely frustrated if Vinegar at one rupee a bottle be used or charged for. The charges for this article vary from 2 annas to one rupee four annas a bottle. From the 1st May next no charge for this article in excess of 4 annas a quart bottle will be passed by this Office.

7th. Many of the petty Stationery charges in Offices are never really checked. They rest with the Duftries, who regard them as legitimate and time-honored perquisites, and insert them in the Contingent Bills as a matter of course.

8th. To check and disallow these charges here is a very disagreeable and invidious task, and explanations, however unsatisfactory, must in most cases be accepted by the Superintendent of Stationery. But the course adopted by Mr. Hamilton shows that on the spot they may be dealt with effectually. Should any means of retrenchment, other than those pointed out in this Circular occur to you, I shall be very much obliged by your communicating them to me. If favored with the hearty co-operation of Indenting Officers, the Superintendent will be enabled, from these sources alone, to effect a handsome saving in the expenditure of this Office.

I have, &c.,

Officiating Superintendent.

RESOLUTION.—The Hon'ble the Lieutenant-Governor, Punjab, is pleased to lay down the following Rules in regard to Indents for Stationery on the Superintendent at Calcutta, which are to be considered applicable to all Offices in the Punjab, and are to be strictly attended to in future:—

I.—The head of each Office will, on the 1st of May next, and on the 1st of March in each succeeding year, see that all Stationery in store is correctly counted and recorded in the Column of "Balance in hand" in the Annual Indent.

If, from any cause, the Head of the Office cannot personally see to this, he should entrust it to some responsible European Assistant or Extra Assistant. In either case a certificate should be appended, vouching the accuracy of the balance shewn.

II.—That no article be indented for, of which there may be a sufficiency in store to meet eighteen months' requirements: the estimate of such requirements being carefully tested by the actual expenditure of past years, and due allowance made for the reduction of routine work which has now been effected. All stores, surplus to eighteen months' requirements, should be shewn in a separate statement which should accompany the Indent of 1st May next.

III.—That the articles noted below be entirely excluded from future Indents on the Stationery Depôt at Calcutta, such of them as may be *absolutely* necessary being made up or purchased on the spot at prices not exceeding those shewn below, and subject to the rules of the Stationery Office as regards number and duration:—

		Rs.	As.	P.	
Oil Paper,	...	0	4	0	per sheet.
Country Leather,	...	0	7	0	per piece.
,, Sealing Wax,	...	40	0	0	per maund.
,, Ink,	...	4	12	0	per maund.
Narrow Tape,	...	0	5	0	per d. bdls.
Broad do.	...	0	7	0	ditto.
Narrow Ribbons,	...	0	8	6	per Roll.
Broad Ribbons,	...	0	10	0	ditto.
Slices,	...	3	2	0	per dozen.
Round Rulers,	...	0	4	6	each.
Flat Rulers,	...	0	2	0	each.
Wooden Inkstands, double.		0	4	0	each.
do. do. single	...	0	3	0	each.
Sand Boxes,	...	8	0	0	per dozen.
Silk Thread,	...	6	4	0	per seer.
Wax Cloth,	...	0	12	0	per piece.
Corba do,	...	16	14	0	per 100 p.
Needles,	...	1	4	0	per 1000.
Paper Weights,	...	0	12	0	per dozen.

Wooden paper weights may conveniently be substituted for the leaden weights supplied from Calcutta.

Reed pens and wax candles will not be allowed at all in future.

Drawing materials shall only be indented for by Officers in the Public Works Department. Local Committees requiring such articles will purchase them in the nearest market, and charge them to the local funds.

IV.—That Registers be carefully kept of all actual expenditure, and that no wasteful expenditure of Stationery be permitted. European Officers themselves should never call for articles of Stationery without first entering them in the Register, or forwarding a written memorandum if in Camp. This will prevent the abuse which attends the practice of allowing a Jemadar or Duftree to make a daily demand on the Stationery Stores for the Head of the Office and his Assistants, those Officers being unaware of the extent or frequency of such demands.

V.—All annual Indents shall in future be submitted by the 20th of March for audit to the Secretary to Government, according to Departments, who will forward them to the Superintendent of Stationery after révision, informing the Indenting Officer of any retrenchments made. The Indents for the current year should be submitted not later than the 15th proximo.

VI.—Where there are sufficient supplies in hand to meet the wants of the next eighteen months, as is understood to be the case in some Districts, no Indent should be submitted; but the stock should be taken on the 1st of May, and an account of it be forwarded with a blank Indent, in order that the Government Office may be satisfied that the submission of the Indent has not been overlooked, and be informed of the stock in hand.

VII.—It is understood that in some few Districts the Stores are not collected in *one* Almirah, but kept in boxes or parcels. Where this is the case, it is directed that the whole stock be unpacked, and all stationery of *each* kind be placed together on the same shelf in *one* suitable cabinet, under the key of the *head clerk*, or the clerk in charge of the Stationery.

VIII.—Where a number of blank books exist, but are no longer required, a list of them, and of all such Stores as are no longer likely to come into use, should be submitted, to admit of their being transferred to Offices where they are required, in part satisfaction of their Indents. Similarly, if perishable stores, like quills, have accumulated beyond the requirements of the next eighteen months, this should be shown.

IX.—All Stationery and Stamp Boxes should be at once sold, unless they are required for any public purpose, in which case their value is to be credited to the Stationery Department. No accumulation of old boxes should be allowed.

Ordered.—That this Resolution be published in the *Punjab Gazette*, and that the particular attention of all Officers be directed to the Stationery Office Circular No. 809, dated 8th ultimo, given above.

No. 1 of 1860-61.

The Government of India, at the recommendation of the Director-General of the Post Office in India, having determined that the Post Office Department in Pegu, Martaban, Amherst, and Tenasserim shall no longer be under control of the Post-Master General of Bengal, the Public are hereby informed that the undersigned, under control of the Director-General, is authorized to exercise the powers of Post-Master General in the above-named Provinces. It is therefore requested that, from this date, all complaints and references of the nature hitherto addressed to the Post Master-General of Bengal, may be addressed to the Chief Inspector of Post Offices in Pegu, &c.

Office of the Chief Inspector of Post Offices in Pegu, Martaban, Amherst, and Tenasserim, Rangoon, 30th March 1861.

H. N. P. Grant,
Chief Inspector of Post Offices in Pegu, &c.

Notices issued by the Post-Master of Calcutta.

All communications respecting change of address should be made to the Post-Master of Calcutta and not to the Post-Master General. Letters re-directed, whether delivered in Calcutta, or forwarded to some other Station, are taxed with "Forward Postage."

No. 2661.

The 19th September 1860.—As very many Letters on ordinary Post Office matters are addressed by the Public to the Post-Master General instead of the Post-Master, Calcutta, and as inconvenience is the result, it is solicited the practice may be discontinued, and the Post-Master be addressed on all matters of his Office, except when any party may wish to prefer complaint to higher authority.

All complaints requiring redress, such as overcharge of Postage, mis-sending or delay in the delivery of Letters, &c., must be made to the Post-Master-General, accompanied by the Envelopes of the letters referred to; the number of the Delivery Peon should always be stated.

No. 1027.

The 9th July 1859.—Parcels or Book Packets cannot be sent by Private Ships through the Post Office.

Notice.

The Inland Postage on letters, &c., posted for despatch by the After-Packet must be prepaid. Such letters, &c., as do not bear the Inland Postage, or are insufficiently stamped with the After-Packet Postage, will be detained and forwarded by the next Steamer.

Special Notice is directed to the subjoined Clauses of Rules, the want of attention to which has occasioned the Post Office much inconvenience.

2nd.—A separate instruction will be required for every change of address, and no instruction will be attended to for more than three months after its receipt.

3rd.—Under Section XXIII. of Act XVII. of 1854, Forward Postage will be charged in addition to all other Postage due or paid thereon upon every letter without exception, which may be re-directed in any Post Office. For example, if a letter posted in Calcutta and addressed to Hooghly is, under instructions which may have been received from the addressee, re-directed in the Calcutta Post Office and sent to Barrackpore, Forward Postage will be charged in addition to the Postage which would have been due, had the letter been despatched to Hooghly according to its original address.

4th.—The practice of giving instructions to the Officers of the Post Office to intercept and re-direct letters, not only imposes much labor upon them, but in large Offices seriously retards the delivery and despatch of the Mails. A register of instructions regarding changes of address will be kept in every Post Office, but it must be understood, that it is impossible to guarantee that they shall be attended to except in the case of letters received for delivery.

Letters and Newspapers despatched to and from the United Kingdom by private Vessels are liable to the following rates of Postage, which must be pre-paid by Stamps:—

	Rs.	As.	Pie.
Letters not exceeding ½ oz. in weight	0	4	0
Ditto exceeding ½ oz. but not exceeding 1 oz.	0	8	0

And so on adding 8 annas for each oz. or fraction thereof which includes Inland Postage.

Newspapers not exceeding 4 oz. in weight, 1*d.* or 8 pie must be pre-paid by Stamp, and no Inland Postage is required upon such papers.

Parcels conveyed by the above opportunity for the United Kingdom are liable to Letter rates of Postage.

Notice.

LETTERS arriving at the Presidency Towns by Mail Steamers will be immediately sorted for delivery according to the address alone, without any reference to instructions which may have been received regarding change of address; such changes will be left to be discovered by the Delivery Officers, and be corrected in the forward and unclaimed Departments of the Office.

Forward Postage will be charged in addition to all other Postage due or paid thereon upon every letter without exception, which may be re-directed in the Post Office.

Letters, &c., received by the Steamer will be delivered at the Window of the Post Office only to parties who have registered their names. Applications to the Post Office on the day of the Steamer's arrival to intercept and re-direct letters, &c., cannot be attended to, as they are found not only to impose much labour but seriously retard the delivery and despatch of the Mails.

UNDER the orders of Government, no fourth delivery of letters by the Post Office is allowed. Mails which are received by Steamers from Suez at so late an hour in the day as not to admit of the letters being taken out for delivery by 6 P. M. are detained till the following morning, but parties who have registered their names under the usual fee are entitled to receive their letters and Marseilles Newspapers so soon as the Mails are sorted, and which is generally about 2½ hours after receipt of the Mail, at the Post Office.

Forward Newspapers.—Extra or Forward Postage is chargeable on every Newspaper re-directed at the Post Office of original address and forwarded to another Post Office.

No. 9391.

BANGHY Parcels are in future not to be specially registered, as the full address and weight of all such are registered in the Post Office, and receipts are granted to Senders if required. The Post Office Officials have therefore been directed, not to accept fees for the special registration of Banghy Parcels. Articles sent on Book Post rates are not registered unless a registration fee is paid. When therefore Books or Prints or other Articles of value are sent by Book Post, the Senders can register them by payment of the usual fee of 4 annas.

Preamble.

Application.

I. Any relative or friend of a minor who may desire to prefer any claim in respect of the custody or guardianship of such minor, may make an application by petition, either in person or by a duly constituted agent, to the principal Civil Court of origi-

nal jurisdiction in the district by which such application, if preferred in the form of a regular suit, would be cognizable, and shall set forth the grounds of his application in the petition. The Court, if satisfied by an examination of the petitioner or his agent, if he appear by agent, that there is ground for proceeding, shall give notice of the application to the person named in the petition as having the custody or being in the possession of the person of such minor, as well as to any other person to whom the Court may think it proper that such notice should be given, and shall fix as early a day as may be convenient for the hearing of the petition and the determination of the right to the custody or guardianship of such minor.

Production and temporary custody and protection of minor.

II. The Court may direct that the person having the custody or being in possession of the person of such minor shall produce him or her in Court or in any other place appointed by the Court on the day fixed for the hearing of the petition or at any other time, and may make such order for the temporary custody and protection of such minor as may appear proper.

Procedure.

IV. In cases instituted under this Act, the Court shall be guided by the procedure prescribed in Act VIII of 1859 *(for simplifying the procedure of the Courts of Civil Judicature not established by Royal Charter,)* in so far as the same shall be applicable and material; and any order made by the Court may be enforced as if such order had been made in a regular suit.

Appeal.

FINANCIAL DEPARTMENT.

No. 91.

Extract from the Proceedings of the Government of India in the Financial Department, dated 26th April 1861.

READ the following :—

From the Civil Finance Commission, to C. H. LUSHINGTON, ESQ., Secretary to the Government of India, Financial Department, No. 289, dated Fort William, the 2nd March 1861.

SIR,—WE have the honor to address you regarding the expenditure for Stationery which we have had under consideration for some time, and regarding which we obtained a material Return only last week. We have conferred with the Superintendent on all details. The magnitude of the charge compared with its purpose will, we think, justify our endeavouring to devise means of reduction.

2. The expenditure of the Department from the year 1849-50, which followed the annexation of the Punjab, is shown in the annexed paper marked A. The average annual expenditure for the four years preceding, and that for the four years following the annexation of Oude, were as follows:—

EXPENDITURE.

	Actual Cash.* Rs.	As usually shown.† Rs.
Annual average for the years 1852-53 to 1855-56, inclusive	4,70,657	4,91,156
Ditto for the years 1856-57 to 1859-60	7,76,269	6,83,299
Difference ...	3,05,612	1,92,143

* 1, i. e., Value of stores received from Europe and bought in India.
2. Establishment, packing charges, &c.
3. Contingent expenses for Stations in the Mofussil, &c.

† 1. Value of Stores issued.
2. Establishment, packing charges, &c.
3. Contingent expenses, &c.

This large increase of nearly three lacs of Rupees in the annual cash expenditure of the latter period was not caused in any appreciable degree by the annexation of Oude, or by any administrative changes; and it admits therefore of considerable reduction.

3. The cash expenditure consists of—

I. Outlay for Stationery.

II. Mofussil purchases and contingencies.

III. Establishment and packing charges in Calcutta.

We will consider these *seriatim*.

4. First, as to the outlay for supplies. This consists of—

I. Value of Stores received from England.

II. Amount of purchases made by the Stationery Office in Calcutta. And the outlay in both these Divisions depends on—

III. The actual yearly issue and expenditure of Stationery.

IV. The proportion of reserve stock which should be kept up.

The details in the margin illustrate these four divisions of the subject. It will be seen that the Stationery received or bought in the four years ending 1859-60 exceeded that issued by an average amount yearly of Rupees 92,471, causing a heavy accumulation of stock; and that whereas the receipts of 1856-57 and 1857-58 (Rupees 12,40,143) exceeded the issues of those years by Rupees 4,42,400; no effort has since been made to work off this surplus by stopping purchases or Home supplies; but we shall pursue this further in the third division of the subject.

We submit that a large saving may be effected in the first and heaviest charge, which consists of the following items:—

Laid Papers, viz.,	1856-57. Rupees.	1857-58. Rupees.	1858-59. Rupees.	1859-60. Rupees.	Annual average on the four years. Rupees.

6. The fourth item or English Printing Paper is being superseded by German Paper, which we shall consider under the head of purchases in India. Only the first three, which are also the principal items, need be noticed here. There is ample scope for reduction—

1*st*. In the price of the existing classes of Europe Laid Paper.

2*ndly*. By substituting for them good serviceable paper of cheaper sorts.

7. Firstly, as to reduction of prices. The Foolscap Paper supplied from England is good, but it costs 18*s*. 6*d*. a ream, exclusive of freight, and of charges for packing and for Establishments. The charge for Establishments is 4 per cent. on the Invoice. The same paper could be supplied by Messrs. Spalding and Hodge at about 5 per cent. less than the present price, thereby saving 9 per cent. on the importations, and at this rate, the saving on Europe Paper on the average receipts of the last four years, would be Rupees 17,500 (a further reduction would occur, we believe, in the amount of packing charges, but this we will not reckon.) We recommend accordingly that the Local Governments be allowed to contract for their Europe Stationery with firms in India, or direct with the manufacturers in England. We believe that in the Presidency there are several Firms who might, from their character and position, be well entrusted with the supply.

8. In further support of private contracts, we may urge that the articles noted in the margin are of Indian manufacture. They are not cheap and are very bad. Native Contractors supply them, the amount involved (about Rupees 50,000) being too inconsiderable for European Firms. Were the articles included in local contracts for Europe Papers, they would be obtained of good quality and at less cost; for competition would oblige applicants to tender for minor articles at prime cost, in order to secure the contract for the Europe papers. A saving of Rupees 5,000 may be reasonably anticipated.

Rulers, Steel-pens, Inkstands, Paper-weights, Paper-cutters, and Mill-boards.

9. We have considered as yet merely the cost of present qualities of Europe Stationery, but by the substitution of other qualities, a further saving may be effected. Paper is of two kinds, *viz*., Hand-laid (which is expensive) and Machine-made; at present only the Laid Paper is supplied. We would recommend: 1*st*., that a cheaper sort of Laid Papers* be obtained; 2*nd*., that the Laid Foolscap be partially displaced by Machine-made paper.

* Imperial, Book, Consultation, General Letter, Foolscap.

10. On the first head, we would observe that the Officiating Superintendent of Stationery obtained from the respectable English Firm of Messrs. Spalding and Hodge the accompanying sample of Laid Foolscap Paper, which they would supply at 13*s*. per ream; the charge for the larger sized papers would be in about the same proportion. In appearance and in use, the sample is as good as the best Foolscap which is supplied through the India House at 18*s*. 6*d*. per ream. Only the initiated can detect any difference in the texture, while the difference in price is very considerable. Similarly, a reduction of 20 per cent. may be effected in the larger sized Laid Papers, and we would accordingly recommend the substitution of good serviceable Laid Papers like Spadling and Hodge's for the present qualities, which latter appear to be enhanced in price by fanciful distinctions in the paper trade. The saving in the annual average of the supplies for the past four years would amount to Rupees 43,980 a year.

	Rupees	43,980

11. In support of the second suggestion, *viz*., the partial displacement of Laid Foolscap by Machine-made Foolscap, we submit a sample of Machine-made Paper which can be delivered in Calcutta of any color at 9*s*. or 10*s*. a ream, being 8*s*. a ream (plus freight and charges) less than Spalding's Hand-laid Foolscap. The latter might be reserved for correspondence of permanent value, and for all correspondence with Government; but Subordinate Departments might correspond with each other on Machine-made Paper, which, even in Secretariats, might, in a great measure, supersede Laid Foolscap for the rough drafts of letters, seeing that the latter are printed. In fact, the Machine-made Paper would suffice for all ordinary purposes, *i. e*., for nine-tenths of the uses to which the expensive Hand-laid Foolscap is applied. We would accordingly suggest that the aggregate issue of Foolscap be limited to the proportions of one-fourth Hand-Laid and three-fourths Machine-made. The saving on three-fourths of the average annual supply of the last four years would amount to Rupees 16,343 a year, beyond that which has been estimated on Spalding's Foolscap.

12. With the papers exceeding Foolscap size, it is not possible to substitute Machine-made for Hand-laid; but considering their relative prices, an equivalent result may be obtained by displacing a certain proportion of the present issues of Imperial, Book, and Consultation papers, by equal quantities of the next inferior size, and by discontinuing the supply of General Letter paper. There is great necessity for such an arrangement; for the expenditure of these papers in the four years ending in 1859-60 greatly exceeded that in the preceding four years. The average annual expenditure was as follows:—

	Per ream. Rs. As. P.
Imperial paper ...	40 15 4
Book or Royal ...	24 9 7

We submit that, for the following reasons, the smaller sizes may more or less supersede the larger in the proportions marginally stated.

Imperial paper	½
Book paper	⅔
Consultation paper	¼
General Letter paper, entirely.	

I. Because the large papers are required chiefly for Accounts and Statements, which by proper expedients can, in several cases, be reduced in size. The voluminous Disbursement Statements of Military Pay-Masters, herotofore prepared on Imperial or Book paper, are in course of reduction to a few sheets of Foolscap. The average yearly issue in 1852-53 and 1853-54, was of Imperial paper, 81 reams against 143 reams in 1859-60, and of Book paper 678 reams against 935 in 1859-60.

II. The expenditure of large paper for such Returns, Accounts, Statements, &c., as are printed should be curtailed by preparing the Printer's copy on Cartridge, German, or Serampore paper.

III. Rough drafts of letters are, in some Offices, copied in books of Consultation or Book paper. Were the scale to be summarily cut down, rough drafts would be simply filed, in most cases effecting an additional saving thereby in Copyists.

IV. General Letter paper is the next size to Foolscap. It is not much larger, but it is much dearer than the latter, and the purposes for which it is used might be as effectually served by Foolscap.

13. Not to multiply reasons, we may venture to affirm that if Government will order the displacement of certain quantities of the larger sized papers, by equal quantities of smaller paper, the several Departments would, by condensing Forms and Returns, and in other ways, economize the use of the costly papers. The extent of reduction recommended in the previous paragraph would yield the following saving, computed on the annual average of the issues in the four years ending 1859-60, *viz.*:—

½ of 154 reams of Imperial paper (or 51 reams) to be displaced by Book paper; saving in price Rs. 16-6-0 per ream ...		835
⅔ of 891 reams of Book paper to be displaced by Consultation paper at a saving of Rupees 5-8-0 a ream ...		1,958
¼ of 964 reams of Consultation paper to be displaced by Spalding and Hodge's Foolscap at Rupees 12-8-0 per ream ...		6,025
1,287 reams of General Letter paper to be displaced by Spalding and Hodge's Foolscap at Rs. 7-0-0 per ream ...		9,009
	Rs.	17,827
Deduct—		
Reduction in price of large papers estimated in paragraphs 7 and 10		4,457
	Rs.	13,370

It will be well to accompany this reduction—

I. By a scrutiny, in the next indent, of the purposes to which the large papers are applied.

II. By reserving the supply of Imperial paper for particular Offices, leaving other Department which may especially require the paper to buy it from the Government Store, and requiring the Auditors or Examiners to disallow Bills for such payment except on proof that a smaller sized paper would not have answered the purpose in hand.

14. Thus, on the papers supplied from England, savings would accrue from the measures recommended in

giving an aggregate of Rupees 96,000 a year without having retrenched a single ream from the total issues or from the Reserve Stock.

15. We proceed now to the second item in our 4th paragraph, *viz.*, the purchases made by the Stationery Office in Calcutta. They were as follow, in the four years ending 1859-60, *viz.* :—

	1856-57.	1857-58.	1858-59.	1859-60.	Total.	Average.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

	2,90,487	1,75,504	1,71,640	2,48,430	8,86,061	2,21,515

The first item is chiefly for Serampore and German Paper which was purchased to the following extent, *viz* :—

	1856-57.	1857-58.	1858-59.	1859-60.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.
Serampore Paper ...	36,011	30,014	32,025	16,818	1,14,868

	1,37,240	97,087	98,020	1,48,996	

The bulk of the expenditure is for printing, and it is to be hoped that the enquiries of the Printing Commission will effect a large saving in this item. The quantities expended are very large as follows :—

	For the Official Years				*For the twelve months ending*
	1856-57.	1857-58.	1858-59.	1859-60.	31*st Jan.* 1861.

	27,821	26,690	26,676	32,260	38,043

The German Paper is bought in Calcutta as occasion requires Being purchased at uncertain intervals, the venders charge extra profit. By a regular contract with one of the Foreign Houses in Calcutta, a reduction of at least 12½ per cent. could be effected. This, on the annual average of the purchases in the two years ending 31st January 1861, would yield a saving of Rupees 16,666 a year.

16. The expenditure for Europe-bound Blank Books has been increasing heavily. The average in the four years ending 1859-60 was Rupees 35,542, and in 1859-60 it was Rupees 51,326. In the preceding four years it was as follows :—

In 1852-53 ...	Rupees	8,734
„ 1853-54 ...	„	12,196
„ 1854-55 ...	„	69
„ 1855-56 ...	„	41,124

This expenditure has not been controlled. Indents have been sanctioned on application without scrutinizing the necessity for the demand. Adding to these considerations the waste of paper from the disproportionate thickness of the books in many cases, the expedients for economizing the larger sized papers, which have been noticed in paragraphs 12 and 13, and the general reduction of the scale by one-fourth, we shall moderately estimate the saving in this item if we take it at Rupees 12,000. The aggregate of reductions on the supplies obtained from Home and bought in India would therefore be—

As in paragraph 14	Rupees	96,193
„ 15	„	16,666
„ 16	„	12,000
		1,24,859

17. We may pass on to the third item in our 4th paragraph, *viz.*, the yearly issue or expenditure of Stationery. There is extra expenseunder this head : 1*st.*, from excessive issues by the Stationery Office ; 2*nd.*, from want of proper check over the detailed expenditure in Departments. On the first ; point we would observe that the Stationery Office has not retrenched indents if within the scale of 1851, although the Indenting Officer may have had a large unexpended balance of the articles indented for. In this manner a stock greatly exceeding the annual consumption of some articles has accumulated in various Offices. The scale of 1851 should accordingly be revised, and indents should not be passed without reference to the actual expenditure and the balance of the previous year.

18. The scale of Europe Papers might be reduced to one-fourth of the present scale for the reasons assigned by the Officiating Superintendent of Stationery, in his letters to the Revenue Board, No. 2470, of 13th August 1860, and No. 2732, of 6th September 1860. This, at the reduced prices recommended in previous paragraphs, would effect a saving of Rupees 32,000 a year.

19. The reduction of the scale by one-fourth may seem arbitrary, but in this respect we believe that the Government may, for the present, rely on the experience and observation of the Superintendent of Stationery. Our general impression is that even one-third may be reduced. But the same result would be obtained perhaps by requiring Officers to restrict their future indents for Europe Papers and for Stationery, generally, to the yearly average of their actual expenditure in the past three or the past four years.

20. A restriction being thus placed on the quantities to be annually indented for, values may next be applied to those quantities at the probable future prices of Stationery. The amount thus obtained could form the pecuniary limit for the annual expenditure of Stationery in each Department.

21. But to make this limit effectual, Officers should be prohibited from charging in Contingent Bills the cost of any sanctioned articles which may be available from the Stationery Office.

22. Furthermore, the chief restriction on the waste of Stationery must be applied in each Department itself. There the expenditure should be scrutinized weekly by a responsible Officer with a degree of care which we believe has not heretofore existed. Draft rules providing these and other checks on the expenditure of Stationery are herewith submitted.

1859-60	1,90,202	2,48,430	4,38,632	4,86,059

23. The remaining point to be considered in the outlay for stores is the Reserve Stock of Stationery. We have already shown in our 4th paragraph that the reserve is excessive; the figures for the eleven years ending 1859-60 are given in the margin,* where they are contrasted with the issues of the same years. Up to 1856-57 the Reserve Stock was considerably less than the year's issues, having varied from $\frac{1}{4}$ to $\frac{1}{8}$ of the issues in 1849-50, 1850-51, 1855-56, and in 1856-57. We can well conceive that the low reserves in 1849-50 and 1850-51 caused no inconvenience if they were kept chiefly against the stores received from Europe, whereas in subsequent years purchases disproportionate to the existing reserves and to the total issues were made in India, thus aggravating the effect of the supplies from Europe, which also became excessive from 1856-57, as may be seen from the figures in the margin.† We would recommend that the Reserve Stock be kept chiefly against the *supplies from England*, understanding by that term supplies which may be obtained from the India House or direct from manufacturers in England. Against supplies of Europe or Country Stationery obtained from Contractors in India, a smaller reserve would suffice. Now the experience of 1849-50 and 1850-51 warrants our suggesting that the reserve against supplies from Europe be limited to six months' consumption of only the articles that are so obtained. We shall shortly have an advantage which we did not possess in 1849-50, *viz.*, monthly steam communication *vid* the Cape. With this resource, and with ordinary precaution in maintaining the reserve, an emergent indent on England should reach India in six months. Furthermore, one cause of the excessive stock now on hand is the irregularity of the receipts from England. By contracts with manufacturers in England this element of uncertainty and expense would be avoided.

24. The reserve for supplies obtained by local contract need not exceed three months, if indeed it be not preferable to stipulate that the Contractors shall keep up that amount of reserve or shall furnish supplies at stated periods, under a penalty for failure. With due care in timing the demand, the Contractor would not feel these conditions as burdensome.

25. The value of the Stock on 1st May 1860 was Rupees 4,29,457; the proportions of it which consist of European Stores and of articles furnished in India, respectively, cannot be distinguished without labored calculations. But we shall not be far wrong in distributing the amount in the ratio of the average yearly purchases and importations for the four years ending 1859-60. Thus distributed, the stock of 1st May 1860 may be stated as follows:—

Of stores received from Europe	...	Rupees	2,47,455
„ purchased in India	...	„	1,82,002
		Rupees	4,29,457

Similarly dividing the yearly issues in the ratio of the purchases, the average of the annual issues for the four years ending 1859-60 may be stated at—

Stores from England	...	Rupees	2,49,337
Bought in India	...	„	1,83,386
		Rupees	4,32,723

On the principle of reserving a six months' supply for stores obtained direct from England, and of three months' supply of those purchased from local Contractors, the Reserve Stock would be—

Of supplies from Europe	...	Rupees	1,24,669
„ Local supplies	...	„	45,847
		Rupees	1,70,516

But as this proceeds on the present scale which we have proposed might be cut down by one-fourth; there may be a corresponding deduction from the above. Rs. 42,629

Rs. 1,27,887

As this would be double of the reserve which existed in 1856-57, with a yearly issue of stores to the value of Rupees 4,43,750, we have not under-estimated the proper reserve. Deducting then Rupees 1,27,887 from the stock of 1st May 1860, Rupees 4,29,457, there would be an absolute saving of capital to the amount of Rupees 3,00,000, equal, at 5 per cent. per annum, to a saving of Rupees 15,000 a year. This would be increased by any measure, such as freer recourse to local contracts that might diminish the Europe supplies, against which the Reserve Stock would be principally maintained.

26. The stock of Europe Laid Papers on 31st January of the under-mentioned years, was as follows:—

	Stock on 31st January.				Issues.		
	1858. Reams.	1859. Reams.	1860. Reams.	1861. Reams.	In 12 months ending 31st Jan. 1861. Reams.	In 1859-60. Reams.	In four years ending 1859-60. Reams.
Laid Imperial	141	353	435	307	Not known.	143	154
„ Royal	1238	1773	1823	811	1019	935	891

„ Foolscap	12061	1169	13943	7639	12560	10883	11369

The stock of Imperial Paper is equal to two years' consumption; of General Letter to above eighteen months' expenditure. The Royal and Consultation Paper together will suffice for more than a year's consumption. If to present stock be added supplies on this way, and any further supplies purchased but not yet despatched, the expediency of cancelling the unexecuted portions of past indents may be manifest; in which case notice might be sent Home before May or June next, as those are the months in which Stationery supplies are usually despatched from England.

27. The aggregate saving under the several heads enumerated in our 4th paragraph may be safely estimated therefore at Rupees 1,60,000 a year, *viz*:—

By the abstract in paragraph	16	...	1,24,859
„	18	...	32,000
„	24	...	15,000
			1,71,859

exclusive of the savings which will arise from an efficient check of the detailed expenditure for Stationery.

28. We will now advert to the second item in our 3rd paragraph, *viz*., Mofussil purchases and contingences. The average yearly expenditure in the four years ending 1855-56 was Rupees 1,74,044, but in the next four years it amounted to Rupees 2,03,176, while in 1859-60, it was so high as Rupees 2,43,589. The outlay may be fairly limited to the average of the four years ending 1855-56 or to the somewhat higher expenditure in 1858-59, which was a year of very heavy work. The saving would amount on the expenditure for 1859-60 to Rupees 63,589, or on the average of the four years ending 1859-60 to Rupees 23,000.

29. This process of reduction may be considered summary; but it is the only way of reaching otherwise impalpable items which singly are too petty to be scrutinized. On this subject we submit a letter from the Opium Agent at Benares, No. 84 of 11th December 1860, and transcribe in the margin some observations by the Superintendent of Stationery. Other testimony of the same tendency might be cited; but we believe that Government do not need to be persuaded that if the expenditure be summarily cut down, Officers will keep their payments within the prescribed limit.

"The amount of contingent bills is very large, and it may perhaps be well to consider whether it is not desirable again to resort to the old practice of fixing a monthly allowance for these bills. To each bill is an attestation that the purchases were absolutely necessary. It is however in most cases very difficult for the Superintendent of Stationery to estimate this necessity. Certain articles not susceptible of audit by the Department are struck out, and where any palpably improper purchases are made, they are disallowed; but beyond this our check is of little value, nor am I able at this moment to suggest any plan by which it can be made more effectual."

30. Regarding certain minor articles the Officiating Superintendent of Stationery observes as follows:—"The following articles might be omitted—Country Pens, Pounce, Silk, Thread, Needles, Screw-top Inkstands. The expenditure on Candles and Sealing Wax is so greatly in excess of what I am satisfied the legitimate use of those articles requires, that I recommend the entire omission from the list of the former, and the limitation of the latter to one-sixth the quantity allowed by the present scale." Pounce is useless. Every Mohurir prefers his own Pens; Screw-top-Inkstands are not required in Public Offices; Silk, Thread, Needles, and Wax Candles would fall within the limit for contingencies proposed in the preceding paragraph; and the saving on all the items would amount to about Rupees (3,000) three thousand.

31. The remaining item (see our 3rd paragraph) is that for Establishments and packing charges and freight. As to packing charges we may observe that this expense will diminish with the reduction of scale and of supplies of the larger sized papers. Further more, the Officiating Superintendent of

Stationery has since 1860-61, converted the Stationery cases received from England into packing cases for Up-country supplies.

By these means a saving of Rupees 6,500 may be expected as follows:—

Packing charges—Annual average for the four years ending 1859-60, Rupees	...	12,900
One-fourth saved by reduction of scale	...	3,225
By reduction of large sized papers	...	225
By Officiating Superintendent's measures	...	3,000
		6,450
		6,450

This would reduce the charge to about the same amount as in 1855-56. The saving in freight may be estimated at Rupees 2,000.

32. Lastly, we would consider the question of Establishments. The present arrangement of one Stationery Office for the whole of the Bengal Presidency up to Peshawur is unnecessarily expensive. It entails also a heavy charge for the carriage of supplies which for the most part might be avoided. This arises solely from the Europe Stationery for the public service being deposited in Calcutta. That for the Punjab might be sent from England *viâ* Kurrachee to Lahore, and if forwarded at the same time with the Ordnance Stores, the transit charges from Kurrachee would be small. In like manner, Europe Stationery for the North-Western Provinces might be sent in bulk by Steamer from Calcutta to Allahabad, while the supply for the Lower Provinces might be deposited in the Arsenal.

33. Similarly, any Serampore paper which it may be necessary to provide for the public service might be distributed from the Arsenal, and from Allahabad and Lahore respectively.

34. For other Country Stationery, Public Officers might make their own arrangements within certain annual sums to which their expenditure might be limited.

35. By these means the Post Office would be relieved, Bullock Train charges would be reduced, and the appointment and establishment of the Superintendent of Stationery might be abolished. The saving (exclusive of the expense debitable to the Stamp Department) for the Office of Superintendent of Stamps and Stationery is shewn in the margin.

Half of Superintendent's salary	...	Rs.	9,000
Establishment	...	„	11,064
Contingencies, saving of bullock train hire, freight, &c., saving	...	„	7,000
		Rs.	27,064

36. The transfer of the Stamp Department to the Financial Secretariat forms an additional reason for separating from it the petty details of the Stationery Office, while the probable increase of establishment in the Stamp Office, for the additional work caused by the New Stamp Act, will render a commensurate saving desirable in the cost of the Stationery Office.

37. Against the above saving hardly any set-off will be necessary for separate store establishments under the Local Government at the Presidency, Allahabad, and Lahore Failing other accommodation, the Stationery for the North-Western Provinces and the Punjab could be deposited in the Allahabad and Lahore or Ferozepore Magazines. In that case, the issues of Europe Stationery and Serampore Paper would be made on Indents sanctioned by the Financial Commissioner (in the Punjab) or by the Civil Pay-Master General or other appropriate functionary. For the Military Department the Indents would be sanctioned by the Inspector-General of Ordnance.

38. It is not absolutely necessary, however, that the Stationery for the North-Western Provinces and the Punjab should be deposited in the Magazines at Allahabad and Ferozepore. Mr Cust, the Financial Commissioner in the Punjab, has informed us that the Punjab Government could find storeroom for the Stationery at Lahore itself without extra expense, and with the aid of only one Clerk. The issues too would be more efficiently controlled than at present.

39. The Military Finance Commission, whom we consulted, concur in these propositions. Previously to the reference to the Military Finance Department, the Revenue Board had been addressed for an expression of their views. We were informed in reply to the effect quoted in the margin.

"They have abstained from expressing an opinion on the "question of establishing Stationery Depôts at Allahabad and "Ferozepore, as a scheme is understood to be in contemplation for making the Stationery Department directly subordinate to the Supreme Government. The transfer of the "supervision of the Stationery and Stamp Office to the "Financial Department has now been directed to take "effect; it will therefore be better that the proposition "contained in your letter should be submitted to the "Financial Secretary, as the Board are not in possession "of the views of Government on the subject, and are not "aware of the reasons which have led to the direct assumption by Government of the control of that Department."

40. Mr. Perry, the Officiating Superintendent of Stationery, observes that "the present system by which all Officers draw their supplies from a Government store seems to me, in an economical as in all other points of view, to possess great advantage over any other system of supply. A fixed allowance of expenditure for each Office would, I think, be found both costly and inconvenient, and liable to more abuse than is the present arrangement." In so far as these remarks may be held to deprecate the abolition of the Office of Superintendent of Stationery, we would observe that we do not propose that Officers or Departments should buy, where they can, the Europe Stationery and the Serampore Paper which is now supplied by one Office. The supplies will still be obtained by either the Government of India for the several Local Governments, or by the latter for themselves.

41. We have no hesitation in recommending that each Local Government be allowed to make its own contracts. The several Governments might annually exchange lists of their prices; and the Supreme Government, by comparing these lists, when revising the Estimates for the Budget, could extend to the rest of India the economical arrangements of the cheapest Presidency.

42. It would be necessary for the financial success of our recommendation, and, what is of more consequence, for the enforcement of the new system of Budget Estimates, to place a limit on the annual expenditure of each Local Government; but from the *data* referred to in paragraph 20 this would be easy.

43. We would now submit an abstract of the savings recommended by us, *v.* :—

44. In the Bengal Presidency, then, we believe that at least two and one-third lacs per annum might be saved, exclusive of the reductions to be effected by the enquiries of the Printing Commission, and by checking expenditure in detail. Thus there is every hope of bringing down the expenditure to the annual average of the four years ending 1855-56. We believe that the same principles are equally applicable to Madras and Bombay. If Government shall be pleased to approve of our present recommendations, we can submit further recommendations for the other Presidencies.

From H. C. HAMILTON, Esq., Benares Opium Agent, to the Sub-Deputy Opium Agents of the Benares Division,—(No. 84, dated Ghazeepore, 11th December 1860.)

SIR,—My attention having been attracted to the Stationery Bills which have of late passed through this Office, with a variety of charges for numerous articles which are supposed to be more or less required for the several Sub-Division Offices belonging to this Agency, I have the honor to request you will for the future, or from and after the 31st December 1860, abide by the following instructions in preparing your Stationery Bills and disbursing money on public account:—

No. 1.	Reed Pens for Native Omlahs. The charge seems to vary from 1 to 4 annas per mensem.	This charge is inadmissible and will not be re-allowed. Native Writers always prefer their own pens. Higher Officers never use those supplied in Offices. Every workman in almost every trade provides his own tools and implements, and there is no reason why Omlah, who are far better paid, should not work with their own pens.
„ 2.	Wax Candles generally 2 annas a month when the charge is made.	This item is clearly unnecessary. A common oil *chirag* is amply sufficient for general purposes, a pice worth of oil bought when required would always answer, and this charge will not be again allowed.
„ 3.	Red Ink. Charges from from 2 to 3 annas and 9 pie.	This article is supplied from the Stationery Office, and the quantity allowed annually must be made to suffice; it will not be passed again in any Bill as an extra and separate charge.
„ 4.	Inkstands for Native Officers charged 2 annas.	Ditto ditto.
„ 5.	Country Sealing Wax charged 2 annas.	Sealing Wax is not necessary, excepting for sealing Challan Jars during the weighment season, and it will not be admitted as a monthly charge.
„ 6.	Vinegar charges variously, from 2 annas to 1 Rupee a month.	Vinegar is not necessary for ordinary purposes, provided the Ink Powder is properly prepared, and it is absurd to suppose that one Officer can require 1 Rupee's worth during one month, while another can charge only 2 annas, a third not charging for it at all.
„ 7.	Country Ink.	The charge varies so considerably for this article that it is most difficult to conjecture what the monthly expenditure really comes to. In one Division the charge is as high as Rupee 1-11-0 for the month while in another it is down to 4 annas only, and there is not any sufficient reason why the expenditure should vary so greatly. The Agent directs that materials for Country Ink be purchased at the bazar rate and be brought to the Sub-Deputy Agent, who will cause the Ink to be prepared once or twice a month as he may deem to be necessary, and it can remain under charge of the Head Writer of the Office, who should be held responsible for its consumption. The maximum charges in any Office will be 8 annas, and the present maximum of any Office must be still further reduced.
„ 9.	Materials and compositor for sealing papers.	The charges for these are amusing. In some Offices they are called *Seeka Lawat*, and rated at 6 annas a month; in others *Lamp Black* alone is charged 2 annas. In others, *Lamp Black* and Oil only 2 annas for the whole month; while in another, there is a charge of 4 annas for Stamping Ink, the charge clearly resting with the Duftree and never checked by any person. Materials must be purchased once or twice a month as necessary, and care must be taken that they are not made away with. The maximum charge allowed will be 3 annas a month, and the present maximum of any Office is not to be exceeded.
„ 8.	Oil.	Only one solitary Officer makes any separate charge for oil, nor is it clear why 2 annas should be entered for it as a distinct item; it must in future be excluded.
„ 10.	Paste, Thread, Twine, Gum, Flour.	The charges are various and curiously made. The thread varies from 9 pie to 2 annas; flour for paste from 6 pie to 4 annas; thread, gum, and paste 4 annas. Thread and twine 1 anna, and so on No doubt, paste of gum for making and closing envelopes and for other purposes is regularly used in every Office, as well as thread for stringing papers together, but it is clear that 4 annas worth of the two cannot possibly be expended during any month. A maximum allowance of 2 annas per mensem for these purposes will for the future only be admitted, and it must be made to cover all expenditure of flour, twine, thread, and gum.

2. Although the various items I have now directed to be expunged from future accounts may in themselves seem to be small, still by reducing our expenses by only a few Rupees monthly in different ways, it will be found that the sum total during a year will come to some hundreds of Rupees, and that they will form a respectable saving well worth the trouble we may take to make it. I trust therefore to your hearty co-operation, and if you can point out any other items on which a further saving can be effected in your Office I shall be most happy to take your observations into consideration.

From the Civil Finance Commission, to C. H. LUSHINGTON, Esq., Secretary to the Government of India, Financial Department,—(No. 306, dated Fort William, 12th March 1861.)

SIR,—IN continuation of our letter No. 283, dated the 2nd instant, in which we recommended that Local Governments should be allowed to supply themselves with Stationery and other articles now furnished by the Stationery Office, because of the uncertainty and irregularity of supplies from Home, and in support of our recommendation we send herewith an extract from a note from the Officiating Superintendent of Stationery, illustrative of the inconvenience and increased expense occasioned thereby.

Extract from a demi-official letter from the Officiating Superintendent of Stationery, dated 8th March 1861.

OF the Quills ordered in November 1859, none have yet been received and for Ink-pots I have been compelled to purchase in the Calcutta market at prices varying from 12 to upwards of 30 Rupees a thousand, and of corresponding quality.

Of Mapping Steel Pens 150 gross were ordered at the same time, four gross only have been received to date. The cost of this Pen in England is 12 Shillings a gross. I have thought myself fortunate in getting them from one House here at 10 Rupees a gross, but I shall probably within the next four days have to purchase them at a higher rate, the Calcutta prices generally for such an article being 200 per Cent. on the English cost.

FINANCIAL DEPARTMENT, FORT WILLIAM, THE 26TH APRIL 1861.

RESOLUTION.—THE Governor General in Council is pleased to approve of the suggestions of the Civil Finance Commission as contained in paragraphs 8 to 31 of their letter dated 2nd ultimo, and directs that they be at once carried out. The suggestions are: 1*st.*, in respect to the inclusion of certain petty articles in contracts with English manufacturers; 2*nd.*, the obtaining of a cheaper sort of Laid Paper and the partial displacement of Laid Foolscap by Machine-made Paper; 3*rd.*, the displacement of certain quantities of the larger sized papers by equal quantities of smaller paper; 4*th.*, the obtaining of German Paper by contract in Calcutta, if it can be obtained cheaper than any other; 5*th.*, the revision of the scale of Stationery fixed in 1851; 6*th.*, the proper scrutiny of the consumption of Stationery in each Department; 7*th.*, the keeping of the Reserve Stock chiefly against the supply from England; and 8*th.*, the conversion of Stationery Cases received from England into packing cases for Up-country supplies, so as to reduce the packing charges.

2. With reference to the proposal of the Commission for allowing each Local Government to make its own contracts, the Governor General in Council directs that in the first instance the Governments of Bengal, North-Western Provinces, and the Punjab be requested to furnish this Government with their views on the subject.

3. His Excellency in Council at the same time desires that copies of the Civil Finance Commission's Report, and of these Orders, be sent to the Governments of Madras and Bombay, with the request that the measures adopted in this Presidency may also be adopted by them.

ORDERED, that copies of the above be sent to the Governments of Bengal, North-Western Provinces, Punjab, Madras, and Bombay, for the purpose indicated, and for the issue of further necessary orders, with the request that the Estimates for Stationery in 1861-62 may be revised, and the results reported to this Department.

Ordered also, that a copy be sent to the Civil Finance Commission for information.

Ordered further, that a copy of the above be published in the *Calcutta Gazette* for general information.

Proceedings of the Hon'ble the Lieutenant-Governor Punjab, in the Revenue Department.

READ the following papers:—

Mr. Cust's Minutes, dated 28th January, 7th March, and 16th April 1861, regarding the restriction of duties at certain small Treasuries in the Punjab.

Financial Commissioner's letter No. 114, dated 7th February 1861, and its accompaniments, on the same subject.

RESOLUTION.—The Hon'ble the Lieutenant-Governor is pleased to decide that, from the 1st May proximo, the Treasuries of the Punjab shall be divided into two classes;—Treasuries of the first class to remain as at present, for purposes of collection, disbursement, and account, with power of receiving and granting Bills of Exchange, paying interest on Government Loans, and performing the other financial operations of the State.

A specially selected Assistant, or European Extra Assistant, should always preside over the most important first class Treasuries, as Lahore, Umritsur, Delhi, and Simla.

2. The operations of Treasuries of the second class will be restricted to collections, and to the payment of salaries, pensions, and fixed charges generally, of a similar nature. They will have no bill transactions, miscellaneous disbursements (other than those connected with the District) or relations with other Treasuries, beyond the transmission of all their surplus specie to the nearest first class Treasury. All cash, beyond their actual requirements, should be cleared out at once. All new pensions will be granted only on first class Treasuries.

3. By this arrangement the number of guards, as well as the cost of the English and Treasury Staff, at the smaller Treasuries, may be reduced to a minimum. The English Office should consist of—

A Head Clerk, Salary, Rs. 150 per mensem.
A Second " " " 100 "

Rs. 250

The Treasury Staff should consist of—

A Treasurer's Cooshta, Rs. 25 per mensem.
A Native Accountant, " 25 "

Rs. 50

As a general rule, each Division should have but one Treasurer, who will supply the Gomashtas for the similar Treasuries.

4. It shall however be in the power of the Accountant to authorize such second class Treasuries as he may direct to allow Officers of the Public Works, Commissariat, Stud, and other Public Departments, to bank with them.

5. The following are to be first class Treasuries :—

1. Delhi.	12. Ferozepore.
2. Hissar.	13. Jhelum.

FINANCIAL DEPARTMENT.

No. 96.

Fort William, the 8th May 1861.

RESOLUTION.—Certain applications for additional establishments having been submitted for consideration and orders since the Budget Estimates for the current official year were passed, His Excellency the Governor General in Council observes that such applications cannot be complied with, unless the expenditure on account of them can be met by a reduction of other items of expenditure under the heads of service to which the applications in question appertain.

This principle has already been enunciated on more than one occasion.

It was explained in the Report of the Budget and Audit Committee, No. 6, of the 27th October 1860, that the Budget Estimates were to exhibit the "scale of charge" of the year; and it was

pointed out that that scale of charge should embrace, under each department, the whole of the charges appertaining to such department, whether to be paid in the Presidency to which they belong or elsewhere. Separate provision was made only for "extraordinary expenditure rendered necessary by unforeseen emergency;" and it was remarked, on paragraph 38 of the Budget and Audit Committee's Report No. 10, of the 18th January 1861, in respect to *such* expenditure, "that as all charges "of whatever character that have to be included "in the Budget Estimates as the scale of charges "for the year, should be definitely and clearly set "forth in the Budget Estimates of the several de- "partments, and brought under fixed and clearly "defined heads, and based on calculations suffi- "ciently specific to be capable of verification, the "'extraordinary' expenditure referred to does not "come within the above, nor is it expenditure on "account of petty contingencies or miscellaneous "items for which provision is made in the Bud- "get Estimates for various purposes regularly re- "cognized by Government and classed under "fixed heads of service. It is confined to ex- "penditure on account of Wars, Famines, Inun- "dations, and such like occasions which cannot "ordinarily be foreseen, and may best be provided "for by special grants as the emergencies arise."

The Governor General in Council requires that the Rules thus laid down shall be strictly adhered to; that the sums sent in by the Local Governments and passed by this Government, shall be held to be sufficient for the wants of the Local Governments for the year; and that these sums shall in no instance be exceeded except in cases of the description above-mentioned, and in cases of pensions and gratuities, the occasions for which cannot be accurately foretold and certainly provided for in the Budgets.

In all other cases, whether of establishments or casual charges the requirements of the Local Governments will be sufficiently met by the arrangement set forth in the Resolution of this Department,* No. 11322, of the 15th November 1860, under which the heads given in Column 3 of the Statement entered in the margin, were prescribed as the heads to which specific sums would be appropriated, and within the limits of which the Local Governments would be at liberty to expend at discretion, subject to the following provisions, *viz*:—

A	Allowances, Refunds and Drawbacks.	Allowances, Refunds, and Drawbacks.

"1*st*. That any alteration in the distribution "of the charges of a department be at once re- "ported with all details, as at present, to the "Government of India."

"2*ndly*. That no salary of any Officer appointed by any Government can be altered or re- "distributed without the sanction of the Govern- "ment of India previously obtained.

"3*rdly*. That no general rates of pay or allow- "ances shall be altered nor any charge incurred, "which can pledge the Government beyond the "year to which the Estimate relates, without the "sanction of the Government of India; and

"4*thly*. That all existing Rules relating to the "control of the Government of India over pensions "and superannuations remain in force."

The Governor General in Council desires that the attention of all Departments, Governments, and Officers, be specially directed to these rules; and he requests that in future all Officers will refrain from sending in any applications for expenditure in excess of the Budget grants, except in special cases of the nature referred to above.

Subsidiary orders in connection with the charges of the Military Department will be issued, in accordance with the principle of the above instructions, by the Military Finance Department.

ORDER.—Ordered, that a copy of the foregoing Resolution be sent to the Departments, Governments, and Officers, noted in the margin, for information and guidance, and for the issue of further necessary orders.

GENERAL DEPARTMENT.

No. 874.

The 29th April 1861.

Proceedings of the Hon'ble the Lieutenant-Governor, Punjab, in the General Department :—

READ the following Minute, dated 3rd April 1861, by Mr. R. N. Cust, Commissioner on Special Duty :—

Minute on the destruction of old Ephemeral Records in the English Offices, in Divisions and Districts.

During the eleven years of British Rule the English Records in the Divisional and District Offices have swollen to a considerable size : they are not always kept in a satisfactory manner, though generally such is the case.

When I re-arranged the records of the old Lahore Division, I had every bundle examined, and all Ephemeral letters taken out and destroyed. The remainder were tied up in six-monthly or yearly blocks, and stuck into a cabinet divided into compartments.

I found that the Deputy Commissioner of Rawul Pindee had done the same good work as regards clearing out the Ephemeral letters in his District. We have thus a precedent both in a Divisional and District Office.

When the bulk has been reduced, and only the really important letters reserved, all bundles should be kept in one cabinet, on the understood principle that the arrangement is chronological, all previous correspondence on a large subject being placed with the last letter on that subject. If any Officer chooses to have a series of "subjects" separate from the chronological arrangement, there is no objection. It is very desirable in a Divisional Office, but scarcely necessary in a District Office.

Under the new system of correspondence there will be no such accumulation of Ephemeral letters.

Ephemeral letters may be classed as follows :—

I.—Reminders,
II.—Taking and making over charge,
III.—Periodical Returns,
IV.—Applications for supplies,
V.—Controversial correspondence with parties on the march,
VI.—Sending and returning Appeal cases and other files,
VII.—Circulars, which have since been printed, or which were in their nature temporary, &c., &c., &c.

As the annual reports in the Civil, Criminal, and Revenue Departments, with full statistical tables, are printed every year, all Returns of any kind previous to the year may unhesitatingly be destroyed.

A qualified Assistant, or intelligent Clerk, may be employed in the selection of letters to be destroyed, which should be submitted to the Deputy Commissioner for examination before they are soaked in water, which is the safest way to prevent possible abuse of signatures on waste paper.

I would suggest that this Minute be circulated in the Judicial Department, but applying to both Departments, and that the Accountant be directed to circulate a List of Treasury Returns, which may safely after lapse of certain periods be destroyed. This can be ascertained by a careful examination of the Lahore Treasury Records, in which operation I shall be happy to assist the Accountant.

R. N. CUST,
Special Commissioner.

Lahore, 2nd April 1861.

RESOLUTION.—The Hon'ble the Lieutenant-Governor approves generally of the suggestions made by Mr. Cust, and directs that they may be carried out as quickly as possible in all the English Offices of Commissioners and Deputy Commissioners.

Great caution must, however, be exercised both in regard to the selection of the papers to be destroyed, and in effecting any re-distribution or change of system of arrangement of the Records. A transition from a chronological arrangement to one by subjects will be liable to invalidate all existing Registers, and give rise to great confusion unless there be some guarantee that an effective means of reference is retained under such change of plan. Where this is provided for, an arrangement by subjects, as regards all large questions, is greatly to be preferred to a mere chronological one.

His Honor, however, deems it inexpedient to carry out to its full extent Mr. Cust's proposal to destroy "all Returns of any kind previous to the year" in which any general Report embodying them has been printed. For some years the Judicial and Revenue Reports were not printed. Again, Annual Reports by Commissioners and Deputy Commissioners frequently contain valuable information, much of which is not published in the compressed Report of the head of the Department. Besides the orignal draft in the Office of the reporting Officer, it would be well to preserve one copy in the Office of the receiving Officer; all in excess of this may be destroyed,—as well as many Tabular Statements, which should however be selected with caution. With reference to Mr. Cust's concluding paragraph, that Officer is requested, in consultation with the Accountant, Punjab, to prepare a list of Treasury Returns which may be safely destroyed after a lapse of time ; and to submit it to this Office for final orders.

ORDERED,—That this Resolution be published in the *Punjab Gazette* for general information and guidance.

By order of the Hon'ble the Lieutenant-Governor, Punjab,

Secy. to Govt., Punjab.

Proceedings of the Hon'ble the Lieutenant-Governor Punjab, in the General Department.

READ the following :—

Memorandum on the practice of writing Vernacular Roobokaries.

The new Vernacular Establishments are cost on a scale of moderate dimensions, with reference to the Judicial and Revenue work, which comes before the Courts. It is necessary that some check be imposed on the Miscellaneous Works which oppress all District Cutcherries and clog the Machine.

Post Masters, Commissariat Officers, Executive Engineers, Officers of the Department Public Works, when they have occasion to write to District Officers, should do so by letter, public or demi-official, and not by a Vernacular Proceeding, —a copy of which is kept in either Office, forming a record, entailing entries and formalities, and filling the Record-room with rubbish. It seems quite ridiculous that two Englishmen should make a Vernacular Mohurir the medium of communication on the merest trifle. It is necessary that a Government Circular be sent to all these Departments, requesting them to use the English language only.

It is admitted by all, specially by Mr. Roberts, Officiating Judicial Commissioner, that the work of English Offices has been reduced by the operation of the new system. *I have not reduced the English Clerks*, because I wish to see more of the English element in our system, and above all I wish to see Englishmen address each other in English, briefly and clearly, and not by inflated Roobokaries. Misunderstandings arise from the improper or accidental use of offensive words in the Vernacular.

I propose therefore that, from the 1st of May, the despatch of any Vernacular Roobokarie to any body *but a Native Extra Assistant* be forbidden, and that all District Officers who receive Vernacular Roobokaries from the Post Office, Customs, Public Works Department, Canals, Commissariat, or any public Official, Military or Civil, *not a Native* be authorized to return it in original, with a Civil Memorandum, requesting to be addressed in the English language. This Order should apply specially to the *Police*, and to the Customs and Salt Departments.

ROBERT CUST,
Special Commissioner.

LAHORE,
The 18th April 1861.

RESOLUTION.—The Lieutenant-Governor approves of the general Rule that all correspondence between European Officers, of whatever Department, shall be in the English language. Care, however, must be taken that Natives are not, by this means, precluded from obtaining any information which would be properly accessible to them under the existing system of Vernacular correspondence. It must not be forgotten that the mass of the population are entirely ignorant of English, and that they are entitled to have all documents bearing upon their interest either drawn up in, or translated into, the Vernacular.

ORDERED.—That this Resolution be published in the *Punjab Gazette* for general information.

Fort William, the 13th May 1861.

Notifications.—The following letter, addressed to the Right Hon'ble the Secretary of State for India, on the subject of the Exhibition of the Works of Industry and Art of all Nations, which it is proposed to hold in London in the year 1862, is published for general information :—

His Excellency the Governor General in Council has communicated with the several Local Governments regarding the assistance which it is desirable that the Government should give to persons in India who may desire to become Exhibitors; and Notifications on the subject will shortly be issued by those Governments applicable to the Territories respectively subordinate to them.

PRIVY COUNCIL OFFICE,
Downing Street,
The 16th February 1861.

THE RIGHT HON'BLE SIR C. WOOD,
BART, M. P.,
Secretary of State for India.

SIR,—I AM directed by Earl Granville to intimate to you that the promoters of the Exhibition of the Works of Industry and Art of all Nations, which it is proposed to hold in the year 1862, are about to apply to Her Majesty for a Charter of Incorporation, by which certain Trustees, to whom the management of the Exhibition has been confided, may be vested with the powers requisite for effectually carrying out the projected undertaking.

The names of the Trustees are as follows :—

The Earl Granville, K. G.,

Lord President of the Council.

The Marquis of Chandos.

Thomas Baring, Esq., M. P.

C. Wentworth Dilke, Esq.

Thomas Fairbairn, Esq.

The Trustees have every reason to believe that the application for a Charter will be favorably entertained; but as some short interval must still elapse before the usual preliminary formalities can be complied with, they are anxious that no time should be lost in giving notice of the intended Exhibition to the distant parts of the Empire.

I am therefore directed to request that you will do the Trustees the favor to take the necessary steps for making known to the Governor General of India, and to the Governors of the several Provinces, that the Exhibition will open on Thursday the 1st of May 1862; and that the Trustees are very desirous to learn from which of the Provinces articles will be sent for Exhibition, and also to be put in communication with such persons or bodies in each Province as are likely to command the confidence of those who may become Exhibitors.

The Exhibition will be held in London on a convenient site, which has been placed at the disposal of the Trustees by the Royal Commissioners for the Exhibition of 1851, in the immediate vicinity of the ground occupied in 1851, by the permission of Her Majesty, on the occasion of the first International Exhibition.

The general conditions of the Exhibition, and the terms on which Exhibitors will be invited to take part in it, will shortly be published, and the Trustees will at once communicate them to you. In the meantime I am to state that the Exhibition, in its leading features, will closely resemble that of 1851 (Pictures, however, being added on this occasion), and that such preparations as can be made, in anticipation of more detailed information, may proceed upon this understanding. As the demands for space, however, will in all probability be very much in excess of what it will be possible to provide, so that quality and not quantity will have mainly to be looked to in deciding upon the articles to be admitted, the Trustees hope that the greatest care will be exercised in selecting good specimens of the Industry and Art of the Province of India, and more especially its natural productions. As you will readily understand that, so soon as proper channels of correspondence have been opened, the Trustees will have many matters to which to draw the attention of all who are likely to take an interest in the undertaking, they venture very earnestly to request that the earliest opportunity may be taken for making known the substance of the present communication in the requisite quarters.

I have, &c.,

Her Majesty's Commissioners will be prepared to receive all articles which may be sent to them on or after Wednesday, the 12th of February, and will continue to receive goods until Monday, the 1st of March 1862, inclusive.

Articles of great size and weight, the placing of which will require considerable labor, must be sent before Saturday, the 1st of March 1862; and manufacturers wishing to exhibit machinery or other objects that will require foundations or special constructions, must make a declaration to that effect, on their demands for space.

Any Exhibitor whose goods can properly be placed together will be at liberty to arrange such goods in his own way, provided his arrangement is compatible with the general scheme of the Exhibition and the convenience of other Exhibitors.

Where it is desired to exhibit processes of manufacture, a sufficient number of articles, however dissimilar, will be admitted for the purpose of illustrating the process; but they must not exceed the number actually required.

Exhibitors will be required to deliver their goods at the building, and to unpack and arrange them at their own charge and risk; and all articles must be delivered with the freight, carriage, porterage, and all charges and dues upon them paid.

Packing-cases must be removed at the cost of the Exhibitor or his Agent, as soon as the goods are examined and deposited in charge of the Commissioners.

Exhibitors will be permitted, subject only to the necessary general Regulations, to erect, according to their own taste, all the counters, stands, glass frames, brackets, awnings, hangings, or similar contrivances, which they may consider best calculated for the display of their goods.

Exhibitors must be at the charge of insuring their own goods, should they desire this security. Every precaution will be taken to prevent fire, theft, or other losses, and Her Majesty's Commissioners will give all the aid in their power for the legal prosecution of any persons guilty of robbery or wilful injury in the Exhibition; but they will not be responsible for losses or damage of any kind which may be occasioned by fire or theft, or in any other manner.

Exhibitors may employ Assistants to keep in order the articles they exhibit, or to explain them to visitors, after obtaining written permission from Her Majesty's Commissioners, but such Assistants will be forbidden to invite visitors to purchase the goods of their employers.

Her Majesty's Commissioners will provide shafting, steam (not exceeding 30 lbs per inch), and water at high pressure, for machines in motion.

Intending Exhibitors in the United Kingdom are requested to apply, without delay, to the Secretary of Her Majesty's Commissioners at the Offices, 454, West Strand, London, W. C., for a *Form of Demand for Space*, stating in which of the four Sections they wish to exhibit.

Foreign and Colonial Exhibitors should apply to the Commission, or other Central Authority appointed by the Foreign or Colonial Government, as soon as notice has been given of its appointment.

Her Majesty's Commissioners having consulted a Committee as to the organization of the Fine Art Department of the Exhibition, will publish the Rules relating thereto at a future date.

By Order, &c.,

Secretary.

FORT WILLIAM, GENERAL TREASURY;
The 30th April 1861.

(Sd.) J. I. HARVEY,
Sub-Treasurer.

No. 440 *of* 1861.—The Operations in Sikkim having been brought to a close, and the Expeditionary Force having returned to British Territory and been broken up, the Right Hon'ble the Governor General in Council desires to record his approbation of the good Services of the Force and of their Soldier-like conduct in the Field.

The ability, energy, and good judgment displayed by Lieutenant-Colonel Gawler in bringing these Military Operations to a successful issue, carried on as they were in a difficult and mountainous country, are highly appreciated by the Governor General in Council.

The services rendered to Lieutenant-Colonel Gawler's Force by Dr. Campbell, Superintendent of Darjeeling, and the services of Major Maitland, Commanding the Convalescent Depôt; of Major Platt, Her Majesty's 6th Regiment; of Captain Impey and Lieutenant Carter, of the Bengal Engineers; Captain Murray, Commanding Sebundy Sappers; Captain Baker, Commanding Bengal Military Police; and of Lieutenants Roberts, Royal Artillery, Delafosse, late 53rd Native Infantry, Fryer, Brigade Major, Beavan, Sebundy Sappers, and Serjeant Dunne, of the Sebundy Sappers, and Serjeants Dickson and O'Hara, of the Sappers and Miners, have been brought to the notice of Government by Lieutenant-Colonel Gawler.

The energy and valuable services rendered by Lieutenant Pierson, of the Bengal Engineers, and by Sub-Lieutenant Hydayut Ali, of the Bengal Military Police, have been specially brought to the notice of the Government.

To these Officers and men, and to all the Officers, European and Native, and to the Non-Commissioned Officers and Soldiers of the Force, His Excellency in Council offers his best thanks for the manner in which their duties on this occasion have been discharged.

R. J. H. BIRCH, *Major-Genl.*,

PUBLIC WORKS DEPARTMENT.

GENERAL.—ESTABLISHMENTS.

No. 117.

Fort William, 13th May 1861.

TRANSFER OF CONTROL OF THE DEPARTMENTAL STAFF TO LOCAL GOVERNMENTS.

Notification.—His Excellency the Viceroy and Governor General in Council has determined now to carry out the measure proposed by the Government of India, and approved by Her Majesty's Government, of transferring the patronage and control of the Staff of the Public Works Department, under the three Lieutenant-Governorships of Bengal, the North-Western Provinces, and the Punjab, with certain exceptions, from the hands of the Governor General in Council to those of the Hon'ble the Lieutenant-Governors of those Territories respectively.

2. It is therefore hereby notified that, from the 1st June next, all promotions and appointments in the Engineer and other Establishments of the Public Works Department, with the exceptions specified below, will be made by the Lieutenant-Governors without the intervention of the Government of India, further than it may deem advisable in the exercise of its general power of control and supervision.

3. The exceptions are as follows:—

First.—The first appointment of Officers to the Engineer Branch of the Department will continue to be made by the Government of India, but on the recommendation of the Local Governments. The distribution of young Officers of Engineers, of Civil Engineer Probationers sent out from England under Covenant, and of passed Students of the Engineering Colleges, must also still rest absolutely with the Government of India, though due weight will always be given to the applications of the Local Governments.

The same rule will apply to the distribution of Military candidates for the Subordinate branch, who have passed out of the Thomason College.

Secondly.—It has been usual to re-appoint to the Department, in their former grades, when deserving of this privilege, when there were vacancies, and when their services could be spared from Military duty, Military Officers returning to India who have served previously in the Department, but who have forfeited their appointments under the Furlough Rules. Such re-appointments will henceforward be usually made on application from the Local Governments; but the Governor General in Council reserves the power of nominating any such Officer to the Department under any Local Government in his former grade, or in a lower grade in which there is a vacancy, should three months pass after the return of such Officer to India without an application for his services.

Officers of Engineers, in such circumstances, will be considered as having a prior claim to re-appointment.

Thirdly.—The appointment of Chief Engineers, of Superintending Engineers, and of Officers in the Railway and Account Branches of the Department, will continue vested in the Government of India; but, on the occurrence of a vacancy in any of these Offices, the Local Governments will recommend an Officer to the Governor General in Council for nomination.

4. It is to be understood that in all cases the Lieutenant-Governors shall be at liberty to look beyond the limits of their own Provinces for

Officers to fill vacancies; but the services of any Officers so selected must be obtained through the Government of India in the ordinary way.

5. The Hon'ble Lieutenant-Governors are also vested with power to deal with cases of misconduct in Officers or Subordinates of the Public Works Department. But in the case of members of the Engineer Establishment, though the Local Government may order their suspension, final removal from the Department will continue to rest with the Government of India.

6. The powers now conferred on the Lieutenant-Governors will of course be exercised in subjection to existing general rules, and within the existing scales of Establishment.

7. General promotions in the Gradational List will continue to be made only half-yearly, and on review of Recommendation Rolls received by the Chief Engineer and Secretary from the Superintending Engineers. Promotions of qualified Officers and Subordinates from the probationary rank, and promotions or nominations to fill actual vacancies in Executive Divisions, may be made at any time. But the mere transfer of an Officer from one charge to another, in order to fill such a vacancy, will not be accompanied by advancement in grade, such advancement being given only in the half-yearly promotion.

8. The total authorized expense for Engineer Upper Subordinate, and Lower Subordinate Establishments respectively, together with the authorized numerical limit in each grade, of the two former, will bound the action of the Local Governments. No reference to the Government of India in the Public Works or Financial Department will be required within those limits. When multiplication of works, or other causes, may render it impracticable to provide within those limits for actual requirements, a proposal, accompanied by a Tabular Statement, embracing the Establishment in question, *as a whole*, should be sent up for submission to the Financial Department.

9. Transfers of Officers and Upper Subordinates from one Local Government to another will be made by the Government of India, when the exigencies of the Public Service render it necessary; and will also be allowed at the request of individuals, when the convenience of the Public Service admits.

10. No change is made by this Notification in regard to Officers and Upper Subordinates serving in the Public Works Department of the minor Administrations, whose appointments and promotions will be made, as heretofore, by the Governor General in Council.

Chief Clerk's Office, the 14*th May* 1861.

Caution.

THE Public are hereby cautioned from advancing either on bottomry or otherwise any sums on security of the Turkish Bark *Margaret Jane*, now lying in the Port of Calcutta, and of which Russell is Master.

The proper name of the said Bark is the *Messenger Bird*, of Boston, in the State of Massachusetts, U. S., and she was mortgaged on the 10th of September 1858 by John H. Delee, her then Owner and Master, to Henry A. Peirce, of Roxbury, in the said State, to secure the sum of eight thousand Dollars and Interest.

The *Messenger Bird* sailed in 1858 from Richmond, Virginia, U. S., on a voyage to Rio Janeiro, and having discharged her Cargo re-loaded with a full freight for the U. S. The said J. H. Deele instead of proceeding on the last mentioned voyage went to Valparaiso, where he fraudulently disposed of part of his Cargo, and ultimately, it is believed, took the Ship to Bussora, in the Persian Gulph, where he sold her, having previously changed her name from the *Messenger Bird* to the *Margaret Jane*. The mortgage, with a large arrear of interest, is still due and owing, and proceedings will be immediately taken in the Admiralty Court to recover possession of the said Vessel. All parties are therefore warned from lending money or loading Cargo on the said Vessel.

Caution.

The Public are hereby cautioned from advancing either on bottomry or otherwise any sums on security of the Turkish Bark *Margaret Jane*, now lying in the Port of Calcutta, and of which Russell is Master.

The proper name of the said Bark is the *Messenger Bird*, of Boston, in the State of Massachusetts, U. S., and she was mortgaged on the 10th of September 1858 by John H. Delee, her then Owner and Master, to Henry A. Peirce, of Roxbury, in the said State, to secure the sum of eight thousand Dollars and Interest.

The *Messenger Bird* sailed in 1858 from Richmond, Virginia, U. S., on a voyage to Rio Janeiro, and having discharged her Cargo re-loaded with a full freight for the U. S. The said J. H. Deele instead of proceeding on the last mentioned voyage went to Valparaiso, where he fraudulently disposed of part of his Cargo, and ultimately, it is believed, took the Ship to Bussora, in the Persian Gulph, where he sold her, having previously changed her name from the *Messenger Bird* to the *Margaret Jane*. The mortgage, with a large arrear of interest, is still due and owing, and proceedings will be immediately taken in the Admiralty Court to recover possession of the said Vessel. All parties are therefore warned from lending money or loading Cargo on the said Vessel.

FINANCIAL DEPARTMENT.

No. 102.

Extract from the Proceedings of the Government of India, in the Financial Department, dated 21st May 1861.

RESOLUTION.—Since the issue of the orders of this Department, No. 95, of the 8th instant, certain applications for expenditure on account of Establishments, &c., have been sanctioned on condition *that the expenditure is included in the sums sanctioned in the Budget under the heads of service to which the applications in question appertain.*

2. This course was pursued, because, owing to the imperfect manner in which the details of the Budget Estimates have been prepared, it could not be ascertained whether the said expenditure had been provided for or not; and because it was considered desirable, in order to prevent delay, to enable the Civil Pay-Masters, in cases in which the expenditure might prove to be included in the Budgets, to pass Bills for it in communication with the Local Governments, without waiting for further orders from this Department, to be issued after the necessary information had been obtained from the Local Governments in usual course.

3. It now appears that the object of the abovementioned condition has not been fully understood; and it is considered necessary, therefore, to intimate for the information and guidance of the Authorities concerned, that in cases in which the said condition has been imposed, it will be the duty of the Civil Pay-Masters, before passing the expenditure, to enquire from the Local Governments or Departments of the Government of India, whether it is included in the Budget or not.

4. If, after such enquiry, it shall appear that it is included in any of the Budget Grants sanctioned by the Government of India, the Civil Pay-Master will pass it for payment, and report having done so to this Department. If, on the other hand, it shall appear that it is not so included, the Civil Pay-Masters will decline to pass it for payment, pending further order from this Department.

5. It will further be understood that the fact of provision being made in the Budget for any particular item of expenditure does not, *per se*, justify the Civil Pay-Masters in passing such expenditure for payment. They will, as directed in paragraph 20 of the Budget and Audit Committee's Report No. 10, of 18th January last, continue to pass charges according to the then "existing practice of the Civil Auditors;" and every charge must be covered by a specific sanction from competent authority, except in cases otherwise especially provided for.

ORDERED, that a copy of the foregoing Resolution be sent to the Departments*, Governments† and Officers‡ noted in the margin, for information and guidance, and for the issue of further necessary orders.

Ordered also, that the Resolution be published in the *Government Gazette* for general information.

MY LORD,—It frequently occurs that no Bill of Lading or other Advice is sent from India with Stores despatched thence to England, and in consequence great difficulty is experienced in settling

the claim for the freight of such Stores; and also much delay and unnecessary expense is incurred in landing them and forwarding them to their destinations.

2. It is therefore requested that in future no Stores or other Articles be shipped for England without a Bill of Lading, or some similar Advice, being forwarded of the transaction.

Caution.

THE Public are hereby cautioned from advancing either on bottomry or otherwise any sums on security of the Turkish Bark *Margaret Jane*, now lying in the Port of Calcutta, and of which Russell is Master.

The proper name of the said Bark is the *Messenger Bird*, of Boston, in the State of Massa-

chusetts, U. S., and she was mortgaged on the 10th of September 1858 by John H. Delee, her then Owner and Master, to Henry A. Peirce, of Roxbury, in the said State, to secure the sum of eight thousand Dollars and Interest.

The *Messenger Bird* sailed in 1858 from Richmond, Virginia, U. S., on a voyage to Rio Janeiro, and having discharged her Cargo re-loaded with a full freight for the U. S. The said J. H. Deele instead of proceeding on the last mentioned voyage went to Valparaiso, where he fraudulently disposed of part of his Cargo, and ultimately, it is believed, took the Ship to Bussora, in the Persian Gulph, where he sold her, having previously changed her name from the *Messenger Bird* to the *Margaret Jane*. The mortgage, with a large arrear of interest, is still due and owing, and proceedings will be immediately taken in the Admiralty Court to recover possession of the said Vessel. All parties are therefore warned from lending money or loading Cargo on the said Vessel.

A Mercantile Firm in India

No. 110.

Mercantile Firm

In India carrying on Agency business in connection with and as Partners of a Firm in England, what to return to Income Tax and how to be Assessed.

Act XXXII of 1860.
Schedule II.
Section XCVIII, Rule I.

represented that their business was purely an Agency connection; that they neither bought nor sold on their own account; that the greater part of the Capital employed was provided by their Partners in England and was employed in making advances in England over goods to be consigned to their care for realization; that the Commissions from which all their profits were derived belonged to both the Firm in India and the Firm in England, they receiving one portion for taking charge of, and remitting for the consignments; but that the Capital belonging to the Home Partners must be regarded as employed in England, and that the Partners in England were entitled to deduct the usual Commission chargeable upon consignments sent out to India; that in Exchange business their constituents derived the entire benefit or otherwise, as the rates of the day might rule, the Home Partners and themselves neither deriving any benefit when the rates were in favor of, nor caring when the rates were against India; that in Exchange operations carried on with other countries, India formed only one of a circle necessary to carry through any one transaction and that agencies had to be employed wherever the operations extended. The Firm in India, therefore, contended that they should be allowed to confine their Returns either to the proportion of profits belonging to the Indian Partners, or to the Commissions upon proceeds of business less the usual amount allowed to English Agents.

Upon this representation it was held—

1*st*.—That the whole of the Commission realized in the course of the year in India by the Indian Partners on account of the Firm (less the losses, if any, sustained by the Firm upon the consignments by reason of the insufficiency of the goods to repay the advance or of the insolvency of the person on whose account the goods were shipped) was liable to be assessed with duty under Schedule 2, Act XXXII of 1860; but that the profits of the Firm accruing from interest upon the sums advanced in England were not so liable, though the exemption would not extend to the share of the Indian Partners in the last mentioned profits which must be regarded as chargeable under the 1st branch of Schedule 2.

2*ndly*. That although Act XXXII of 1860 did not expressly entitle the Firm to any deduction in respect to the English portion of the Commission, which was attributable to the taking charge of and shipping the goods in England, the return of the Indian Partners of the Commission earned by the Firm and received by them in India, after deducting such proportion of the Commission as fairly represented the remuneration to the English Firm for the purchase and shipment of the Consignments in England, might be accepted, in other words that the Indian Firm might be allowed, as proposed by them, to confine their Returns to the Commission on the proceeds of business less the usual amount to the English Agents, but that any deduction made should be limited to the shares of the English Partners, the Partners resident in India being chargeable with their share of the whole Commission realized in India without deducting any portion on account of English charges.

3*rdly*.—That although the Firm in India might make no profit from their Exchange business, the whole profit and loss being, as stated by them, that of their constituents, this would not of itself exempt them from making a Return or from being charged under Sections LXXVIII and LXXIX as Agents or Factors, having the receipt in India of profits belonging to persons not resident in India, and

Exchange, Profits on.

Sections LXXVIII and LXXIX.

4*thly*.—That in the Exchange operations carried on with other countries when India formed only one part of a circle necessary to carry through any one transaction, the whole profits were not subject to the Income Tax merely by reason of India forming one place in that circle, and that, indeed, where the operations commenced in England and were completed by the final remittance to England, no portion of such profits would be liable to Indian Income Tax.

Exchange operations With different Countries, India being one.

The present case being one of Agency only, was considered quite distinct from that of a business in which purchases were made in England by the English Partner of a Firm and sent out for sale to a Partner in India on account of the Firm itself, the chief seat of the Firm being in England, and all the Capital of the Firm being there. (For the rule to be observed in such cases see Construction No. 100).—*(Financial Department Order, No.* 4797, *dated* 18*th April* 1861.*)*

The Government of India, at the recommendation of the Director-General of the Post Office in India, having determined that the Post Office Department in Pegu, Martaban, Amherst, and Tenasserim shall no longer be under control of the Post-Master General of Bengal, the Public are hereby informed that the undersigned, under control of the Director-General, is authorized to exercise the powers of Post-Master General in the above-named Provinces. It is therefore requested that, from this date, all complaints and references of the nature hitherto addressed to the Post Master-General of Bengal, may be addressed to the Chief Inspector of Post Offices in Pegu, &c.

Office of the Chief Inspector of Post Offices in Pegu, Martaban, Amherst, and Tenasserim, Rangoon, 30th March 1861.

H. N. P. Grant,
Chief Inspector of Post Offices in Pegu, &c.

Notices issued by the Post-Master of Calcutta.

All communications respecting change of address should be made to the Post-Master of Calcutta and not to the Post-Master General. Letters re-directed, whether delivered in Calcutta, or forwarded to some other Station, are taxed with "Forward Postage."

No. 2661.

The 19th September 1860.—As very many Letters on ordinary Post Office matters are addressed by the Public to the Post-Master General instead of the Post-Master, Calcutta, and as inconvenience is the result, it is solicited the practice may be discontinued, and the Post-Master be addressed on all matters of his Office, except when any party may wish to prefer complaint to higher authority.

All complaints requiring redress, such as overcharge of Postage, mis-sending or delay in the delivery of Letters, &c., must be made to the Post-Master-General, accompanied by the Envelopes of the letters referred to; the number of the Delivery Peon should always be stated.

No. 1027.

The 9th July 1859.—Parcels or Book Packets cannot be sent by Private Ships through the Post Office.

Notice.

The Inland Postage on letters, &c., posted for despatch by the After-Packet must be prepaid. Such letters, &c., as do not bear the Inland Postage, or are insufficiently stamped with the After-Packet Postage, will be detained and forwarded by the next Steamer.

Special Notice is directed to the subjoined Clauses of Rules, the want of attention to which has occasioned the Post Office much inconvenience.

2nd.—A separate instruction will be required for every change of address, and no instruction will be attended to for more than three months after its receipt.

3rd.—Under Section XXIII. of Act XVII. of 1854, Forward Postage will be charged in addition to all other Postage due or paid thereon upon every letter without exception, which may be re-directed in any Post Office. For example, if a letter posted in Calcutta and addressed to Hooghly is, under instructions which may have been received from the addressee, re-directed in the Calcutta Post Office and sent to Barrackpore, Forward Postage will be charged in addition to the Postage which would have been due, had the letter been despatched to Hooghly according to its original address.

4th.—The practice of giving instructions to the Officers of the Post Office to intercept and re-direct letters, not only imposes much labor upon them, but in large Offices seriously retards the delivery and despatch of the Mails. A register of instructions regarding changes of address will be kept in every Post Office, but it must be understood, that it is impossible to guarantee that they shall be attended to except in the case of letters received for delivery.

Letters and Newspapers despatched to and from the United Kingdom by private Vessels are liable to the following rates of Postage, which must be pre-paid by Stamps:—

	Rs.	As.	Pie.
Letters not exceeding ½ oz. in weight	0	4	0
Ditto exceeding ½ oz. but not exceeding 1 oz.	0	8	0

And so on adding 8 annas for each oz. or fraction thereof which includes Inland Postage.

Newspapers not exceeding 4 oz. in weight, 1*d.* or 8 pie must be pre-paid by Stamp, and no Inland Postage is required upon such papers.

Parcels conveyed by the above opportunity for the United Kingdom are liable to Letter rates of Postage.

Notice.

Letters arriving at the Presidency Towns by Mail Steamers will be immediately sorted for delivery according to the address alone, without any reference to instructions which may have been received regarding change of address; such changes will be left to be discovered by the Delivery Officers, and be corrected in the forward and unclaimed Departments of the Office.

Forward Postage will be charged in addition to all other Postage due or paid thereon upon every letter without exception, which may be re-directed in the Post Office.

Letters, &c., received by the Steamer will be delivered at the Window of the Post Office only to parties who have registered their names. Applications to the Post Office on the day of the Steamer's arrival to intercept and re-direct letters, &c., cannot be attended to, as they are found not only to impose much labour but seriously retard the delivery and despatch of the Mails.

Under the orders of Government, no fourth delivery of letters by the Post Office is allowed. Mails which are received by Steamers from Suez at so late an hour in the day as not to admit of the letters being taken out for delivery by 6 P. M. are detained till the following morning, but parties who have registered their names under the usual fee are entitled to receive their letters and Marseilles Newspapers so soon as the Mails are sorted, and which is generally about 2½ hours after receipt of the Mail, at the Post Office.

Forward Newspapers.—Extra or Forward Postage is chargeable on every Newspaper re-directed at the Post Office of original address and forwarded to another Post Office.

No. 9391.

Banghy Parcels are in future not to be specially registered, as the full address and weight of all such are registered in the Post Office, and receipts are granted to Senders if required. The Post Office Officials have therefore been directed, not to accept fees for the special registration of Banghy Parcels. Articles sent on Book Post rates are not registered unless a registration fee is paid. When therefore Books or Prints or other Articles of value are sent by Book Post, the Senders can register them by payment of the usual fee of 4 annas.

14. Articles of great size or weight, the placing of which will require considerable labour, must be sent before Saturday, the 1st of March 1862; and manufacturers wishing to exhibit machinery, or other objects, that will require foundations or special constructions, must make a declaration to that effect on their demands for space.

16. Where it is desired to exhibit processes of manufacture, a sufficient number of articles, however dissimilar, will be admitted for the purpose of illustrating the process; but they must not exceed the number actually required. (17—25.)*

36. Exhibitors, or their representatives, should provide whatever light temporary covering may be requisite (such as sheets of oiled calico), to protect their goods from dust; and, in the case of machinery, and polished goods, should make the requisite arrangements for keeping the articles free from rust during the time of the Exhibition. (37—42)*

43. Exhibitors must be at the charge of insuring their own goods, should they desire this security. Every precaution will be taken to prevent fire, theft, or other losses, and Her Majesty's Commissioners will give all the aid in their power for the legal prosecution of any persons guilty of robbery or wilful injury in the Exhibition, but they will not be responsible for losses or damage of any kind which may be occasioned by fire or theft, or in any other manner.

44. Exhibitors may employ Assistants (male or female) to keep in order the articles they exhibit, or to explain them to visitors, after obtaining written permission from Her Majesty's Commissioners; but such Assistants will be forbidden to invite visitors to purchase the goods of their employers. 1. Name and Christian name of applicant (or name of firm) ...
2. Nature of business carried on ...
3. Address { No. of street or square, &c. ... / and ... / Name of town ...
4. Nature of articles to be exhibited ...

Floor Space.

6. Probable space that will be required for articles or case in which they will be shown ... { Length ... feet. / Breadth ... feet. / Height ... feet.

Hanging or Wall Space.

{ Height feet. / Width feet.

160. Foreign and Colonial Exhibitors should apply to the Commission, or other Central Authority appointed by the Foreign or Colonial Government, as soon as notice has been given of its appointment.

101. Her Majesty's Commissioners will consider that to be the Central Authority, in each case which is stated to be so by the Government of its Country, and will only communicate with Exhibitors through such Central Body.

102. No articles of foreign manufacture, to whomsoever they may belong, or wheresoever they may be, can be admitted for exhibition, *except with the sanction of the Central Authority of the Country of which they are the produce.* Her Majesty's Commissioners will communicate to such Central Authority the amount of space which can be allowed to the productions of the Country for which it acts, and will also state the further conditions and limitations which may from time to time be decided on with respect to the admission of articles. All articles forwarded by such Central Authority will be admitted, provided they do not require a greater aggregate amount of space than that assigned to the Country from which they come; and, provided also that they do not violate the general conditions and limitations. It will rest with the Central Authority in each Country to decide upon the merits of the several articles presented for exhibition, and to take care that those which are sent are such as fairly represent the industry of their fellow Countrymen.

103. Separate space will be allotted to each Foreign Country, within which the Commissioners for that Country will be at liberty to arrange the productions entrusted to them in such manner as they think best, subject to the condition that all Machinery shall be exhibited in the portion of the building specially devoted to that purpose, and all Pictures in the Fine Art Galleries, and to the observance of any general rules that may be laid down by Her Majesty's Commissioners for public convenience.

104. By arrangements made with Her Majesty's Government, all Foreign or Colonial Goods intended for exhibition, sent and addressed in accordance with Regulations hereafter to be issued, will be admitted into the Country, and allowed to be transmitted to the Exhibition Building without being previously opened, and without payment of any duty. But all Goods which shall not be re-exported at the termination of the Exhibition will be charged with the proper duties, under the ordinary Customs' Regulations. (105—108.)*

109. It is not the intention of Her Majesty's Commissioners to take any steps in reference to the protection of Inventions or Designs, by Patent or Registration, the law on these points having been materially simplified since 1851.

DECISIONS SPECIALLY APPLICABLE TO

SECTION IV.—MODERN FINE ARTS.

Class 37. Architecture.
„ 38. Paintings in Oil and Water Colours and Drawings.
„ 39. Sculpture, Models, Die-sinking and Intaglios.
„ 40. Engravings and Etchings.

110. The object of the Exhibition being to illustrate the progress and present condition of *Modern Art*, each Country will decide the period of Art which in its own case will best attain that end.

111. The Exhibition of British Art in this Section will include the works of Artists alive on or subsequent to the 1st of May 1762.

* Several numbers are left blank, with the view of incorporating future decisions.

112. It is not proposed to award PRIZES in this Section.

113. PRICES will not be allowed to be affixed to any Work of Art exhibited in this Section.

114. One half of the space to be allotted to Section IV. will be given to Foreign Countries, and one half will be reserved for the works of British and Colonial Artists.

115. The sub-division of the space allotted to Foreign Countries will be made after consideration of the demands received from the Commission, or other Central Authority, of each Foreign Country. It is therefore important that these demands should be transmitted to Her Majesty's Commissioners at the earliest possible date.

116. The arrangement of the Works of Art within the space allotted to each Foreign Country will be entirely under the control of the accredited representatives of that Country, subject only to the necessary general regulations.

117. For the purposes of the Catalogue, it will be necessary that the Central Authority of each Foreign Country should furnish Her Majesty's Commissioners, on or before the 1st of January 1862, with a description of the several Works of Art which will be sent for exhibition, specifying in each case, the name of the artist, the title of the work, and (when possible) the date of its production.

118. The space at the disposal of Her Majesty's Commissioners for the display of British Art being limited, and it being at the same time desirable to bring together as careful and perfect an illustration as possible, a selection of the works to be exhibited will be indispensable.

119. The selection of Exhibitors, the space and number of works to be allowed to each, and the arrangement of them, will be entrusted to Committees to be nominated by Her Majesty's Commissioners.

120. In the case of living Artists, Her Majesty's Commissioners would desire to consult the wishes of the Artists themselves as to the particular works by which they would prefer to be represented. The selection of works so made by the Artists will not necessarily be binding upon Her Majesty's Commissioners, but in no case will any work by a living Artist be exhibited against his wish, if expressed in writing, and delivered to the Commissioners on or before the 31st of March 1862.

121. Her Majesty's Commissioners will avail themselves of the following eight Art Institutions of this Country in communicating with Artists who are Members of those Insti tutions, *viz* :—

The Royal Academy,
The Royal Scottish Academy,
The Royal Hibernian Academy,
The Society of Painters in Water Colours,
The Society of British Artists,
The New Society of Painters in Water Colours,
The Institute of British Artists,
The Institute of British Architects.

2182. E. & S. | 6100.—4-61.

122. Intending Exhibitors in the British Division of Section IV., who are not Members of any of the preceding Institutions, may at once receive Forms of demand for space, by applying to the Secretary to Her Majesty's Commissioners. These Forms must be filled up and returned before the 1st of June 1861.

By Order,

E. H. Lushington,
Secy. to the Govt. of Bengal.

From W. Grey, Esq., Secretary to the Government of India, Home Department, to W. S. Seton-Karr, Esq., Secretary to the Government of Bengal,—(No. 954, dated the 13th May 1861.)

Sir,—I am directed to forward, for submission to the Lieutenant-Governor, copy of a Despatch, and its enclosures, received from the Secretary of State on the subject of the Exhibition of the Works of Industry and Art of all Nations which it is proposed to hold in London in the year 1862.

2. With reference to the instructions of the Secretary of State, the Governor General in Council does not propose that, on the present occasion, a large expenditure in purchasing articles for the Exhibition should be incurred by Government, as was the case in regard to the Exhibition of 1851; but His Excellency in Council would wish that any encouragement and assistance which can be afforded at a moderate cost should be given to private persons who may be desirous to send articles to the Exhibition, and, with this object, it seems desirable to His Excellency in Council that the Government should signify its readiness to receive contributions for the Exhibition, take charge of them and forward them to England, the cost of conveyance being defrayed by Government.

3. In order to make this plan effective, it will be necessary, as in 1850, to establish a Central Committee at the seat of each Government, and to appoint as many subordinate Committees in different parts of each Presidency or Province as may appear in the judgment of the Local Government to be called for.

4. The subordinate Committees will be required as the immediate channels of communication with the public, and the Central Committees will be necessary in order to control the selection of articles by rejecting such as they may not deem to be of sufficient interest, to make it desirable that they should be sent to the Exhibition, and also all duplicates of articles of the same nature.

5. The subordinate Committees should be appointed as soon as possible, and a Notification should be published by each Local Government, in the English and Vernacular *Gazettes*, announcing their appointment, and fixing a period, perhaps one month from the date of the Notification, within which the Committees will receive applications from persons desirous of transmitting contributions to the Exhibition. Each subordinate Committee, immediately on the expiration of the period named in the Notification, should forward a list of the articles comprised in the applications they have received to the Central Committee at the seat of Government, and the Central Committee, after examining the lists and removing from them any articles which they do not consider it desirable to send to the Exhibition, will return the lists, as modified, to the respective subordinate Committees, with an intimation of the date by which the articles must reach the Central Committee. It will then only remain for the subordinate Committees to communicate with the persons from whom applications have been received, and to apprise them of the latest date up to which the subordinate Committees will be prepared to receive the contributions which have been approved by the Central Committee. This date will of course be fixed by each Committee with reference to the latest date named by the Central Committee for the reception of contributions. The articles, when received by the Central Committee, will be at once packed and transmitted to England. If possible, the despatch of articles should be made from the port of shipment not later than the 1st of December 1861, except in the case of articles of small bulk, which can be sent by the Overland route without incurring any inordinate expense.

6. Great care should be taken by the subordinate Committees in the first place, and afterwards by the Central Committees, that every article is so numbered or otherwise marked as to be readily identified on a reference to the lists as the contribution of the person by whom it has been sent, and the lists finally prepared by the subordinate Committees should specify against each article in what manner it is intended by the contributor that it should be dealt with. Contributors should be directed to state whether they wish their contributions to be returned to India, or to be sold in England for their benefit. In the latter case the price of the article must be named, and it should be further stated whether, in the event of that price not being procurable, it is desired that the article be sold for what it will fetch, or that it be returned to India. In the case of articles which are returned to India, every care will be taken to secure them from injury in transit, but it must be understood that the Government cannot guarantee their return undamaged. When articles are sent without any instructions, it will be assumed that they are intended to be presented to the Exhibition. These points should be clearly explained to all those who offer to contribute articles to the Exhibition.

7. The selection of Gentlemen for the Committees, the Central as well as the subordinate Committees, will of course rest with the Local Governments, and the Governor General in Council has no doubt that, independently of the Officers of Government, any Gentleman whose services it may be thought desirable to obtain will be ready to afford them upon this occasion.

Cantonments

And Bazars, Military, situated in Native Government States, Assessments in them to Income Tax by whom and how to be made.

Act XXXII of 1860.
Sections IX, XXIV, and XXXI.

The right to appoint Special Assessors is given to the Local Governments by Section XXXI, Act XXXII of 1860, but the powers of a Special Assessor appointed under that Section are confined to the execution of matters in relation to the duties mentioned in Schedules 3 and 4 of the Act. He has no power to act in relation to the matters mentioned in Schedules 1 and 2, which are the principal matters, in

respect of which persons residing in a Military Cantonment or Bazar are subject to the payment of Income Tax. When such Cantonment or Bazar is situate in a Native-governed State, it is competent to the Governor General of India in Council, under Section IX, Act XXXII of 1860, to place it, for the purposes of the Act, within any Revenue jurisdiction which he may think proper, by an Order to be published in the *Calcutta Gazette*. When so placed, the Collector of such Revenue jurisdiction would be in a position to execute the same powers in such Cantonment or Bazar which he can exercise in his own Division or District, and, amongst other things, to appoint, under Section XXIV of the Act, with the sanction of the Local Government, the Cantonment Magistrate as an Assessor, together with such Ministerial and other Officers as may be considered necessary for carrying out the provisions of the Act.—*(Financial Department Order No. 2645, dated 11th March 1861.)*

NOTE.—Under this Construction Aden was constituted a separate Division, and several Military Bazars of the Bombay Presidency situated in Native-governed States were placed within certain specified Revenue jurisdictions.

House,

Property of Government, any person occupying, when liable to be assessed to Income Tax in respect of the rent thereof.

Act XXXII of 1860.
Section XCVII.
Rules 7 and 8.

ANY person occupying a house, the property of Government, is, in respect of the Income Tax, on precisely the same footing as if he occupied a private house. Supposing such person to pay Rack Rent for the house he will be liable to Income Tax on his salary or the annual profits arising to him from any other source, whatever they may amount to, but to nothing additional in respect of the house. If, however, he pay no rent for the house, or if he pay less than Rack Rent, the amount below Rack Rent is profit or income assessable over and above the salary or other profits of such person under Schedule I, Section XCVII (Rules 7 and 8), Act XXXII of 1860. The principle is clear that the rent of a person's private dwelling house is not to be treated as a working expense and deducted from his net income, but as part of the necessary expenditure of that income.

Deduction.

On account of, in what case allowable.

The only case for deduction that can arise is when an Officer pays rent, whether to Government or to some one else, for a larger house than he would otherwise occupy, because he uses part of the house for a Government Office. In such a case, if the arrangement for the Office has been recognized, the Officer who occupies the house is entitled to a *pro rata* deduction for so much of the rent as is fairly due for the Office. He cannot claim a deduction in respect of the entire rent, because part of the house is occupied as an Office.—*(Financial Department Order No.* 2295, *dated 1st March* 1861.*)*

Income Tax.

Exemption of, principle to be observed.

In approving of the exemption from Income Tax of the Funds assigned for charitable purposes as enumerated in the foregoing list, the Governor General of India in Council expressed a doubt whether the Funds termed "Educational" had been rightly exempted under Section CXXVI, Act XXXII of 1860, which merely provides that profits coming to the Government from Trust Funds shall not be liable to Income Tax. That Section, therefore, does not apply where the Government derive no benefit from the profits, but is merely the hand to distribute them; at the same time it was observed that there were cases which clearly come within a fair construction of the term "Charitable," and that if it was an object of policy to encourage education, and especially bequests and donations for educational purposes, the term "Charitable" might fairly be extended to every thing educational which was not of a purely personal or family nature, but of public benefit. Under these circumstances, although a strict construction of the Law would warrant the levy of Income Tax on all Educational Funds, not in the nature of Rugged or Infant Schools, obviously for the benefit of the poorer classes, the Governor General of India in Council was of opinion that the decision of Government on the point should rest on the broad question of policy as to whether it was desirable to lean to the side of liberality in order to encourage such objects as the "Elphinstone Professorship Fund," the Rajah of Dhar Prize Fund, &c. His Excellency in Council considered that the question should be answered in the affirmative, and he accordingly approved of the exemption of the Educational Funds in question, and resolved that the same principle should be applied generally,—*(Financial Department Order No.* 3022, *dated 18th March* 1861.*)*

London, 17th November 1861.

To His Excellency the Right Hon'ble the Governor General of India in Council.

My Lord,—Mr. F. C. Forbes, a Civil Servant on your Establishment, Acting Sub-Treasurer at Madras, has advised his arrival in this Country on one year's *Furlough* on Medical Certificate, granted him by the Madras Government in accordance with an Order of your Government in the Financial Department dated 12th April 1860, No. 3279, wherein, in reply to a reference from the Madras Civil Auditor, as to whether an Officer might take Furlough before the completion of six years from his return from absence on Sick leave, provided his application were supported by a Medical Certificate, you confirmed the decision of the Civil Auditor, Fort William, that the restrictive Rule of six years' service was applicable to Furlough on private affairs; but that when Medical Certificate supported the application that Rule was not resorted to in regulating the same.

2. That decision is at variance with the Orders of the Court of Directors, as contained in the Financial Despatch dated the 23rd July 1856, No. 62, and no deviation from those Orders should have been sanctioned without previous reference to me. In the event, however, of your considering such an alteration in the Rules expedient, I shall not refuse to take into consideration the expediency of sanctioning it.

To the Right Hon'ble Sir Charles Wood, *Bart M. P.*,
Secretary of State for India.

Fort William, the 14th January 1861.

Sir,—We have the honor to acknowledge the receipt of your Financial Despatch No. 184, dated the 17th November last, noticing the arrival in England, on one year's Furlough on Medical Certificate, of Mr. F. C. Forbes, Acting Sub-Treasurer at Madras, and stating that the decision passed by this Government in April last, that the restrictive Rule of six years' service, alluded to in the Orders of this Government of the 10th September 1856, quoted in the margin, is applicable to Furlough on *private affairs*, but that when a Medical Certificate supports the application that Rule is not resorted to in regulating the same, is at variance with the Orders of the Court of Directors, as contained in their Financial Despatch No. 62 of 1856, dated the 23rd July; and observing that no deviation from those Orders should have been sanctioned without previous reference to you, but that in the event of our considering such an alteration in the Rules expedient, you will not refuse to take into consideration the expediency of sanctioning it.

"Civil Servants who have taken leave of absence upon Sick Certificate to Europe or elsewhere beyond Sea will be ineligible to Furlough on private affairs until they have served six years from their last return to duty."

2. In reply we have the honor to intimate that the Rule passed on the 10th September 1856 was founded on the instructions of the Court of Directors, contained in their Despatch, No. 62, of 1856, to which you refer in your Despatch under reply. We think, however, that the Rule then passed was passed under a slight misconstruction of the *letter* of the Court's Despatch, the *Rule* obtaining in the Military Regulations having been adopted instead of merely the *restriction* of six years in the case of Civil Servants to whom *Furlough under Medical Certificate* might be granted, which latter seems to be the view taken by you of the Court's intentions. But this would obviously have placed the Civilian in a more disadvantageous position than the Military Officer, and we do not, therefore, think that the Court really meant what the terms of their Despatch may *literally* be taken to signify. Their intention evidently was that the *Rule* of the Military Department should be adopted, the restriction being applied, as in the Military Regulations, to *Furlough on private affairs*; and this is confirmed by the fact that the Court, in acknowledging the receipt of the Report† of the Proceedings of this

Government, in the Financial Department, for the 3rd Quarter of 1856, made "no remark" on the paragraphs in which the matter was reported to them, and in which the *Rule* in question was submitted to them *in extenso*.

3. You will observe from this that no change is necessary in the Rule laid down by this Government, that Rule having virtually been approved by the Home Government.

India Office;

London, 16*th April* 1861.

To His Excellency the Right Hon'ble the Governor General of India in Council.

My Lord,—I have to acknowledge the receipt of your Financial letter, dated the 14th January last, on the subject of the grant of one year's Furlough to Mr. F. C. Forbes, Acting Sub-Treasurer at Madras, in which you express an opinion that the Rule quoted in the margin was passed under a slight misconception of the letter of the Court's Despatch No 62 of 1856; that the Court did not really mean what the terms of their Despatch might literally be taken to signify, and that their intention was that the Rule of the Military Department should be adopted, the restriction being applied, as in the Military Furlough Regulations, to Furlough on private affairs.

"Civil Servants who have taken leave of absence on Sick certificate to Europe or elsewhere beyond Sea, will be ineligible to Furlough on private affairs until they have served six years from their last return to duty."

2. I am unable to see upon what grounds your Government have arrived at that conclusion, nor why Mr. Forbes has been granted leave which is not only unauthorized by any Rule, but actually prohibited.

3. A Furlough could only have been granted to Mr. Forbes under Chapter IV., Section XV. of the Absentee Rules, which applies exclusively to leave on private affairs, from the benefit of which he is clearly excluded by the Rule passed by your Government in September 1856, under instructions from the late Court of Directors, and in which Rule I concur with you that no change is requisite.

4. No provision is made in the Civil Absentee Rules for "Furlough on Medical Certificate." The Rules only provide for Furloughs and special leaves on private affairs and leaves of absence on Medical Certificate, and there are separate Rules for each class of leave.

5. A Furlough carries with it an allowance at the rate of £500 per annum, and were the interpretation placed by your Government on the Rules sanctioned, the effect would be that a Civilian, after six years' service in India, might come to Europe on leave of absence on Medical Certificate, and draw absentee allowance for three years. He might then return to India, reside there for one year, and, upon the production of another Medical Certificate, proceed to Europe on Furlough and draw £500 per annum for another year, thus spending four out of a service of eleven years in this country, and drawing allowances* all the time. Such an indulgence is not contemplated by the Rules, nor can I concede it.

* Half salary for two years £250 per annum for one year. } S. C.
Furlough allowance for one year £500.

6. In paragraphs 11 and 12 of the Financial Despatch dated 7th April 1857, No. 28, the Court of Directors noticed the case of Mr. Scouce, who, having submitted a Medical Certificate, was granted leave under that Section of the Rules which is applicable to special private affairs. Mr. Sconce was not eligible to leave with allowances under the Sections applicable to leave on Medical Certificate, he having too recently returned from Sick leave to Europe, and the Court of Directors stated that the grant of special leave on private affairs was most irregular, as it was never intended that incapacity from sickness should be admitted as the ground for granting special leave on private affairs. The grant to a Civilian on the production of a Medical Certificate of a Furlough to which he could not be admitted on the ordinary grounds is equally irregular.

7. In the case of Mr. Forbes the same course should have been followed as that pointed out in the case of Mr. Sconce, *viz.* he should have been granted leave, but without pay.

8. Mr. Forbes will, therefore, be informed that the Furlough of one year to which he has been admitted by your Government has been cancelled, and that he has been granted leave of absence for one year on Medical Certificate.

9. The Furlough allowance of £500 per annum which Mr. Forbes has enjoyed up to the present time will cease, and when he may hereafter take a Furlough the amount which he has received for the period, from the 10th July 1860 to the 25th March 1861, will be deducted from the allowance to which he would then be entitled under the Civil Absentee Rules.

10. In order to avoid any further misconception on this subject, I request that, in future, the term "Furlough" may not be applied to leave of absence on Medical Certificate.

I have, &c.,

Extract from the Proceedings of the Government of India in the Financial Department, dated 21st May 1861.

READ the following :—

From T. PYCROFT, Esq., Chief Secretary to Government, Fort St. George, to the Secretary to the Government of India, Home Department,—(No. 489, dated the 9th April 1861.)

SIR,—In his letter of 11th February 1859, the Director of Public Instruction recommended, and by their Order of 26th idem this Government sanctioned, for Deputy Inspectors of Schools, when absent from Head Quarters on duty, a daily allowance of one Rupee per diem for the whole period of absence, in addition to a mileage allowance, at four annas per mile, for the distance actually travelled by them.

Public Department.

2. Both allowances had accordingly, up to January last, been simultaneously passed by the Audit Office. The late Officiating Civil Auditor, however, in submitting* the matter for the consideration of this Government, gave it as his opinion that the daily allowance should be granted, as in the case of other Officers, *only when halting on duty while absent from Head Quarters*, and the mileage for distance actually travelled, the former being inadmissible for days on which the latter was claimed.

* Letter to Government, 23rd January 1861.

3. Concurring in the view taken of the question by his predecessor, Mr. Raynor observed that, according to the acceptation of the term "halt" for audit purposes, an Officer changing his locality within an interval of twenty-four hours, whether during the day or at night, could not be considered to have made a regular halt on that day, and that he had never known halts to be otherwise reckoned in practice as giving a claim to halting allowance.

"A halt is always construed to mean an interval of twenty-four hours (more or less) coming between the interval of twenty-four hours during which an Officer has changed his locality. It is quite impossible to pass an Officer's travelling allowance for thirty days of a month, and also halting allowance for thirty more, merely in consequence of his moving at night and remaining stationary during the day."

4. The Deputy Inspectors of Schools are, it is to be remarked, the only Officers in the Educational Department of this Presidency who draw both mileage and a daily allowance during their tours of duty.

5. On referring to the Director of Public Instruction, the question, whether this exception need be maintained, and whether the daily allowance drawn by Deputy Inspectors might not, as suggested by Mr. Raynor, be changed into haltage, the latter to be drawn only on those days on which no journey was performed, the Director of Public Instruction replied that he was not prepared to recommend the change advocated by the Civil Auditor. "On the contrary," he added, "I should prefer the rule which now applies to the Deputy Inspectors being made applicable to the Inspectors. As observed by Mr. Ricketts in his Report* on travelling allowances, the allowance which, in addition to the mileage for distance actually travelled, is granted to Officers of the Educational Department and others similarly circumstanced, who have frequent and long journeys to perform, whether it be a haltage or a daily allowance, is intended to cover 'the increased expenses incident to absence from home, batta to servants, breakage, lodgings, &c.' All these expenses have equally to be defrayed on days of which a part only is spent in travelling as on those days on which there is no travelling; and if the allowance intended to meet them be withheld because a mileage allowance has been drawn for a certain number of miles travelled during the night, the object with which the former is sanctioned is defeated."

† Last page on Sheet I.

6. Under the opinion thus expressed, this Government have been unwilling to alter the present Rule regulating the travelling allowances of Deputy Inspectors of Schools, under which they have been in the habit of drawing a daily allowance during the whole period of their absence from Head-Quarters on duty as well as mileage. They were not, however, prepared to make any change as regards the travelling allowances of Inspectors of Schools.

7. The decision arrived at on the first of the two points just noticed being adverse to the opinion entertained of the question by Mr. Waterfield, the present Officiating Civil Auditor, he has requested that the matter should be reported to the Government of India. I have the honor, therefore, by desire of His Excellency the Governor in Council, to submit, with the above summary of proceedings, a copy of the correspondence* that has passed on the subject, and to request their instructions on the point, *viz.*, whether Deputy Inspectors of Schools absent from Head Quarters on duty are (in addition to mileage for the distance actually travelled) to receive a daily allowance for their whole period of absence or haltage only for the days that they may not travel.

Proceedings of the Madras Government, Public Department.

READ the following letters :—

From A. J. ARBUTHNOT, Esq., Director of Public Instruction, Madras, to the Chief Secretary to Government, Fort St. George,—(No. 2143, dated the 3rd December 1860.)

SIR,—It has been represented to me† by two of the Inspectors of Schools (Colonel Pears and Mr. Fowler) that the Civil Auditor has declined to pass to them the authorized halting allowance for a day on which, after having halted at the Station on duty, and spent perhaps more than the usual number of working hours in the performance of that duty, they have proceeded during the night to another Station and drawn the prescribed mileage allowance for the journey.

† The letters are enclosed.—Requested to be returned.

2. The present rule for travelling allowance, as applicable to Inspectors of Schools, is that, while absent on duty from Head Quarters, they shall draw a mileage allowance of eight annas a mile for distance actually travelled, and a halting allowance of Rupees 4 per diem, provided that the latter shall not be drawn at the same place for a period in excess of twelve days.*

3. The construction of the Civil Auditor, that the latter allowance is not to be drawn for any day of which a part is spent in travelling, appears to me to be erroneous, and, inasmuch as it tends to discourage the practice of travelling by night, to be prejudicial to the public interests, I am of opinion that, under the present Rules, an Inspector of Schools is entitled to halting allowance for every day on which, when absent from Head-Quarters on duty, he has occasion to halt during the day-time, irrespectively of the question whether the night is passed in travelling or in halting.

REFERRED for the report of the Civil Auditor.

FORT ST. GEORGE,
The 10th December 1860.

From W. J. RAYNOR, ESQ., Officiating Civil Auditor, Madras, to T. PYCROFT, ESQ., Chief Secretary to Government, Fort St. George,—(No. 888, dated the 20th December 1860.)

Contingent Department.

Colonel Pears and Mr. Fowler.

SIR,—I HAVE the honor to reply to the Order of Government, dated 10th instant, referring for report a letter from the Director of Public Instruction, with enclosures from the Inspectors of Schools named in the margin, relative to a question of claim to halting allowance under certain circumstances.

2. The Rules allow Inspectors of Schools, while absent from Head-Quarters on duty, a mileage allowance of eight annas a mile for distance actually travelled, and a halting allowance of 4 Rupees per diem, provided the halts do not exceed twelve days at any one place; and the question at issue is whether halting allowance can be drawn simultaneously with travelling allowance for *the same day*. The Officers concerned claim both allowances on the ground of travelling at night and halting during the day on duty.

3. On informing Mr. Fowler, on 16th August last, that travelling and halting allowance could not be passed for the same day, my predecessor thus* explained the objection taken by this Office, which appears to me perfectly valid, for, according to the acceptation of the term "halt" for audit purposes, an Officer changing his locality within an interval of twenty-four hours, whether during the day or at night, cannot be considered to have made a regular halt on that day, and I have never known halts to be otherwise reckoned in practice as giving a claim to halting allowance.

4. I beg to return the enclosures.

* "A halt is always construed to mean an interval of twenty-four hours (more or less) coming between the interval of twenty-four hours during which an Officer has changed his locality. It is quite impossible to pass an Officer's travelling allowance for thirty days of a month, and also halting allowance for thirty more, merely in consequence of his moving at night and remaining stationary during the day."

MADRAS GOVERNMENT ORDER THEREON, 10TH JANUARY 1861, No. 42.

The Civil Auditor's report will be communicated to the Director of Public Instruction.

The Government see no reason to question the correctness of the view taken by the Auditor.

Proceedings of the Madras Government, Public Department.

Read the following:—

From W. J RAYNOR, ESQ., Officiating Civil Auditor, Madras, to T. PYCROFT, ESQ., Chief Secretary to the Government, Fort St. George,—(No. 30, dated the 23rd January 1861.)

Contingent Department.

SIR,—In letter No. 113, dated 11th February 1859, the Director of Public Instruction reported that the travelling allowance of 1 Rupee per diem, granted to Deputy Inspectors of Schools, was insufficient to meet their expenses, and proposed that they should receive a daily allowance of 1 Rupee and 4 annas mileage when absent from Head-Quarters, which was sanctioned in Extract, Minutes of Consultation, under date 20th of that month, No. 308. Subsequently, in a Proceeding dated 21st April 1859, No. 423, which is on record in this Office, the Director of Public Instruction observed that Deputy Inspectors of Schools were entitled to draw the daily allowance of 1 Rupee during the whole period they were absent from Head-Quarters on duty in addition to the mileage, and both allowances have been simultaneously* passed by this Office. I am not aware whether such was the intention of Government; but as it is not in accordance with general rules to grant any other allowance in addition to mileage for the distance travelled, I beg to submit the matter for the consideration and orders of Government.

* The Deputy Inspector of Malabar and Canara draws, in like manner—a daily allowance of 2 Rupees and 8 annas mileage. *Vide* Government Order No. 274, dated 25th February 1860, Public Department.

2. The daily allowance should, in my opinion, be granted, as in the case of other Officers, only when halting on duty while absent from Head-Quarters, and the mileage for distance actually travelled, the former being inadmissible for days on which the latter is claimed, as explained in my letter to Government No. 888, dated 20th December 1860; Proceedings dated 10th January 1861, No. 42, Public Department.

MADRAS GOVERNMENT ORDER THEREON, 5TH FEBRUARY 1861, No. 182.

IT is observed that, in his letter of 11th February 1859, No. 113, the Director of Public Instruction recommended, and by their Order of 20th idem, No. 308, the Government sanctioned, for Deputy Inspectors of Schools, when absent from Head-Quarters on duty, a daily allowance of 1 Rupee per diem for the whole period of absence, in addition to a mileage allowance at 4 annas per mile for the distance actually travelled by them.

2. It is remarked, however, that Deputy Inspectors of Schools are the only Officers in the

Educational Department who draw both mileage and a daily allowance during their tours of duty.

3. In forwarding the letter of the Acting Civil Auditor to the Director of Public Instruction, the Government resolve to inquire of him whether this exception need be maintained, and whether the daily allowance might not, as suggested by the Civil Auditor, be changed into haltage, the latter to be drawn under the limitation explained in Mr. Raynor's letter of 20th December 1860, No. 888.

Proceedings of the Madras Government, Public Department, 2nd March 1861.

No. 15.—Read the following:—

From A. J. ARBUTHNOT, Esq., Director of Public Instruction, Madras, to the Chief Secretary to Government, Fort St. George,—(No. 252, dated the 12th February 1861.)

SIR,—I HAVE the honor to acknowledge the receipt of the Proceedings of Government, under date the 5th instant, No. 182, calling for my opinion on the Acting Civil Auditor's proposal that the daily allowance granted to Deputy Inspectors of Schools should be changed into haltage, the latter to be drawn only on those days on which no journey is performed.

2. I am not prepared to recommend the change advocated by the Civil Auditor. On the contrary, I should prefer the rule which now applies to the Deputy Inspectors being made applicable to the Inspectors. As observed by Mr. Ricketts in his Report* on travelling allowances, the allowance which, in addition to the mileage for distance actually travelled, is granted to Officers of the Educational Department and others similarly circumstanced, who have frequent and long journeys to perform, whether it be a haltage or a daily allowance, is intended to cover "the increased expenses incident to absence from home, batta to servants, breakage, lodgings, &c." All these expenses have equally to be defrayed on days of which a part only is spent in travelling as on those days on which there is no travelling; and if the allowance intended to meet them be withheld, because a mileage allowance has been drawn for a certain number of miles travelled during the night, the object with which the former is sanctioned is defeated.

* Last page on Sheet L. The pages are not numbered.

3. On these grounds I would advocate the retention of the present Rule in the case of Deputy Inspectors; and I would further recommend that, in the case of the Inspectors, the haltage now granted be changed into a daily allowance, adopting for the latter the rate proposed by Mr. Ricketts, *viz.*, Rupees 3 per diem, instead of Rupees 4 per diem, the present rate. I should have made a recommendation to this effect in my letter† of the 11th February 1859, when proposing the rates of travelling allowance now granted to Deputy Inspectors and Inspectors' Clerks, but was deterred from doing so on the ground that it might be considered inexpedient to adopt any portion of Mr. Ricketts' scheme until the Home Government had passed orders on it as a whole. As, however, the question of travelling allowances is quite distinct from that of salaries, and adverting to the construction of the Civil Auditor, which practically, and I venture to think erroneously, has introduced a change in the operation of the Rules under which haltage allowance has been hitherto drawn by the Inspectors, it seems desirable that the application of the same principle in regulating the travelling allowances of the two classes of Inspecting Officers employed in the Department should be no longer postponed; and I accordingly beg leave to recommend that, from the 1st proximo, the travelling allowances of the Inspectors be fixed at the rates proposed by Mr. Ricketts, *viz.*, 8 annas a mile, and 3 Rupees per diem while absent from Head Quarters.

† Recorded in the Extract from the Minutes of Consultation, under date the 26th of the same month, No. 308.

4. I will take this opportunity of offering a few remarks on the general question of travelling allowances. I have heard it suggested that it would save a good deal of trouble in the auditing of bills, &c., and would on the whole be the more satisfactory arrangement to grant to each Officer whose duties involve travelling, a fixed permanent allowance for the purpose, leaving it to the Head of the Department, or if there be no other official superior, to the Government, to see that this part of each Officer's duty is not evaded. I cannot think that such a change would be advantageous to the Public Service. Again, quoting from Mr. Ricketts' Report,* it is, I would submit, of the utmost importance that, "if avoidable, an Officer's pecuniary interests should never be placed in antagonism with his duty." When a man receives a fixed annual allowance for travelling, irrespectively of the distance travelled by him, or the time spent away from his home, it is clearly to his advantage, in a pecuniary point of veiw, to travel as little as he can. The result in a large Department, I feel assured, would be frequent evasions, or attempts at evasion, of duty, the checking of which would prove no inconsiderable tax on the time and labor of the Departmental Head. Keeping in view the various circumstances which have to be considered, it appears to me that in almost every case—certainly in the case of Officers who have long distances to travel—the plan of a mileage allowance, calculated at a rate sufficient to cover the actual cost of locomotion, and a daily allowance while absent from Head Quarters, sufficient to cover the extra expenses which absence from home necessarily entails, is the best that can be devised, and one which might with advantage be applied more generally than it is at present. The countersignature of the Head of the Department, or, if the Officer receiving the allowances be himself the Head, his signature ought to be sufficient to prove that the journey was necessary and *bonâ fide* on the Public Service; and all that the Audit Office has to do is to ascertain by reference to the Road Book that the calculations are correct.

* Sheet A, page 3.

No. 16. MADRAS GOVERNMENT ORDER THEREON, 2ND MARCH 1861, No. 322.

UNDER the opinion expressed by the Director of Public Instruction, the Government will not alter the present Rule regulating the travelling allowances of Deputy Inspectors of Schools, under which they draw a daily allowance during the period of their absense from Head Quarters on duty as well as mileage.

2. The Governor in Council is not, however, prepared to make any change as regards the

travelling allowances of Inspectors of Schools, nor will he now enter upon the consideration of the larger question raised in the concluding paragraph of Mr. Arbuthnot's letter.

From W. Waterfield, Esq., Officiating Civil Auditor, Madras, to T. Pycroft, Esq., Chief Secretary to Government, Fort St. George,—(No. 88, dated 20th March 1861.)

Sir,—I have the honor respectfully to request that the decision of Government, No. 322, of the 2nd instant, may be reported to the Supreme Government.

2. There is nothing in the case peculiar to Madras, and I think a uniform Rule should be adopted for all the Presidencies.

3. I am not able to refer to Mr. Ricketts' Report; but it appears to me that the Director of Public Instruction is wrong in his premises. He argues as if the mileage allowance were the *actual travelling expenses*, whereas I am under the impression that it is intended as a consolidated allowance to include both charges of actual travel, and a compensation for the increased expenses incident to absence from home. For this reason, Officers have always their choice to draw mileage or tentage whichever they find most advantageous; but so far as I am aware, in no other instance are they permitted to receive both at once.

Memorandum.—The Rule is that travelling allowance be granted to Deputy Inspectors of Schools "at the rate of four annas per mile travelled, and one Rupee per diem while absent from Head Quarters." From this it is clear that the daily allowance is to be drawn for the whole term of absence from Head Quarters, and the receipt of mileage in the interim would be no bar to it; but as the receipt of both allowances for the same day by Officers of other Departments is interdicted, it has been the practice to grant either the mileage or haltage for the same day.

Resolution.—The Governor General in Council is pleased to resolve that, in supersession of the existing Rule, travelling allowance be granted in future to Deputy Inspectors of Schools when absent from Head Quarters on duty, either at the rate of four annas a mile travelled, or at one Rupee per diem, but not both the allowances for the same day.

No. 535 *of* 1861.—The leave to Europe, on Sick Certificate, granted to Lieutenant W. L. P. CONDITIONS OF SALE.

First.—That the Premises shall be put up in one or more lots, as may be determined, on behalf of Government, before the Sale.

Second.—That the highest bidder, above such upset price as shall be announced in respect of each lot by the Auctioneer, shall be the purchaser; and if any dispute arise between two or more bidders, the lot to which such dispute relates shall be immediately put up again.

Third.—That no person shall retract his or her bidding.

Fourth.—That the purchaser of any lot or lots shall, immediately after such lot or lots shall be knocked down to him, pay to the Solicitor to Government a moiety of the purchase-money, and shall sign an agreement to pay the remainder of such purchase-money to the Solicitor to Government, and to accept a conveyance, executed as hereinafter provided, at or before the expiration of one calendar month from the day of Sale. But if, from any delay on the part of the purchaser, the purchase shall not be completed at the expiration of one month from the day of Sale, the purchaser shall pay the Vendor interest at the rate of ten per cent. per annum on the remainder of the purchase money, from the day when the same ought to be paid as aforesaid, until the purchase shall be completed.

Fifth.—That as the Title Deeds are lost, the purchaser or purchasers shall not be at liberty to insist on their production, and shall not require any evidence of the title of the Vendors to the Premises.

Sixth.—That, on payment of the remaining moiety of his purchase-money, each purchasor shall accept a conveyance of the Premises, executed by His Excellency the Governor General in Council, on behalf and in the name of the Secretary of State for India in Council, with covenants, qualified in the usual manner, for the quiet enjoyment, freedom from encumbrances, and further assurance of the Premises, and shall thereupon be put in possession.

My Lord,—I transmit herewith, for the information of your Excellency's Government, a printed copy of Her Majesty's Proclamation for the maintenance of Neutrality, pending the hostilitie which have broken out in the United States of America.

I have, &c.,
(Sd.) C. Wood.

BY THE QUEEN.

A PROCLAMATION.

Victoria R.

Whereas we are happily at Peace with all Sovereigns, Powers, and States:

And whereas Hostilities have unhappily commenced between the Government of the United States of America and certain States styling themselves the Confederate States of America:

And whereas We, being at Peace with the Government of the United States, have declared Our Royal Determination to maintain a strict and impartial Neutrality in the Contest between the said contending Parties:

We therefore have thought fit, by and with the Advice of Our Privy Council, to issue this Our Royal Proclamation:

And We do hereby strictly charge and command all Our loving Subjects to observe a strict Neutrality in and during the aforesaid Hostilities, and to abstain from violating or contravening either the Laws and Statutes of the Realm in this Behalf, or the Law of Nations in relation thereto, as they will answer to the contrary at their Peril:

And whereas in and by a certain Statute made and passed in the Fifty-ninth Year of His Majesty King George the Third, intituled "An Act to "prevent the Enlisting or Engagement of His "Majesty's Subjects to serve in a Foreign Service, "and the fitting out or equipping, in His "Majesty's Dominions, Vessels for Warlike Pur-"poses, without His Majesty's Licence," it is amongst other things declared and enacted as follows:—

"That if any natural-born Subject of His Majesty, His Heirs and Successors, without the Leave or Licence of His Majesty, His Heirs or Successors, for that Purpose first had and obtained, under the Sign Manual of His Majesty, His Heirs or Successors, or signified by Order in Council, or by Proclamation of His Majesty, His Heirs or Successors, shall take or accept, or shall agree to take or accept, any Military Commission, or shall otherwise enter into the Military Service as a Commissioned or Non-Commissioned Officer, or shall enlist or enter himself to enlist, or shall agree to enlist or to enter himself to serve as a Soldier, or to be employed or shall serve in any Warlike or Military Operation in the Service of or for or under or in aid of any Foreign Prince, State, Potentate, Colony, Province, or Part of any Province or People, or of any Person or Persons exercising or assuming to exercise the Powers of Government in or over any Foreign Country, Colony, Province, or Part of any Province or People, either as an Officer or Soldier, or in any other Military Capacity; or if any natural-born Subject of His Majesty shall, without such Leave or Licence as aforesaid, accept, or agree to take or accept, any Commission, Warrant, or Appointment as an Officer, or shall enlist or enter himself, or shall agree to enlist or enter himself, to serve as a Sailor or Marine, or to be employed, or engaged, or shall serve in and on board any Ship or Vessel of War, or in and on board any Ship or Vessel used or fitted out, or equipped or intended to be used for any Warlike Purpose, in the Service of or for or under or in aid of any Foreign Power, Prince, State, Potentate, Colony, Province, or Part of any Province or People, or of any Person or Persons exercising or assuming to exercise the Powers of Government in or over any Foreign Country, Colony, Province, or Part of any Province or People; or if any natural-born Subject of His Majesty shall, without such Leave and Licence as aforesaid, engage, contract, or agree to go, or shall go to any Foreign State, Country, Colony, Province, or Part of any Province, or to any Place beyond the Seas, with an Intent or in order to enlist or enter himself to serve, or with Intent to serve in any Warlike or Military Operation whatever, whether by Land or by Sea, in the Service of or for or under or in aid of any Foreign Prince, State, Potentate, Colony, Province or Part of any Province or People, or in the Service of or for or under or in aid of any Person or Persons exercising or assuming to exercise the Powers of Government in or over any Foreign Country, Colony, Province, or Part of any Province or People, either as an Officer or a Soldier, or in any other Military Capacity, or as an Officer or Sailor, or Marine in any such Ship or Vessel as aforesaid, although no Enlisting Money or Pay or Reward shall have been or shall be in any or either of the Cases aforesaid actually paid to or received by him, or by any Person to or for his Use or Benefit; or if any Person whatever, within the United Kingdom of Great Britain and Ireland, or in any Part of His Majesty's Dominions elsewhere, or in any Country, Colony, Settlement, Island, or Place belonging to or subject to his Majesty, shall hire, retain, engage, or procure, or shall attempt or endeavor to hire, retain, engage, or procure any Person or Persons whatever to enlist, or to enter or engage to enlist, or to serve or to be employed in any such Service or Employment as aforesaid, as an Officer, Soldier, Sailor, or Marine, either in Land or Sea Service, for or under or in aid of any Foreign Prince, State, Potentate, Colony, Province, or Part of any Province or People, or for or under or in aid of any Person or Persons exercising or assuming to exercise any Powers of Government as aforesaid, or to go or to agree to go or embark from any Part of His Majesty's Dominions, for the Purpose or with Intent to be so enlisted, entered, engaged, or employed as aforesaid, whether any Enlisting Money, Pay, or Reward shall have been or shall be actually given or received, or not; in any or either of such Cases, every Person so offending shall be deemed guilty of a Misdemeanor, and upon being convicted thereof, upon any Information or Indictment, shall be punishable by Fine and Imprisonment, or either of them, at the Discretion of the Court before which such Offender shall be convicted."

And it is in and by the said Act further enacted,—

"That if any Person, within any Part of the United Kingdom, or in any Part of His Majesty's Dominions beyond the Seas, shall, without the Leave and Licence of His Majesty for that Purpose first had and obtained as aforesaid, equip, furnish, fit out, or arm, or attempt or endeavor to equip, furnish, fit out, or arm, or procure to be equipped, furnished, fitted out, or armed, or shall knowingly aid, assist, or be concerned in the equipping, furnishing, fitting out, or arming, of any Ship or Vessel, with Intent or in order that such Ship or Vessel shall be employed in the Service of any Foreign Prince, State, or Potentate, or of any Foreign Colony, Province, or Part of any Province or People, or of any Person or Persons exercising or assuming to exercise any Powers of Government in or over any Foreign State, Colony, Province, or Part of any Province or People, as a Transport or Store Ship, or with Intent to cruise or commit Hostilities against any Prince, State, or Potentate, or against the Subjects or Citizens of any Prince, State, or Potentate, or against the Persons exercising or assuming to exercise the Powers of Government in any Colony, Province, or Part of any Province or Country, or against the Inhabitants of any Foreign Colony, Province, or Part of any Province or Country, with whom His Majesty shall not then be at War; or shall, within the United Kingdom, or any of His Majesty's Dominions, or in any Settlement, Colony, Territory, Island, or Place belonging or subject to His Majesty, issue or deliver any Commission for any Ship or Vessel, to the Intent that such Ship or Vessel shall be employed as aforesaid, every such Person so offending shall be deemed guilty of a Misdemeanor, and shall, upon Conviction thereof upon any Information or Indictment, be punished by Fine and Imprisonment, or either of them, at the Discretion of the Court in which such Offender shall be convicted; and every such Ship or Vessel, with the Tackle, Apparel, and Furniture, together with all the Materials, Arms, Ammunition, and Stores, which may belong to or be on board of any such ship or Vessel, shall be forfeited; and it shall be lawful for any Officer of His Majesty's Customs or Excise, or any Officer of His Majesty's Navy, who is by Law empowered to make Seizures for any Forfeiture incurred under any of the Laws of Customs or Excise, or the Laws of Trade and Navigation, to seize such Ships and Vessels aforesaid,

and in such Places and in such Manner in which the Officers of His Majesty's Customs or Excise and the Officers of His Majesty's Navy are empowered respectively to make Seizures under the Laws of Customs and Excise, or under the Laws of Trade and Navigation; and that every such Ship and Vessel, with the Tackle, Apparel, and Furniture, together with all the Materials, Arms, Ammunition, and Stores which may belong to or be on board of such Ship or Vessel, may be prosecuted and condemned in the like Manner, and in such Courts as Ships or Vessels may be prosecuted and condemned for any Breach of the Laws made for the Protection of the Revenues of Customs and Excise, or of the Laws of Trade and Navigation."

And it is in and by the said Act further enacted,—

"That if any Person in any Part of the United Kingdom of Great Britain and Ireland, or in any Part of His Majesty's Dominions beyond the Seas, without the Leave and Licence of His Majesty for that Purpose first had and obtained as aforesaid, shall, by adding to the Number of the Guns of such Vessel, or by changing those on board for other Guns, or by the Addition of any Equipment for War, increase or augment, or procure to be increased or augmented, or shall be knowingly concerned in increasing or augmenting, the Warlike Force of any Ship or Vessel of War, or Cruizer, or other armed Vessel, which at the Time of her arrival in any Part of the United Kingdom or any of His Majesty's Dominions was a Ship of War, Cruizer, or armed Vessel in the Service of any Foreign Prince, State, or Potentate, or of any Person or Persons exercising or assuming to exercise any Powers of Government in or over any Colony, Province, or Part of any Province or People belonging to the Subjects of any such Prince, State, or Potentate, or to the Inhabitants of any Colony, Province, or Part of any Province or Country under the Control of any Person or Persons so exercising or assuming to exercise the Powers of Government; every such Person so offending shall be deemed guilty of a Misdemeanor, and shall, upon being convicted thereof upon any Information or Indictment, be punished by Fine and Imprisonment, or either of them, at the Discretion of the Court before which such Offender shall be convicted."

Now, in order that none of Our Subjects may unwarily render themselves liable to the Penalties imposed by the said Statute, We do hereby strictly command, that no Person or Persons whatsoever do commit any Act, Matter, or Thing whatsoever contrary to the Provisions of the said Statute, upon Pain of the several Penalties by the said Statute imposed, and of Our high Displeasure.

And We do hereby further warn all Our loving Subjects, and all Persons whatsoever entitled to Our Protection, that if any of them shall presume, in contempt of this Our Royal Proclamation, and of Our high Displeasure, to do any Acts in derogation of their Duty, as Subjects of a Neutral Sovereign in the said Contest, or in violation or contravention of the Law of Nations in that Behalf; as for Example, and more especially, by entering into the Military Service of either of the said contending Parties as Commissioned or Non-Commissioned Officers or Soldiers; or by serving as Officers, Sailors, or Marines on board any Ship or Vessel of War or Transport of or in the Service of either of the said contending Parties; or by serving as Officers, Sailors, or Marines on board any Privateer bearing Letters of Marque of or from either of the said contending Parties; or by engaging to go or going to any Place beyond the Seas with Intent to enlist or engage in any such Service, or by procuring or attempting to procure within Her Majesty's Dominions at home or abroad, others to do so; or by fitting out, arming, or equipping any Ship or Vessel to be employed as a Ship of War or Privateer or Transport by either of the said contending Parties; or by breaking or endeavoring to break any Blockade lawfully and actually established by or on behalf of either of the said contending Parties; or by carrying Officers, Soldiers, Despatches, Arms, Military Stores, or Materials, or any Article or Articles considered and deemed to be Contraband of War, according to the Law or Modern Usage of Nations, for the Use or Service of either of the said contending Parties, all Persons so offending will incur and be liable to the several Penalties and penal Consequences by the said Statute or by the Law of Nations in that Behalf imposed or denounced.

And We do hereby declare, that all Our Subjects, and Persons entitled to Our Protection, who may misconduct themselves in the Premises, will do so at their Peril and of their own Wrong, and that they will in nowise obtain any Protection from Us against any Liabilities or penal Consequences, but will, on the contrary, incur Our high Displeasure by such Misconduct.

Given at Our Court at the White Lodge, Richmond Park, this Thirteenth Day of May, in the Year of our Lord One thousand eight hundred and sixty-one, and in the Twenty-fourth Year of Our Reign.

GOD SAVE THE QUEEN.

FINANCIAL DEPARTMENT.

No. 121.

Extract from the Proceedings of the Government of India, in the Financial Department, dated 15th June 1861.

READ again the under-mentioned papers on the subject of the new system of Budget, Audit, and Account:—

Letter from the Budget and Audit Committee No. 6, dated 27th October 1860.

Financial Resolution, No. 11300, dated 14th November 1860.

Letter from the Budget and Audit Committee, No. 10, dated 18th January 1861.

Financial Resolution, No. 852, dated 26th idem.

RESOLUTION.—The Governor General in Council observes that, in paragraph 57 of the Budget and Audit Committee's Report, No. 6 of the 27th October 1860, the dates fixed for the preparation of the several Returns were the following:—

The Departmental Budget Estimates to reach the Local Civil Auditors (Accountants) by the 1st January.

The Local Civil Auditors (Accountants) to close their several Budget Estimates, so as to reach the Local Governments by the 15th January.

The Local Governments to examine the Budget Estimates and send them in to the Financial Department of the Government of India on the 1st February.

The Local Civil Auditors (Accountants) to forward, direct to the Financial Department of the Government of India, their Estimates of Cash Requirements on the 1st February.

2. It was also proposed in the same Report that the Military and Naval Estimates should be prepared and forwarded, under orders of the Military Finance Department, to the Deputy Auditors General at Madras and Bombay, who should incorporate them with the Civil Estimates in one General Statement for the Presidency, and that such General Statement should be sent through the Local Government to the Financial Department of the Government of India, by which Department it was intended that the Military and Naval portions of the Estimates should be sent for report to the Military Finance Department.

3. The Governor General in Council also observes that, in paragraph 48 of the Budget and Audit Committee's Report, No. 10 of the 18th January 1861, the Budget and Audit Committee repeated their opinion that this last-mentioned course should be followed; but instead of the combined Military and Naval Estimates being forwarded, after revision, direct to the Government of India by the Military Finance Department, they considered that it should be forwarded by that Department to the Auditor General. In like manner they thought that the Civil Estimates of all the Presidencies and Administrations should be forwarded by the Financial Department of the Government of India to the Chief of the Civil Finance Department for revision, and when the Estimates of the two Departments have respectively thus been revised, that the whole should be consolidated into one General Abstract Estimate by the Auditor General of India, for submission to the Financial Department of the Government of India.

4. It will certainly, His Excellency in Council thinks, be desirable, as time goes on, that the Chiefs of the Civil and Military Finance Departments should review the Budgets as they are received. There will, doubtless, be information at their command in connection with the detailed expenditure of the several Presidencies, which will not be available elsewhere, and they will, in consequence, be able to offer a better opinion as to the heads under which reductions may be feasible in the expenditure of the several Departments of the several Governments than can be looked for from any other Officers. But it will be indispensable, in order to enable the Chiefs of the Departments to effect their revisions of the Estimates in proper time, that the Budget Estimates should be delivered on earlier dates than those mentioned above; and His Excellency in Council believes that it will also be advisable to rescind that part of the prescribed practice which provides for the consolidation, by the Auditor General, of the whole of the Budgets into "one General Abstract Estimate" for submission to the Financial Department.

5. Complaints have been received from more than one Local Deputy Auditor that sufficient time is not now allowed to compile their Budget Estimates from the Departmental Estimates. It has also been urged that fifteen days are not more than sufficient for a proper revision of the Returns of the Local Deputy Auditors by the Local Governments, and as, after the Estimates have been received in this Department from the Local Governments, they will have to be reviewed by the Chiefs of the Civil and Military Finance Departments before they are brought to be finally disposed of by the Government of India in the Financial Department, it is essential, His Excellency in Council thinks, that the dates for the delivery of the Estimates should be changed. And, on a re-consideration of the question, he accordingly directs that the following dates be observed in the place of those prescribed in paragraph 57 of the Budget and Audit Committee's Report, No. 6 of the 27th October:—

Departmental Budget Estimates to reach the Local Civil Auditors (Accountants) by the 15th December.

The Local Civil Auditors (Accountants) to close their several Budget Estimates so as to reach the Local Governments on the *10th January*.

The Local Governments to examine the Budget Estimates and send them in to the Financial Department of the Government of India on the *25th January*.

The Financial Department to send them on to the Chiefs of the Civil and Military Finance Departments immediately on receipt.

The Local Deputy Auditors (Accountants) to forward, direct to the Financial Department of the Government of India, their Estimates of Cash Requirements on the 1st February (as at present.)

6. In regard to the consolidation of the Estimates by the Auditor General, His Excellency in Council considers the measure unadvisable, because it will, in all probability, not be final. Alterations in the Local Estimates will almost certainly be made in the Financial Department, and a fresh consolidated Estimate will, in consequence, have to be prepared. There will not either be time for both the consolidation by the Auditor General, and a proper review of the Estimates in the Financial Department. The one or the other must therefore be omitted, and as there is no doubt of the necessity of a full and careful examination of all the entries in the Financial Department before the Budget is finally passed, His Excellency in Council has decided that the revision shall be made in the Financial Department before the consolidated Estimate is prepared, and also that the consolidation shall be effected in the Financial Department as it has been done heretofore.

ORDERED, that a copy of the above Resolution be forwarded to the Budget and Audit Committee for information.

Ordered also, that a copy of the Resolution be sent to the Departments,* Governments,† and Officers,‡ noted in the margin, for information and guidance.

Ordered further, that the Resolution be published in the *Government Gazette* for general information, and that a copy be forwarded for the information of the Right Hon'ble the Secretary of State for India.

No. 558 *of* 1861.—His Excellency the Governor General in Council, under instructions from Her Majesty's Government, is pleased to notify that, in order to obliterate, as far and as soon as possible, the distinctions between Officers of Her Majesty's British and Indian Services, and to afford to such Officers of the Indian Army as may prefer the conditions of general service an opportunity of obtaining a position in the British Army, Her Majesty has been pleased to approve that, for every vacancy caused in a Line Regiment by the transfer of an Officer to the Staff Corps constituted by the Royal Warrant of the 16th January 1861, a transfer of an Officer of corresponding rank in Her Majesty's Indian Army, who may be disposed to accept of such transfer, should be made to the Regiment in which the vacancy takes place.

Appointments of Officers of the Indian Army to the vacancies in Her Majesty's Line Regiments will not, however, be made in India even provisionally; but His Excellency the Commander-in-Chief in India will submit, through the Government of India, for the consideration of His Royal

Highness the General Commanding-in-Chief, and for submission to Her Majesty, the name, rank, date of commission, and nature of previous services of the Officer whom His Excellency may recommend for each vacancy.

Officers desirous now or hereafter of being transferred to Line Regiments are to submit their application to the Commander-in-Chief of the Presidency to which they belong through the prescribed channel.

FINANCIAL DEPARTMENT.

GENTLEMEN,—I AM directed to acknowledge the receipt of your letter No. 18, dated the 14th instant, and in reply to inform you that His Excellency the Governor General in Council is pleased to approve of the Rules recommended by you for giving effect to the proposal that the several Local Auditors should make periodical visits to the Local Treasuries in their jurisdiction.

I have, &c.,

(Signed) C. H. LUSHINGTON,
Secy. to the Govt. of India.

RULES.

It shall be the duty of every Deputy Auditor and Accountant-General periodically to visit and inspect every subordinate Office of Account, and to satisfy himself that the Rules and Regulations of the Department are correctly and intelligently carried out.

These inspections shall be made in the first instance as soon as circumstances will permit, and should subsequently be so arranged, that every Office may come under inspection at least every third year.

When the Deputy Auditor and Accountant-General is unable himself to visit an Office, which, in his opinion, needs inspection, he may depute any competent Officer on his Establishment to fulfil the duties of inspection, with such instructions as may appear necessary, to which also all subordinate Offices of Account will be bound to conform.

In cases where personal inspection by the Head of the Department or by deputed Officer cannot conveniently be resorted to, the Deputy Auditors and Accountants-General will cause to be transmitted to them for examination such of the Ledgers, Daily Registers, and Books of Account of any Office for the previous or last year for which they have been made up as may appear necessary to shew that the prescribed system of Accounts is properly and strictly attended to.

Bonâ fide travelling and deputation expenses will be allowed to Inspecting Officers at a rate not exceeding five Rupees a day.

No. 123.

ORDERED, that a copy of the foregoing be published in the *Calcutta Gazette* for the information and guidance of the several Local Auditors and Accountants-General.

EXTRACT FROM THE PROCEEDINGS OF THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

PUBLIC WORKS DEPARTMENT,

READ the following correspondence regarding the salary due to Major G. Chesney during the time he officiated as Principal of the Civil Engineering College at the Presidency, at the same time that he had substantive charge of the Bengal Office of P. W. Accounts:—

To Major Chesney No. 8648, dated 20th December 1859.

From Major Chesney No. 302, dated 22nd December 1859.

Extract, Financial Department, No. 1748, dated 8th March 1860.

To Secretary to Government of Bengal No. 1101, dated 16th March 1860.

From Secretary to Government of Bengal No. 742, dated 20th February 1861.

To Controller of Military Finance No. 675, dated 6th March 1861.

From Controller of Military Finance No. 1179, dated 3rd April 1861.

To Secretary to Government of Bengal No. 1381, dated 27th April 1861.

From Officiating Civil Pay-master No. 5, dated 6th May 1861.

OBSERVATIONS.—On reviewing this case, His Excellency the Governor General in Council observes that the facts appear to have been overlooked or misunderstood both in this Department and by the Officers under the Financial Department. The real state of the case is as follows:—

2. When Major Chesney held the post of *Officiating* Principal of the Civil Engineering College he was appointed to the *substantive* post of Controller and Auditor (now Controller and Examiner) of Public Works Accounts in Bengal, in succession to Captain Dickens, and from the 26th January to 21st December 1860 he performed the duties of both Offices.

3. Major Chesney drew a Staff salary of Rupees 650 a month as Officiating Principal, and, on being appointed to the substantive charge of the Bengal Account Office, he was told he was entitled, for the present, to draw such portion of his predecessor's (in the Account Office) Staff salary in addition to his salary as Officiating Principal as the Civil Auditor might consider admissible under the circumstances.

4. The Civil Auditor appears to have understood that Major Chesney was appointed to *act* as Controller and Auditor, and that his Staff appointment was that of Principal of the Civil Engineering College, and he suggested that he should "draw the pay of his Staff appointment in full, and, in addition thereto, a moiety of the Staff salary of Captain Dickens, as Officer in charge of the Central Office of Accounts," to the extent of Rupees 150 per mensem. This suggestion

was approved in the Financial Department, and was passed on through this Office to the Bengal Government.

5. Major Chesney appealed against this decision, referring to Financial Resolution of the 16th March 1860, which rules that an "Officer" holding a permanent appointment, who is called upon to perform the duties of another or second office (not subordinate to his own), shall receive a moiety of the salary of the appointment in which he is officiating, in addition to the full salary of his own appointment, provided that no extra expense be entailed on Government. It was declared, however, in the Financial Department, that this Resolution is only applicable to Uncovenanted Servants. This is perhaps the case, though there is nothing in the Resolution itself to shew that it is so.

6. When a further appeal from Major Chesney was forwarded to the Government of India in this Department, the case was referred to the Controller of Military Finance for his view of it. This Officer appears to have understood that Major Chesney held *two Officiating* appointments, but stated, notwithstanding, that a Military Officer similarly situated would, under the Military Rules, have been allowed the full Staff pay of his own appointment, and a moiety of the Staff pay of the absentee, under Section XXXII., paragraph 19, page 329 of the Pay Code.*

* "When Staff Officers are directed to officiate in other than their permanent appointments, and perform the duties of both situations, they will be permitted to draw the authorized Salaries and Office Allowances annexed to their permanent appointments, in addition to a moiety of the Salary of the situation they may be selected temporarily to fill, together with the Office Allowances attached, with exception to House Allowance and House-rent (or any corresponding Allowance), which are admissible in one capacity only."

7. The letter from this Department No. 1381, dated 27th April 1861, to the Government of Bengal, issued after the receipt of the above opinion, claiming for Major Chesney full salary as Principal, and half salary of Controller and Examiner, under Financial Resolution of 16th March 1860, appears to have been written under a double error, *viz.*, that the Resolution is applicable to other than Uncovenanted Servants, and that the Principalship was Major Chesney's substantive appointment.

8. Mr. Sandeman's reply to it corrects one of the errors in stating that the Resolution of the 16th March 1860 is not applicable to Covenanted Servants, and therefore he maintains that Major Chesney's claim to the additional allowance, while "acting" as Controller and Examiner, is inadmissible under the ruling of the Government of India in the Financial Department, *dated 19th July* 1860. It is not known in this Department what ruling is referred to here.

9. But on the general merits of the present case, as it really stands, the Governor General in Council observes that there appears to be a distinct Rule in such cases applicable to Military appointments, and an equally distinct and identical Rule applicable to Uncovenanted Civil appointments, and that there surely ought to be some rule or principle applicable to Civil appointments held by Military Officers.

10. It is true that it is perhaps not possible that, in such a case, the duties of both offices can be perfectly performed, but this is just as applicable to the incumbents of Military or Uncovenanted appointments; and the union must certainly, in the case of a conscientious Officer, entail very severe work.

ORDERED, that the correspondence now read, and the above explanations and remarks, be forwarded to the Financial Department, with a request that the point may be re-considered.

SIR,—BY our letter No. 5 of the 15th October last, in reporting on the Marine Accounts, we proposed, paragraph 3, that the Secretary to the Superintendent of Marine should fulfil the duties

of Departmental Auditor of Marine Accounts, who, in subordination to the Superintendent of Marine, and on his responsibility, would check and examine all charges save those for fixed Establishments. The Accounts thus passed provisionally would be submitted in detail to the Civil Pay-master, and ultimately to the Deputy Auditor General, according to the Rules now established for detailed examination and independent check.

2. Again, paragraph 4, we proposed that the charges for fixed Establishments in the Marine should continue to be passed by the Civil Pay-master, and to aid that Officer in the additional duties which might be imposed on him on account of the Marine Department, we recommended an Establishment aggregating Rupees 585 per mensem.

3. By your letter No. 10693 of the 20th October, the general approval of Government to the above principles was conveyed, and we were directed to submit the detailed propositions necessary to give effect to the plan.

4. Shortly afterwards the entire Marine Department came under the review of the Civil Finance Commission. And as it was understood that considerable changes in system might be proposed, we ventured to defer the submission of further propositions on our part until the Report of the Commission should have been submitted to Government and orders passed thereon. That Report has now been received, and the orders of Government have been passed in the Home Department, bearing date the 15th May last. As those orders are succinctly stated in the Resolution of the Home Department, it were superfluous for us to recapitulate them here. But viewing them in connexion with our former plan, we find that it is no longer applicable to the Marine Department as now constituted. The Department itself is much reduced in size; the appointment and the Office Establishment of the Superintendent of Marine are abolished, and that part of his duties necessary to be retained is transferred to the newly created office of Naval Secretary and Controller of Marine Affairs.

5. According to the now system new sanctioned by Government, a part of the charges heretofore audited by the Superintendent of Marine will be audited by the Military Finance Department, and a part by the Deputy Auditor General and Civil Pay-master. The distribution of the work will be as follows:—

To be audited by the Military Finance Department—

The Dock-yard Charges.

The Inland Marine Do.

To be audited in the Civil Department—

The Pilot Service Charges.

The Port Charges.

Miscellaneous Charges.

There remains one category of charges, namely, that which is known as the Sea-going Marine.

6. We have carefully considered whether these Charges should be audited as at present, in the Civil or in the Military Department, and we have come to the conclusion that it will be more simple and convenient if the duties of audit and account follow the distribution of work, generally prescribed in paragraph 8 of the Resolution of Government above quoted, according to which the whole of the Marine Charges and Accounts under the Government of India will be subjected to the examination and audit of the Military Finance Department, while those which remain under the Government of Bengal continue to be passed in the Civil Department.

7. It will then only be necessary that the Military Finance Department make provision for the separate exhibition of Marine Charges by means of Abstract Returns or a subsidiary set of Books to be submitted periodically to the Accountant-General, by whom they will be entered in their proper place as Civil Charges, credit being taken for such sums as may have been disbursed for the purposes of the Military Department.

8. For the duties that will thus remain with the Civil Department, we believe that a Special Examiner of Marine Accounts, as at first proposed, will not be required. The more difficult portion of the audit work will be transferred to the Military Finance Department. The Civil Charges will be such as the Civil Pay-master can deal with without further assistance, and we trust that the additional Establishment will not be needed. As regards Fixed Charges, the audit of these is settled by existing Rules. As regards Contingent Charges, they will in future be of a comparatively limited character, and we believe that the Civil Pay-master will be able to check them sufficiently.

We have, &c.,
